~~notre société est pluriculturelle pas seulement en raison des mouvements migratoires en~~
raison également de la variété des identités culturelles des autochtones l École ne peut
rester aveugle à cette diversité une éducation interculturelle est désormais indispensable
une éducation qui rende capable de comprendre et d éviter autant que possible le heurt
des cultures dans le respect de toutes celles ci mais dans un respect qui a pour cran d arrêt
les lois et les principes de notre démocratie la formation littéraire dispensée dans le cadre
du cours de français est particulièrement propice à intégrer des contenus concourant à l
éducation interculturelle À la condition de prendre une distance salubre envers les
impératifs d une évaluation radicalement objective À la condition de privilégier la réflexion
des élèves sur des situations conflictuelles dont l issue n est pas à chercher du côté d une
dichotomie manichéenne À la condition encore de ne pas instrumentaliser la littérature
mais de la donner à penser comme une redescription artistique de vécus individuels c est
ce que nous avons cherché à faire à travers l étude d une douzaine de romans
contemporains qui thématissent le heurt des cultures Écrits ou traduits en français aujourd
hui tous disponibles en édition de poche ces romans font l objet d une présentation qui
cerne la problématique en question nous proposons ensuite des questionnaires assortis de
suggestions de réponses susceptibles d aider celles et ceux qui comme nous voient l
urgence d une formation littéraire dans une perspective d éducation interculturelle jean

Education, physical activities and sport in a historical perspective = [Educació, activitats físiques i esport en una perspectiva històrica] : XIV ISCHE Conference 1992 : conference working papers

1989

this book is the result of a three day conference held in april 2014 at the university of
montreal canada discussing the relevance of the work of hegel and marx in today s world
particularly with regard to the ecological economic political and anthropological crisis facing
humanity accordingly the book an exploration of the specific nature of the crisis we face
both in our everyday lives and in the realm of theory however if indeed the necessity of a
proper critique kritikos is intimately linked to a state of crisis krisis the conceptual frame
necessary to produce such a critique may itself be in crisis among the vast number of
critical oppositions to contemporary capitalism what are the keys available to understand
the present forms of human conditions alienation and exploitation controversies and
divisions among the different tendencies within the critical tradition tend to highlight the
point that there is also a theoretical crisis which prevents a proper diagnosis of the actual

~~crisis and prevents in turn a proper plan of action from being established looking back to~~
marx and hegel allowed a return if not to the sources at least to two unavoidable influences among the various critical approaches to capitalism be it with or against hegel and or marx the criticisms of modernity post modernity and capitalism cannot neglect the shadows of these thinkers both marx s and hegel s philosophical sociological and political enterprises must be linked historically to the will to diagnose and solve what they saw as the most important crises of their own time from in hegel s case the spiritual crisis which followed the advent of modernity and its accompanying turmoil to the social and political crisis caused by capitalism and the advent of a new industrial society in marx s case both intellectual ventures are at every turn haunted by the notion of crisis this book will appeal to anyone interested in hegel s and marx s philosophical and political theories not only does it provide the historical context necessary to understand properly the relation between marx and hegel but it also places the relevance of their teachings for the contemporary reader in perspective
