Active Origami 2020-09-04 origami structures have the ability to be easily fabricated from planar forms enable the deployment of large structures from small volumes and are potentially reconfigurable these characteristics have led to an increased interest in theoretical and computational origami among engineers from across the world in this book the principles of origami active materials and solid mechanics are combined to present a full theory for origami structures the focus is on origami structures morphed via active material actuation and formed from sheets of finite thickness the detailed theoretical derivations and examples make this an ideal book for engineers and advanced students who aim to use

origami principles to develop new applications in their field

Manufacturing In The Era Of 4th Industrial Revolution: A World Scientific Reference (In 3 Volumes) 2014-08-21 the era of the fourth industrial revolution has fundamentally transformed the manufacturing landscape products are getting increasingly complex and customers expect a higher level of customization and quality manufacturing in the era of 4th industrial revolution explores three technologies that are the building blocks of the next generation advanced manufacturing the first technology covered in volume 1 is additive manufacturing am am has emerged as a very popular manufacturing process the most common form of am is referred to as three dimensional 3d printing overall the revolution of

additive manufacturing has led to many opportunities in fabricating complex customized and novel products as the number of printable materials increases and am processes evolve manufacturing capabilities for future engineering systems will expand rapidly resulting in a completely new paradigm for solving a myriad of global problems the second technology is industrial robots which is covered in volume 2 on robotics traditionally industrial robots have been used on mass production lines where the same manufacturing operation is repeated many times recent advances in human safe industrial robots present an opportunity for creating hybrid work cells where humans and robots can collaborate in close physical proximities this cobots or collaborative robots has opened up to opportunity for humans and robots to work more closely together recent advances in artificial intelligence are striving to make industrial robots more agile with the ability to adapt to changing environments and tasks additionally recent advances in force and tactile sensing enable robots to be used in complex manufacturing tasks these new capabilities are expanding the role of robotics in manufacturing operations and leading to significant growth in the industrial robotics area the third technology covered in volume 3 is augmented and virtual reality augmented and virtual reality ar vr technologies are being leveraged by the manufacturing community to improve operations in a wide variety of ways traditional applications have included operator training and design visualization with more recent applications including interactive design and manufacturing planning human and robot interactions ergonomic analysis information and knowledge capture and manufacturing simulation the advent of low cost solutions in these

areas is accepted to accelerate the rate of adoption of these technologies in the manufacturing and related sectors consisting of chapters by leading experts in the world manufacturing in the era of 4th industrial revolution provides a reference set for supporting graduate programs in the advanced manufacturing area

GB/T 2679.1-2020 Translated English of Chinese Standard (GB/T 2679.1-2020, GBT2679.1-2020) 2016 this part of gb t 2679 specifies the method for determination of transmittance by diffuse reflectance measurement this part applies to white and near white translucent paper to measure paper containing fluorescent whitening agents use a uv cut off filter to eliminate fluorescence excitation note although gb t 7973 allows the use of filter reflectometers and abridged spectrophotometers if the filter reflectometer cannot eliminate the excitation of fluorescence it is not suitable for testing the transmittance of paper containing fluorescent whitening agents

16 Years' Solved Papers JEE Main 2020 2016-06-16 engineers are known to set the foundations and ultimately contributing in building the nation this is the reason why it is considered as one of the top professions in the world to be a certified engineer from reputed institutions like iits nits iiits etc candidates aspirants has to go through joint entrance exam jee being conducted by cbse every year and requires an intense groundwork on subjects of physics chemistry and mathematics from class xi and xii syllabi the latest edition of 16 years jee main solved papers is designed with a purpose of facilitating an effective way of smart preparation in students to clear the upcoming jee main as the name of the book already

unfolds its key feature with this new edition the invaluable benefits of solving such good number of precisely solved papers continues to help students in their path to success the detailed solutions to the 16 years solved papers of previous years questions from 2003 to 2018 can be easily comprehended by the students and 3 sets of practice are also given to overcome the doubts and fears out of exam this is a student friendly book with its contents sounding like interactive sessions to help you progress more in the race of winning a seat in jee main 2019 table of contentjee main 2018 jee main 2017 jee main 2016 jee main 2015 jee main 2014 jee main 2013 aieeee 2012 aieeee 2011 aieeee 2010 aieeee 2009 aieeee 2008 aieeee 2007 aieeee 2006 aieeee 2005 aieeee 2004 aieeee 2003 practice set 1 practice set 2 practice set 3

