When China ruled the seas, the treasure fleet of the dragon throne sailed from 1405 to 1433. This fleet, led by Admiral Zheng He, was the largest and most powerful in the world at the time. It consisted of over 300 ships, including the massive treasure ships, and carried thousands of men and tons of goods. The fleet visited many parts of the world, including the Indian Ocean, the Persian Gulf, and the East African coast. The fleet's voyages were a testament to China's maritime power and its desire to establish trade routes and spread its influence.
