Philosophy of Law 2013-11-21 excerpt from an introduction to the history of jurisprudence bolingbroke has observed that to enable one to take a commanding view of the field of law and legislation there are two principal vantage grounds on which it is necessary to mount history and metaphysics the road is smooth and flowery to that vantage ground offered by history there has been no want of those who have ascended to it and taken post upon it to that which belongs to the region of metaphysics the road is rugged and full of thorns few have attempted to gain it fewer have succeeded in placing themselves in a position whence a view at once clear and extensive could be obtained about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at forgottenbooks.com this book is a reproduction of an important historical work forgotten books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy in rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition we do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

**An Introduction to the History of Jurisprudence** 1860 excerpt from historical jurisprudence an introduction to the systematic study of the development of law the study of historical jurisprudence possesses a complex attractiveness it has a value that is at once theoretical and practical an interest that arises from the ease of acquiring as well as from the difficulty of comprehending its principles the student finds in jurisprudence a mental training that calls into fullest activity all the forces which years devoted to the study of the humanities have placed at his disposal languages history philosophy all these combined are insufficient to unlock every barrier to the complete knowledge of this most far reaching science yet the man devoid of college education without any education indeed beyond that sufficient to enable him to pass the usual bar examination finds in historical jurisprudence matters not only of deepest interest but of highest value the lawyer finds therein the solid foundation upon which rests modern law the vital force of that law which to him is too often a thing to be merely memorized and understanding of those principles which are not seldom by him only dimly discerned in enactment and precedent the student of the liberal arts finds in jurisprudence the record of national development the key to the great movements which have made and unmade dynasties the explanation of that which would without it be so obscure as to defy understanding the study of jurisprudence is as profitable for him who has but little time to devote to the pursuit of culture as for him whose whole life is devoted to such pursuit about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at forgottenbooks.com this book is a reproduction of an important historical work forgotten books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy in rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition we do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