Road Lighting 2021-05-13 this book outlines the underlying principles on which modern road lighting is based and provides the reader with knowledge of how these principles should be applied in practice this book offers a completely fresh approach to the subject reflecting how the technology of road lighting has progressed to keep up with the changes in lamp technology especially in solid state light sources and the increasing awareness of energy use and environmental issues the book is divided into three parts part one describes lighting of open roads with chapters discussing visual performance and comfort including the effects of mesopic vision and age and international standards and recommendations for road lighting lighting equipment is introduced specifically lamps and luminaires in terms of their practical properties and features but also the road surface and its characteristics a chapter on lighting

design makes the link between theory and practice providing the reader with the knowledge needed for effective lighting design including aspects relating to sustainability the final chapter of part one deals with lighting calculation conventions and measurements part two is devoted to light pollution the negative consequences of light pollution are described and tactics to restrict light pollution explained lighting criteria are defined that can be used by the lighting designer to guarantee installations stay within acceptable limits international standards and recommendations on the restriction of light pollution are discussed part three is devoted to tunnel lighting with chapters discussing visual performance in tunnel environments lighting criteria standards and recommendations and concluding with a chapter on tunnel lighting equipment and design this book is a valuable resource for road lighting designers and engineers students of lighting design and engineering town planners traffic engineers environmental specialists and lamp and luminaire developers and manufacturers

Advanced Graphic Communications and Media Technologies 2017-11-23 this book includes a selection of reviewed papers presented at the 2016 china academic conference on printing packaging engineering media technology held on november 25 27 2016 in xi an china the conference was jointly organized by china academy of printing technology xi an university of technology and stuttgart media university of germany the proceedings cover the recent outcomes on color science and technology image processing technology digital media technology digital process management technology in packaging and packaging etc they will be of interest to university researchers r d engineers and graduate students in graphic

communications packaging color science image science material science computer science digital media and network technology fields

Advanced Autonomous Vehicle Design for Severe Environments 2020-11-03 classical vehicle dynamics which is the basis for manned ground vehicle design has exhausted its potential for providing novel design concepts to a large degree at the same time unmanned ground vehicle ugv dynamics is still in its infancy and is currently being developed using general analytical dynamics principles with very little input from actual vehicle dynamics theory this technical book presents outcomes from the nato advanced study institute asi advanced autonomous vehicle design for severe environments held in coventry uk in july 2014 the asi provided a platform for world class professionals to meet and discuss leading edge research engineering accomplishments and future trends in manned and unmanned ground vehicle dynamics terrain mobility and energy efficiency the outcomes of this collective effort serve as an analytical foundation for autonomous vehicle design topics covered include historical aspects pivotal accomplishments and the analysis of future trends in on and off road manned and unmanned vehicle dynamics terramechanics soil dynamic characteristics uncertainties and stochastic characteristics of vehicle environment interaction for agile vehicle dynamics modeling new methods and techniques in on line control and learning for vehicle autonomy fundamentals of agility and severe environments mechatronics and cyber physics issues of agile vehicle dynamics to design for control energy harvesting and cyber security and case studies of agile and inverse vehicle dynamics and vehicle systems design including

optimisation of suspension and driveline systems the book targets graduate students who desire to advance further in leading edge vehicle dynamics topics in manned and unmanned ground vehicles phd students continuing their research work and building advanced curricula in academia and industry and researchers in government agencies and private companies

Annual Review of Comparative and International Education 2014 2017-08-23 the annual review of comparative and international education arcie is a forum for stakeholders and scholars to examine current trends and identify future directions in comparative and international education

Solved Papers for Manipal Engineering 2021 2024-05-08 this book provides a broad overview of a number of game changing paradigms that are anticipated to reshape 21st century product development topics including cloud computing based design cloud manufacturing crowd sourcing and mass collaboration open source and social product development will be discussed in the context of advanced distributed and collaborative product creation the purpose of the book is threefold 1 to provide decision makers in industry with a solid base for strategic design and manufacturing related process re organization 2 to provide researchers and scientist with the state of the art from an academic perspective as well as a research agenda aimed at advancing the theoretical foundations of the field and 3 to serve as supplementary reading in design and manufacturing related courses at universities and technical colleges

