other parts of the historic city the earliest features encountered were discovered both near to the line of ermine street and towards broadgate remains of timber storage buildings were found probably associated with the roman legionary occupation in the later 1st century ad the earliest occupation of the hillside after the foundation of the colonia towards the end of the century consisted mainly of commercial premises modest residences and storage buildings it seems likely that the boundary of the lower enclosure was designated before it was fortified in the later 2nd century with the street pattern belonging to the earlier part of the century larger aristocratic residences came to dominate the hillside with public facilities fronting on to the line of the zigzagging main route in the 4th century the fortifications were enlarged and two new gates inserted examples of so called dark earth deposits were here dated to the very latest phases of roman occupation elements of some roman structures survived to be reused in subsequent centuries there are hints of one focus in the middle saxon period in the area of st peter s church but occupation of an urban nature did not recommence until the late 9th century with the first phases of anglo scandinavian occupation recorded here sequences of increasingly intensive occupation from the 10th century were identified with plentiful evidence for industrial activity including pottery metalworking and other crafts as well as parish churches markets were established in the 11th century and stone began to replace timber for residential structures from the mid 12th century with clear evidence of the quality of some of the houses with the decline in the city s fortunes from the late 13th century the fringe sites became depopulated and there was much rebuilding

elsewhere including some fine new houses there was a further revival in the later post medieval period but much of the earlier fabric and surviving stretches of roman city wall were swept away in the 19th century

excerpt from the first nine books of the danish history of saxo grammaticus how he was induced to write his book has been mentioned the expressions of modesty saxo uses saying that he was the least of absalom's followers and that all the rest refused the task are not to be taken to the letter a man of his parts would hardly be either the least in rank or the last to be solicited the words however enable us to guess an upward limit for the date of the inception of the work absalon became archbishop in 1179 and the language of the preface written as we shall see last implies that he was already archbishop when he suggested the history to saxo but about 1185 we find sweyn aageson² complimenting saxo and saying that

saxo had determined³ to set forth all the deeds of sweyn estridson in his eleventh book at greater length in a more elegant style the exact bearing of this notice on the date of saxo s history is doubtful it certainly need not imply that saxo had already written ten books or indeed that he had written any of his history all we can say is that by 1185 a portion of the history was planned the order in which its several parts were composed and the date of its completion are not certainly known as absalon died in 1201 but the work was not then finished for at the end of bk x1 4 one birger who died in 1202 is mentioned as still alive about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at forgottenbooks.com this book is a reproduction of an important historical work forgotten books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy in rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition we do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
