get your hands on the pricing strategies big businesses already use for many business owners the process of determining how to price products or services is akin to boiling eye of newt in a cauldron surrounded by wicked witches but pricing is not magic any more than selling is magic the dark art of pricing demystifies pricing for small to medium sized businesses pricing should be of the utmost importance to business owners because it is possible to use price strategies to engineer a deliberate profit it is

possible to drive sales and cut costs an accountant can tell you how to cut costs sales trainers can help you improve sales but what is often mostly ignored is pricing and focusing on price allows you to find that sweet spot where you become the price leader because you are the best in your industry or area and the go to company because of the value you offer finding the right pricing strategy is like developing a sales program work it takes testing and tweaking but the how and why are buried in corporate vaults and academic journals almost inaccessible to the average business owner author andrew gregson has started and owned five businesses including two franchises and spent years consulting on profitability to small and medium sized businesses in north america he simplifies the strategies that help business owners find ways to charge what they are really worth drive larger profits build wealth and eventually attract buyers when the time comes to retire to a sandy beach
