fighting ships of world war two series 1937 1945 contains reference information about almost all fighting ships and boats of the world served built or ordered in days of the second world war articles contain information about designing building and service of all ships and their technical data and modernization texts are accompanied by many photos and side view drawings the four volume edition repeats the content of the previous 9 volume series but allows the reader to save on printing costs articles about the navies are arranged in alphabetical order depending on the common name of the country the third volume contains information about the navies of the soviet union continuation spain sweden turkey and the united kingdom and commonwealth beginning of the chapter

Capital Ships of the Imperial Japanese Navy 1868–1945

2023-07-05

the imperial navy of japan is the only world class navy in history which had a definite beginning and an equally definite end covering a span of nearly fifty one years despite its brief life the imperial navy rapidly achieved the status of the world s third greatest navy and in its last years almost won an even higher position but instead in the final contest lost everything pref

Fighting Ships of World War Two 1937 – 1945 Part One Albania – Hungary

1981

this illustrated history of world war ii describes the inter related nature of the events which took place in the baltic and north seas in the arctic the mediterranean the atlantic the indian ocean and the pacific photographs from all the countries involved give insights into the events of half a century ago and the author includes information which has emerged in recent years from the former eastern bloc countries the author who was a witness to the terrible events of 1939 1945 aims to create a vivid picture of the realities of war at sea and to give some idea of how the conflict was enacted and how it affected the men who took part in it every aspect of the naval war is addressed from the top level discussions and decisions concerning technical requirements and operations to the events of the battles themselves

Dictionary of American Naval Fighting Ships

2021-01-22

ninety of the most famous vessels that saw service between 1939 and 1945 are profiled with archival photographs design development and combat histories and full specifications tables listing builder years of service displacement length and beam propulsion top speed armour radar complement and exhaustive armament details on main and secondary guns anti aircraft guns and torpedos in addition to legendary ships like the hornet bismarck hood and tirpitz there are also lesser known italian french polish and commonwealth vessels

Capital Ships of the Imperial Japanese Navy 1868-1945

2023-07-05

suzutsuki was the third ship from the series of the most powerful akizuka destroyers designed specifically as anti aircraft defense ships whose main armament consisted of 8 universal 100 mm caliber guns with excellent ballistic characteristics the akizuia destroyers were designed before the beginning of world war ii as anti aircraft ships for fast japanese groups of aircraft carriers they were completely different from the previous japanese destroyers in which the emphasis was put on strong artillery 127 mm guns and torpedo armament they were inspired by the british dido class light anti aircraft cruisers however in contrast with them the akizuka destroyers were medium size ships intended for anti aircraft defense of groups of fleet

Fighting Ships of World War Two 1937 - 1945 Part Three Soviet Union - United Kingdom

1993

seventy five years after the end of world war ii the details of soviet ships their activities and fates remain an enigma to the west in wartime such information was classified and after a brief period of glasnost the russian state has again restricted access to historical archives therefore the value and originality of this work is difficult to exaggerate this second part of the three volume series includes all the remaining fighting vessels not already covered in volume i beginning with the uragan class rated as escort ships and the first seagoing warships designed by the soviet union the book then moves on to submarine hunters both large and small patrol craft minelayers and minesweepers and unusual types like floating artillery batteries and anti aircraft defense ships concluding with landing ships and craft many of these vessels have hitherto been poorly documented but given the nature of the land centered soviet war against germany their contribution should not be underestimated the details of their service and not least the circumstances of their loss constitute a major addition to western understanding of the soviet navy s war effort this volume covers escort ships large submarine hunters small submarine hunters patrol boats floating artillery batteries aa defence ships minelayers netlayers minesweepers minesweeping boats landing vessels and craft

The Men and the Ships of the War Years, 1942-1945

1983

synonymous with such infamous battleships as the bismarck scharnhorst and tirpitz the german navy or reichsmarine was renamed the kriegsmarine in 1935 shortly after the emergence of the nazi state and went through a major re organization in 1939 during world war ii it became a much feared adversary both on and beneath the high seas with its marauding u boat wolf packs coming close to defeating britain in the battle of the atlantic the author of this text examines the different roles of the fleet and its organization and training activities during the war years incidents and operations are described together with technical data for ships u boats and their weaponry a guide to german navy uniforms and insignia is included together with full details of rank structure and specialist trades

