church history volume two chronicles the events the triumphs and the struggles of the christian movement from the years leading up to the reformation through the next five centuries to the present day looking closely at the integral link between the history of the world and that of the church church history paints a portrait of god s people within the context of the times cultures and developments that both influenced and were influenced by the church features maps charts and illustrations spanning the time from the thirteenth century to today explanations of all the major denominational movements traditions and schisms during and after the reformation overviews of the christian movement in africa eastern europe asia and latin america to cover the scope of the ecumenical environment of the twenty first century insights into the role and influence of politics culture and societal norms and technology on the western church unbiased details on the major theological controversies and issues of each period authors perspective

authors john d woodbridge and frank a james iii wrote this history of the church from the perspective that such a history is the story of the greatest movement and community the world has known as imperfect as it still is it s a human story of a divinely called people who want to live by a divine revelation it s a story of how they succeeded and how they failed and of how they are still trying to live out their calling from the reformation theologians in europe to the revivalists apologists and christian thinkers all over the world the historical figures detailed are people who have struggled with the meaning of the greatest event in history the coming of the son of god and with their role in that event and in the lives of god s people this book makes the case for realistic faith in the power of intelligence as opposed to blind faith in the pronouncements of those who claim infallibility or divine guidance the author thom pain identifies the discoveries of systems and information theory early in the twentieth century as the key to a naturalistic explanation of purposeful life and intelligence and to the last stage in the emancipation of science from theology he begins his story with the discoveries that revealed the memory mechanism as a built in tropisms for truth that gave even primitive creatures a logical tool for improving their decisions and solving their problems it is a story that reveals a surprisingly early version of intelligence and an amazing versatility in the types and range of intelligence when one species developed symbolic languages it becomes the story of the cultural developments of the human species as civilization evolved thom identifies the rulers and the ruling classes as both the leaders and the obstacles to intellectual progress in their new role the rulers either claimed to be gods or the representative of the gods and often led the exploitation that had become the privilege of conquerors and of the ruling classes indoctrinated faith and loyalty became authoritarian tools of aggression and oppression in this cruel environment religion also became a source of moral strength and initiative for the oppressed and religious rebels were often the leaders in the struggles for political and intellectual freedom these struggles were not about the belief in god but about the abuses of authority by those who claimed to be the representatives of god thom follows this story as it sharpened the distinction between reason and theology and led to

A Companion to Paul in the Reformation 1999-09-01 church history volume two chronicles the events the triumphs and the struggles of the christian movement from the years leading up to the reformation through the next five centuries to the present day looking closely at the integral link between the history of the world and that of the church church history paints a portrait of god s people within the context of the times cultures and developments that both influenced and were influenced by the church features maps charts and illustrations spanning the time from the thirteenth century to today explanations of all the major denominational movements traditions and schisms during and after the reformation overviews of the christian movement in africa eastern europe asia and latin america to cover the scope of the ecumenical environment of the twenty first century insights into the role and influence of politics culture and societal norms and technology on the western church unbiased details on the major theological controversies and issues of each period authors perspective authors john d woodbridge and frank a james iii wrote this history of the church from the perspective that such a history is the story of the greatest movement and community the world has known as imperfect as it still is it s a human story of a divinely called people who want to live by a divine revelation it s a story of how they succeeded and how they failed and of how they are still trying to live out their calling from the reformation theologians in europe to the revivalists apologists and christian thinkers all over the world the historical figures detailed are people who have struggled with the meaning of the greatest event in history the coming of the son of god and with their role in that event and in the lives of god s people *The Alphabet Versus the Goddess* 2007-10 this book makes the case for realistic faith in the power of intelligence as opposed to blind faith in the pronouncements of those who claim infallibility or divine guidance the author thom pain identifies the discoveries of systems and information theory early in the twentieth century as the key to a naturalistic explanation of purposeful life and intelligence and to the last stage in the emancipation of science from

theology he begins his story with the discoveries that revealed the memory mechanism as a built in tropism for truth that gave even primitive creatures a logical tool for improving their decisions and solving their problems it is a story that reveals a surprisingly early version of intelligence and an amazing versatility in the types and range of intelligence when one species developed symbolic languages it becomes the story of the cultural developments of the human species as civilization evolved thom identifies the rulers and the ruling classes as both the leaders and the obstacles to intellectual progress in their new role the rulers either claimed to be gods or the representative of the gods and often led the exploitation that had become the privilege of conquerors and of the ruling classes indoctrinated faith and loyalty became authoritarian tools of aggression and oppression in this cruel environment religion also became a source of moral strength and initiative for the oppressed and religious rebels were often the leaders in the struggles for political and intellectual freedom these struggles were not about the belief in god but about the abuses of authority by those who claimed to be the representatives of god thom follows this story as it sharpened the distinction between reason and theology and led to the modern concepts of democracy and personal and religious freedom