10 Solved Papers of IBPS RRB Officer Scale 1 Prelim & Main Exams (2019-13)

2020-04-06 energy efficient lighting is said to be one of the most cost effective approaches to save energy and reduce CO2 emissions in order to stimulate the application of lighting retrofits of good quality IEA Task 50 Subtask B Daylighting and Electric Lighting Solutions has looked into the assessment of existing and new technical retrofit solutions in the field of façade and daylighting technology electric lighting and lighting controls the document provides information for those involved in the development of retrofit products or involved in the decision making process of a retrofit project such as buildings owners authorities designers and consultants as well as the lighting and façade industry this source book addresses both electric lighting solutions and daylighting solutions and offers a method to compare these retrofit solutions on a common basis including a wide range of quality criteria of cost related and lighting quality aspects simple retrofits such as replacing a lamp or adding interior blinds are widely accepted often applied because of their low initial costs or short payback periods the work presented in this report aims at promoting state of the art and new lighting retrofit approaches that might cost more but offer a further reduction of energy consumption while improving lighting quality to a greater extent energieeffiziente beleuchtung ist eine der effektivsten möglichkeiten energie zu sparen und damit die emission von CO2 zu vermindern im rahmen des IEA Task 50 Subtask B Daylighting and Electric Lighting Solutions wurden daher neue und vorhandene technische sanierungslösungen für gebäude in den bereichen fassade tageslichttechnik künstliche beleuchtung sowie lichtsteuerung bewertet um die anwendung hochwertiger lösungen voranzutreiben die informationen sind

dabei für alle in den sanierungsprozess einbezogenen personen von großem interesse wie z b gebäudeeigentümer behörden planer und berater aber auch für hersteller und entwickler von beleuchtungs und fassadenlösungen betrachtet werden sowohl künstliche als auch beleuchtungslösungen mit tageslicht wobei eine methode entwickelt wurde die sanierungslösungen grundlegend miteinander zu vergleichen hierbei werden zahlreiche kriterien berücksichtigt die energetische lichttechnische thermische und kostenbezogene aspekten beinhalten einfache sanierungsmaßnahmen wie der austausch von lampen oder die montage innenliegender jalousien werden weitgehend akzeptiert und oft verwendet da sie kostengünstig sind und sich schnell amortisieren die vorliegende arbeit hat es sich zum ziel gesetzt die anwendung neuer und dem stand der technik entsprechender beleuchtungslösungen für die sanierung zu fördern diese verursachen zwar eventuell höhere kosten ermöglichen jedoch eine weitere energieeinsparung bei gleichzeitiger verbesserung der beleuchtungsqualität

Product Development in the Socio-sphere 2019-05-10 the standard incandescent light bulb which still works mainly as thomas edison invented it converts more than 90 of the consumed electricity into heat given the availability of newer lighting technologies that convert a greater percentage of electricity into useful light there is potential to decrease the amount of energy used for lighting in both commercial and residential applications although technologies such as compact fluorescent lamps cfls have emerged in the past few decades and will help achieve the goal of increased energy efficiency solid state lighting ssl stands to

play a large role in dramatically decreasing u s energy consumption for lighting since the publication of the 2013 national research council report assessment of advanced solid state lighting the penetration of ssl has increased dramatically with a resulting savings in energy and costs that were foreshadowed by that study what was not anticipated then is the dramatic dislocation and restructuring of the ssl marketplace as cost reductions for light emitting diode led components reduced profitability for led manufacturers at the same time there has been the emergence of new applications for ssl which have the potential to create new markets and commercial opportunities for the ssl industry assessment of solid state lighting phase two discusses these aspects of changeâ highlighting the progress of commercialization and acceptance of ssl and reviewing the technical advances and challenges in achieving higher efficacy for leds and organic light emitting diodes this report will also discuss the recent trends in ssl manufacturing and opportunities for new applications and describe the role played by the department of energy doe lighting program in the development of ssl

Daylighting and electric lighting retrofit solutions 2019-05-16 comprehensive student friendly resources designed for teaching cambridge international as and a level english language syllabus 9093 the core aim of this coursebook is to help students to develop and apply the key skills they need to achieve in as and a level english language they will build the skills needed for assessment through frequent activities divided into two distinct parts for as and a level studies the book covers a wide range of reading skills such as understanding aspects of

style voice and tone it also addresses the conventions of key kinds of writing and spoken language from scripted speeches to travel articles and looks at how they can capture these conventions in their own work

Assessment of Solid-State Lighting, Phase Two 2021-04-08 this publication moves beyond the rhetoric of free media and free markets to provide a dispassionate and data driven analysis of global media ownership trends and their drivers based on an extensive data collection effort from scholars around the world it covers 13 media industries including television newspapers book publishing film search engines ISPs and wireless telecommunication across a 10 25 year period in 30 countries