The Fighting Ships of the Rising Sun

1996

edited by james l mooney volume 6 of an eight volume set this volume provides historical sketches of ships whose names start with the letters r and s and in the case of submarines the r boats and the s boats appendices provide data on submarine chasers and eagle boats two types initially designed for antisubmarine operations in world war 1 l c card 60 60198 item 399 a no further discounts for already reduced sale items other related products anchor of resolve a history of u s naval forces central command fifth fleet can be found here bookstore gpo gov products sku 008 046 00241 0 an underwater ice station zebra recovering a kh 9 hexagon capsule from 16 400 feet below the pacific ocean selected declassified cia documents can be found here bookstore gpo gov products sku 041 015 00294 5 ctid 539 fundamentals of war gaming paperback format can be found here bookstore gpo gov products sku 008 046 00299 1 hardcover format can be found here bookstore gpo gov products sku 008 046 00269 0 the world cruise of the great white fleet honoring 100 years of global partnerships and security hardcover format can be found here bookstore gpo gov products sku 008 046 00245 2

War at Sea, 1939-1945

1981

drawn from one of largest collections of convoy records in existence this book describes the development and operations of allied convoy systems

Dictionary of American Naval Fighting Ships

2000

this third and final part of the series includes all the ships in naval service that were not frontline fighting vessels despite auxiliary status these were not insignificant ships indeed the icebreakers were the largest vessels built by the ussr before the war and carried so much prestige that every leading member of the soviet regime wanted their name on one apart from the obvious fleet support types oilers tugs and depot ships this volume also covers unsung

heroes like the salvage fleet highly significant in the 1930s for generating much needed foreign currency and later essential to the war effort allowing so many sunken soviet warships to be returned to service this book contains the first clear and comprehensive listing of ex mercantile transport ships their periods of service and ultimate fates even harbor service craft are included right down to the humble heaters that supplied warmth to icebound warships in the depth of the russian winters this volume concludes with appendices on subjects like weaponry and a detailed cross referenced index that will allow readers to differentiate between ships of the same name and to track every name change this volume covers staff communication ships dispatch ships surveying vessels salvage vessels depot ships training ships sanitary transport ships icebreakers transport ships oilers water carriers tugs experimental and special purpose vessels cable layers harbor vessels

Ships of World War II

1946

the purpose of this book is two fold first it presents in a single place a coherent account of the tumultuous naval events that took place in the eastern mediterranean between 1940 and 1945 during world war ii second the book aims to demonstrate in an interesting fashion what naval warfare in the narrow seas is really like koburger demonstrates that there was a definite allied strategy in the eastern mediterranean during world war ii he delineates that strategy showing its two halves and demonstrates the roles of yugoslavia greece and turkey koburger contends that the eastern mediterranean offers an excellent example of what warfare in the narrow seas is about he remains convinced that in the 1990s the narrow seas are where the wars are going to be this book will be of interest to policymakers the military and military historians

Congressional Record

2019-02-28

seventy five years after the end of the second world war the details of soviet ships their activities and fates remain an enigma to the west in wartime such information was classified and after a brief period of glasnost openness the russian state has again restricted access to historical archives therefore the value and originality of this work is difficult to exaggerate it sees the first publication of reliable data on both the seagoing fleets and riverine flotillas of the soviet navy listing over 6 200 vessels from battleships to river gunboats and mercantile conversions as well as purpose built warships this third and final part of the series includes all the ships in naval service that were not frontline fighting vessels despite auxiliary status these were not insignificant ships indeed the icebreakers were the largest vessels built by the ussr before the war and carried so much prestige that every leading member of the soviet regime wanted their name on one apart from the obvious fleet support types oilers tugs and depot ships this volume also covers unsung heroes like the salvage fleet highly significant in the 1930s for generating much needed foreign currency and later essential to the war effort allowing so many sunken soviet warships to be returned to service another major feature of this volume is the first clear and comprehensive listing of ex mercantile transport ships their periods of service and ultimate fates even harbor service craft are included right down to the humble heaters that supplied warmth to icebound warships in the depth of the russian winters this volume concludes with a

number of important appendices on subjects like weaponry and a massive cross referenced index that will allow readers to differentiate between ships of the same name and to track every name change this is undoubtedly one of the most important naval reference works of recent years and will be welcomed by anyone with an interest in warships the soviet navy or wider maritime aspects of the second world war furthermore as recent russian actions appear to revive soviet era aspirations this book offers both new insights and valuable background of contemporary relevance

The Japanese Destroyer Suzutsuki 1945

1944

come sailing with chapman on the pages of an expansive attractively illustrated reference to large and frequently famous sailboats from around the globe enthusiasts will find completely up to date information on these extremely popular boats more than 450 color photos and descriptions of different types of sailing ships and rigging each craft listed features a full color picture details and statistics accompanied by facts and figures on its home port the year it was built the names of the owner and crew plus rigging tonnage mast sails and use
