Psychology for Business Success 2013-03-25

this title helps us in using analytics to make more effective talent management decisions most managers understand that employees can make or break a company s strategy you can have the best ideas and the most promising plan but if you don t have the right people to carry it out that plan will fail still despite having this critical knowledge most companies don t have a data driven approach to the decisions they make about talent in fact a recent ibm study that interviewed over 400 senior hr executives showed that only 6 per cent of companies believe they can effectively use human capital data to make strategic workforce decisions enter calculating success the forthcoming book by human capital experts carl hoffmann eric lesser and tim ringo based on decades of experience creating human capital systems at ibm the authors show how using analytics can dramatically improve a company s ability to make better and faster talent decisions by organizing the book around four crucial questions managers must ask the book provides a framework to help executives rethink how they use information on talent the result a path to using analytics to make more

effective talent management decisions in addition the authors ideas help to link hr with all levels of the organization in a strategic way by showing readers how to connect their version of analytics to the strategic mission of the larger organization so that the analytics flows throughout the enterprise with detailed examples and studies from ibm s institute for business value and human capital management practice this book will make you rethink the relationship of talent to business success the results allow for a more stable and cost effective workforce an improved ability to motivate employees and a more systematic approach to developing critical talent

The Drama-Free Workweek 2011

this hands on manual provides latinas with the tools they need to succeed at work by examining some of the societal and cultural obstacles that hinder their progress despite being 20 million strong latinas represent america s most undervalued human resource this career guide is the only one of its kind to focus specifically on empowering the working women of the latina community to embrace success and build skills for workplace advancement the latina s guide to success in the workplace explores the complexity of the hispanic latino identity and the impact of this culture on professional mobility the author asserts that there are five obstacles which latinas confront within their own belief system the idea that women do not need an education the assumption that the needs of men come first a belief that it is sinful to desire money the opinion that latinas should not be ambitious and the mindset that successful women in the united states lose their femininity throughout the book up to date research case studies and inspirational interviews offer strategies for overcoming the cultural factors that limit latinas and providing a roadmap for achieving success