Cambridge International AS and A Level English Language Coursebook 2019-05-17 during the 1990s Francis Fukuyama announced the end of history the 2000s showed how it is an illusion to imagine a peaceful world without conflict in this book the authors explore how six major constraints are set to fix the trajectory of the global economy three of them are new the aging population the failure of technical progress and the scarcity of savings the other three have been at work for some time the explosion of inequality the mass transfer of activities from one end of the world to the other and the limitless financialization of economy they suggest that like seismic activity which depends on pressure between tectonic plates the political and social tensions will be exacerbated in the coming years by these major forces they propose that authorities will be incapable of preventing neither the date nor the intensity of the coming earthquakes and ask the question are we able to cope with these

future shocks and the violence they are sure to cause

Who Owns the World's Media? 2022-02-08 despite the publication of several studies examining european retailing in relation to the usa there is still a dearth of recent research in english that explores the development of retailing in specific european countries with the obvious exception of britain over the twentieth century even for the uk more research is needed to challenge claims such as the alleged backwardness of british retailing relative to north america or the presence of formidable environmental barriers to the industrialisation of retailing in britain new perspectives on 20th century european retailing showcases new research on various aspects of twentieth century european retailing that challenges the traditional view that europe was a follower of america in retail innovation it brings together work by several mainly early career scholars who are doing innovative archival based research on various aspects of european retail history following a general review of european retailing by the editors discussing key debates and new approaches seven thematic chapters present work that either sheds new light on old debates and or explores hitherto neglected topics collectively they show that whereas retailers are often regarded as intermediaries in fact they are actors in their own right and they challenge the traditional view that europe was a follower of america in retail innovation the chapters in this book were originally published as a special issue of the business history journal

A Violent World 1908 the aim of the book is to introduce the state of the art technologies in the field of robotics mechatronics and automation in agriculture in order to summarize and

review the improvements in the methodologies in agricultural robotics advances made in the past decades are described including robotics for agriculture mechatronics for agriculture kinematics dynamics and control analysis of agricultural robotics and a wide range of topics in the field of robotics mechatronics and automation for agricultural applications

New Perspectives on 20th Century European Retailing capital is the defining feature of modern economies yet most people have no idea where it actually comes from what is it exactly that transforms mere wealth into an asset that automatically creates more wealth the code of capital explains how capital is created behind closed doors in the offices of private attorneys and why this little known fact is one of the biggest reasons for the widening wealth gap between the holders of capital and everybody else in this revealing book katharina pistor argues that the law selectively codes certain assets endowing them with the capacity to protect and produce private wealth with the right legal coding any object claim or idea can be turned into capital and lawyers are the keepers of the code pistor describes how they pick and choose among different legal systems and legal devices for the ones that best serve their clients needs and how techniques that were first perfected centuries ago to code landholdings as capital are being used today to code stocks bonds ideas and even expectations assets that exist only in law a powerful new way of thinking about one of the most pernicious problems of our time the code of capital explores the different ways that debt complex financial products and other assets are coded to give financial advantage to their holders this provocative book paints a troubling portrait of the pervasive global nature

of the code the people who shape it and the governments that enforce it provided by publisher

Robotics and Mechatronics for Agriculture this book constitutes the refereed proceedings of the 16th international conference on entertainment computing icec 2017 held in tsukuba city japan in september 2017 the 16 full papers 13 short papers and 2 posters presented were carefully reviewed and selected from 46 submissions

The Code of Capital advances in maritime technology and engineering comprises a collection of the papers presented at the 7th international conference on maritime technology and engineering martech 2024 held in lisbon portugal on 14 16 may 2024 this conference has evolved from the series of biannual national conferences in portugal which have become an international event reflecting the internationalization of the maritime sector and its activities martech 2024 is the seventh of this new series of biannual conferences this book comprises 142 contributions that were reviewed by an international scientific committee advances in maritime technology and engineering is dedicated to maritime transportation ports as well as maritime safety and reliability it further comprises sections dedicated to ship design cruise ship design and to the structural aspects of ship design such as ultimate strength and composites subsea structures as pipelines and to ship building and ship repair the proceedings in marine technology and ocean engineering series is dedicated to the publication of proceedings of peer reviewed international conferences dealing with various aspects of marine technology and ocean engineering the series includes the

proceedings of the following conferences the international maritime association of the mediterranean imam conferences the marine structures marstruct conferences the renewable energies offshore renew conferences and the maritime technology martech conferences the marine technology and ocean engineering series is also open to new conferences that cover topics on the sustainable exploration of marine resources in various fields such as maritime transport and ports usage of the ocean including coastal areas nautical activities the exploration and exploitation of mineral resources the protection of the marine environment and its resources and risk analysis safety and reliability the aim of the series is to stimulate advanced education and training through the wide dissemination of the results of scientific research

