Antonio Gardano, Venetian Music Printer, 1538-1569
2013-07-18 ovid is today best known for his grand epic metamorphoses and elegiac works like the ars amatoria and heroides yet he also wrote a medea now unfortunately lost

this play kindled in him a lifelong interest in the genre of tragedy which informed his later poetry and enabled him to continue his career as a tragedian if only on the page instead of the stage this book surveys tragic characters motifs and modalities in the heroides and the metamorphoses in writing love letters ovid's heroines and heroes display their suffering in an epistolary theater in telling transformation stories ovid offers an exploded view of the traditional theater although his characters never stray too far from their dramatic origins both works constitute an intratextual network of tragic stories that anticipate the theatrical excesses of seneca and reflect the all encompassing spirit of roman imperium

Tragedy in Ovid 2011-01-01 kniha odborníků v oblasti výzkumu německa si klade otázku jaký charakter má zahraniční politika tohoto klíčového evropského státu v období rostoucího tlaku globalizace nejvýraznější reformy evropské unie lisabonská smlouva eu úsilí na záchranu eurozóny a se změnou americké politiky po nástupu prezidenta baracka obamy

1986-06-25 amid the rising nationalism and racial politics that culminated in world war ii european countries wishing to purify their nations often forced unwanted populations to migrate the targeted minorities had few options but as r chris davis shows they sometimes used creative tactics to fight back redefining their identities to serve their own interests davis's highly illuminating example is the case of the little known moldavian csangos a hungarian and romanian speaking community of roman catholics in

eastern romania during world war ii some in the romanian government wanted to expel them the hungarian government saw them as hungarians and wanted to settle them on lands confiscated from other groups resisting deportation the clergy of the csangos enlisted romania s leading racial anthropologist collected blood samples and rewrote a millennium of history to claim romanian origins and national belonging thus escaping the discrimination and violence that devastated so many of europe s jews roma slavs and other minorities in telling their story davis offers fresh insight to debates about ethnic allegiances the roles of science and religion in shaping identity and minority politics past and present
