land and our civilization humanity would not have gotten very far without them making use of their labor for transportation agriculture and pollination their protection from predators and their bodies for food and to make clothing music and art and over the last two centuries humans have made unprecedented advances in science technology behavior and beliefs yet how is it that we continue to destroy the animal world and lump its magnificence under the sterile concept of biodiversity in beastly author keggie carew seeks to re enchant readers with the wild world reframing our understanding of what it is like to be an animal and what our role is as humans she throws readers headlong into the mind blowing heart thumping glittering pageant of life and goes in search of our most revealing encounters with the animal world throughout the centuries how did we domesticate animals and why did we choose sheep goats cows pigs horses and chickens what does it mean when a gorilla tells a joke or a fish thinks why does a wren sing beastly is a gorgeously written deeply researched and intensely felt journey into the splendor and genius of animals and the long complicated story of our interactions with them as humans

Animals and why They Matter 1983 animals and why they matter examines the barriers that our philosophical traditions have erected between human beings and animals and reveals that the too often ridiculed subject of animal rights is an issue crucially related to such problems within the human community as racism sexism and age discrimination mary midgley s profound and clearly written narrative is a thought provoking study of the way in which the opposition between reason and emotion has shaped our moral and political ideas and the problems it has raised whether considering vegetarianism women s rights or the humanity of pets this book goes to the heart of the question of why all animals matter Performing Animality 2015-04-08 performing animality provides theoretical and creative interventions into the presence of the animal and ideas of animality in performance animals have always played a part in human performance practices maintaining a crucial role in many communities cultural traditions animal human encounters have been key in the development of performance similarly performance including both living animals and or representations of animals provides the context for encounters in which issues of power human subjectivity and otherness are explored crucially however the inclusion of animals in performance also offers an opportunity to investigate ethical and moral assumptions about human and non human animals this book offers a historical and theoretical exploration of animal presence in performance by looking at the concept of animality and how it has developed in theatre and performance practices from the eighteenth century to today furthermore it points to shifts in political cultural and ethical animal human relations emerging within the context of animality and performance

Animals' Best Friends 2021-03-23 king s animals best friends is the most comprehensive exploration i ve read of the complex relationship between the human and nonhuman full of great insights and practical information jeff vandermeer new york times book review by the book finalist for the 2021 siskiyou prize for new environmental literature as people come to understand more about animals inner lives the intricacies of their thoughts and the emotions that are expressed every day by whales and cows octopus and mice even bees we feel a growing compassion a desire to better their lives but how do we translate this compassion into helping other creatures both those that are and are not our pets bringing together the latest science with heartfelt storytelling animals best friends reveals the opportunities we have in everyday life to help animals in our homes in the wild in zoos and in science labs as well as those considered to be food barbara j king an expert on animal cognition and emotion guides us on a journey both animal and deeply human we meet cows living relaxed lives in an animal sanctuary and cows with plastic portals in their sides at a university research station we observe bison free roaming at yellowstone national park and chimpanzees confined to zoos we learn with king how to negotiate vegetarian preferences in omnivore restaurants we experience the touch of a giant pacific octopus tasting king s skin with one of his long neuron rich arms we reflect on animal testing as king shares her own experience as the survivor of a particularly nasty cancer and in a moment all too familiar to many of us we recover from a close encounter with two spiders in the home this is a book not of shaming and limitation but of uplift and expansion throughout this journey king makes no claims of personal perfection though an animal expert she is just like the rest of us on a journey still learning each day how to be better and do better for animals but as animals best friends makes clear challenging choices can bring deep rewards by turning compassion into action on behalf of animals we not only improve animals lives we also immeasurably enrich our own Animals and Women 1995-11-14 animals and women is a collection of pioneering essays that explores the theoretical connections between feminism and animal defense offering a feminist perspective on the status of animals this unique volume argues persuasively that both the social construction and oppressions of women are inextricably connected to the ways in which we comprehend and abuse other species furthermore it demonstrates that such a focus does not distract from the struggle for women s rights but rather contributes to it this wide ranging multidisciplinary anthology presents original material from scholars in a variety of fields as well as a rare early article by virginia woolf exploring the leading edge of the species gender boundary it addresses such issues as the relationship between abortion rights and animal rights the connection between woman battering and animal abuse and the

speciesist basis for much sexist language also considered are the ways in which animals have been regarded by science literature and the environmentalist movement a striking meditation on women and wolves is presented as is an examination of sexual harassment and the taxonomy of hunters and hunting finally this compelling collection suggests that the subordination and degradation of women is a prototype for other forms of abuse and that to deny this connection is to participate in the continued mistreatment of animals and women