Entertainment Computing - ICEC 2017 this book builds a bridge between current research in space policy and contemporary european political studies by addressing developments in european space policy and its significance for european integration it answers questions central to european studies applying them to the burgeoning field of eu space policy and takes an interdisciplinary approach examining space policy in the light of a range of policy areas including common foreign security policy technology policy transport policy and internal market using a theoretical framework based around notions of neo institutionalism to evaluate the evolving nature of space policy in europe the book provides clear insights into the development of the sector and the resulting developments made to the european political landscape this text will be of key interest to scholars and students of space

policy eu studies politics european studies politics international relations political science
history economics and security studies

Advances in Maritime Technology and Engineering this book provides extensive information on the key technical design disciplines education programs international best practices and modes of delivery that are aimed at preparing a trans disciplinary design workforce for the future it also presents a comprehensive overview of the scope of and state of the art in design education the book highlights signature design education programs from around the globe and across all levels in both traditional and distance learning settings additionally it discusses professional societies for designers and design educators as well as the current standards for professional registration and program accreditation reflecting recent advances and emerging trends it offers a valuable handbook for design practitioners and managers curriculum designers and program leaders alike it will also be of interest to students and academics looking to develop a career related to the more technical aspects of design

IBPS RRB Officer Scale 1 & Office Assistant Prelim & Main 23 Year-wise Solved Papers (2013 - 20) 2nd Edition machine design with cad and optimization a guide to the new cad and optimization tools and skills to generate real design synthesis of machine elements and systems machine design with cad and optimization offers the basic tools to design or synthesize machine elements and assembly of prospective elements in systems or products it contains the necessary knowledge base computer aided design and optimization tools to define appropriate geometry and material selection of machine elements a comprehensive

text for each element includes a chart excel sheet a matlab program or an interactive program to calculate the element geometry to guide in the selection of the appropriate material the book contains an introduction to machine design and includes several design factors for consideration it also offers information on the traditional rigorous design of machine elements in addition the author reviews the real design synthesis approach and offers material about stresses and material failure due to applied loading during intended performance this comprehensive resource also contains an introduction to computer aided design and optimization this important book provides the tools to perform a new direct design synthesis rather than design by a process of repeated analysis contains a guide to knowledge based design using cad tools software and optimum component design for the new direct design synthesis of machine elements allows for the initial suitable design synthesis in a very short time delivers information on the utility of cad and optimization accompanied by an online companion site including presentation files written for students of engineering design mechanical engineering and automotive design machine design with cad and optimization contains the new cad and optimization tools and defines the skills needed to generate real design synthesis of machine elements and systems on solid ground for better products and systems

A European Space Policy actor network theory ant is enjoying a notable surge of interest in educational research new directions and questions are emerging along with new empirical approaches as educators bring unique sensibilities and commitments to the ongoing debates

and reconfigurations that characterise ant inspired research ethics and politics are now figuring more prominently in ant related educational publications as are educational policy and the critical studies of assessment practices research on digital technology in education has also attracted critical exploration with ant approaches this book gathers together articles that address important educational issues while showing creative theoretical and methodological possibilities for ant studies in education this book aims to locate these contributions within broader trajectories of inquiry in education and sociomaterial approaches considered worthy of attention given the challenges facing educators today it also raises critical questions about what appear to be certain oversights or less helpful ideas in what is emerging in the field

Design Education Today the two volume set ifip aict 639 and 640 constitutes the refereed post conference proceedings of the 18th ifip wg 5 1 international conference on product lifecycle management plm 2021 held in curitiba brazil during july 11 14 2021 the conference was held virtually due to the covid 19 crisis the 107 revised full papers presented in these proceedings were carefully reviewed and selected from 133 submissions the papers are organized in the following topical sections volume i sustainability sustainable development and circular economy sustainability and information technologies and services green and blue technologies ai and blockchain integration with enterprise applications plm maturity plm implementation and adoption within industry 4 0 and industry 4 0 and emerging technologies volume ii design education and management lean design and innovation technologies

information technology models and design and models manufacturing and information technologies and services

Machine Design with CAD and Optimization

Revisiting Actor-Network Theory in Education

Product Lifecycle Management. Green and Blue Technologies to Support Smart and Sustainable Organizations
