project based learning is a teaching approach that motivates and inspires students to learn and helps them to become self directed learners over time students learn not only the content surrounding their projects but also important life skills such as problem solving creativity collaboration communication time management and responsibility author scott wurdinger has implemented this approach over the past ten years in his own classrooms has conducted numerous research studies on this topic and has seen the effectiveness of project based learning firsthand this book provides information on the history research and application of the project based learning

approach and should be read by educators who want to change their classrooms into dynamic exciting learning environments educators will learn everything they need to know about how to implement this approach in their classrooms as well as how to help students create meaningful relevant projects that can help impact and solve school community and even global problems read this book and bring project based learning to your classroom

Interdisciplinary Teaching About Earth and the Environment for a Sustainable Future

2016-01-28

this paper discusses key issues and policies for the rwandan economy economic growth in rwanda has been stronger than expected in 2015 however growth prospects in 2016 appear gloomy for example mining exports have been almost halved in recent months due to low price and low demand the principal tool to tackle the slump in the economy is continued exchange rate flexibility accompanied by modest tightening of the monetary stance also there are mid term policies for example export diversification improved revenue mobilization and better public financial management that can help achieve sustained high and inclusive growth while strengthening resilience

europe is stumbling from crisis to crisis the financial and debt crises are endangering the european currency union referenda in several eu countries show widespread euroscepticism the economy is only slowly regaining momentum unemployment remains high in many member states and the refugee crisis has deepened political divisions we need an answer to the question of how to rescue the euro and keep europe together in this volume renowned german researchers and leading practitioners provide pragmatic recommendations their plea for a democratically legitimized euro finance minister a new economic approach a common eurozone budget and minimum social standards are the prerequisites for a fair stable and prosperous europe

The New Economic Governance of the Eurozone

2017-11-30

the nfl is the most popular professional sports league in the united states its athletes receive multimillion dollar contracts and almost endless media attention the league s most important game the super bowl is practically a national holiday making it to the nfl however is not about the promised land of fame and fortune robert w turner ii draws on his personal experience as a former professional football player as well as interviews with more than 140 current and former nfl players to reveal what it means to be an athlete in the nfl and explain why so many players struggle with life after football without guaranteed contracts the majority of players are forced out of the league after a few seasons over three quarters of retirees experience bankruptcy or financial ruin two thirds live with chronic pain and too many find themselves on the wrong side of the law robert w turner ii argues that

the fall from grace of so many players is no accident the nfl he contends powerfully determines their experiences in and out of the league the labor agreement provides little job security and few health and retirement benefits and the owners refuse to share power with the players making change difficult and the process of becoming an elite football player from high school to college and through the pros leaves athletes with few marketable skills and little preparation for their first sunday off the field with compassion and objectivity not for long reveals the life and mind of high school college and nfl athletes shedding light on what might best help players transition successfully out of the sport
