**The Nature of Human Values** 1973 milton rokeach s book the nature of human values 1973 and the rokeach value survey which the book served as the test manual for occupied the final years of his career in it he posited that a relatively few terminal human values are the internal reference points that all people use to formulate attitudes and opinions and that by measuring the relative ranking of these values one could predict a wide variety of behavior including political affiliation and religious belief this theory led to a series of experiments in which changes in values led to measurable changes in opinion for an entire small city in the state of washington

**Human Values and Education** 1986 provides a wealth of information about values and beliefs of people all over the world  
*Human Values and Beliefs* 1998-05-18 first published in 1971 human values and the mind of man examines how value questions have been treated in traditional theories of human nature it discusses the following topics theory of mind as seen through the rules of the generation of languages the implications for human value of automata theory the nervous system higher mental processes and human values value consequences of various positions on the mind body problem the implications of self actualization theory for human value and specific value problems in the philosophy of mind the book presents an interdisciplinary dialogue centred around thoughts about man and their implications for human action decision and nature of what we call the human mind this book is an essential read for philosophers psychologists scientists and humanists

*Human Values and Verities* 1938 ethics is a central part of our lives it is as basic and pervasive as thinking and feeling and it is not just what keeps us compliant with the law it is the gateway to the quality of our relationships and the spiritual fulfilment of our lives the little book of ethics introduces us to ethics through the lens of values and offers us five core human values honesty peace right action love and insight it shows how these values are applied in different domains of our lives and relates them to six aims of human life where ethics is united with meaning and purpose

**Human Values and the Mind of Man** 2021-09-30 the process by which human beings as they grow toward maturity develop values is not an automatic one the process can be fostered by a number of teaching strategies the strategies include the techniques of self discovery the provision of learning environments that encourage growth and the practice of specific skills this volume provides a theoretical basis for an understanding of value development together with practical materials for applying the theory in the lives of individuals and institutions a model the four phases of consciousness was designed that charted a pattern of human moral and intellectual growth in terms of what individuals value in life the model projected a series of four phases through which all humans pass on their journey toward the fullest possible development

section 1 focuses on value development theory and identifies the four phases of consciousness in detail analyzes the factors that enable individuals to move through the phases explores the relationship between skills and the internalization of values introduces the classification of instrumental intrapersonal imaginal and system skills and applies the value theory to the educational system section 2 presents a series of exercises in each of the four skill areas because skill development is crucial to making changes in behavior and values all of the exercises are intended to present the individual with new data about the self and to explore a series of choices crucial to the process of giving direction to one's life seven appendices are included 1 application of value theory 2 feeling words 3 value skill time list 4 125 values and their definitions 5 glossary 6 bibliography and 7 hall tonna inventory of values db

**The little book of ethics: A human values approach** 2011 the tanner lectures on human values is the annual publication of lectures given at various universities around the world established to reflect upon the scholarly and scientific learning relating to human values the lectureships are international and intercultural and transcend ethnic national religious and ideological distinctions

Human Values & Professional Ethics 1979 this volume presents theoretical methodological and empirical advances in understanding and also in the effects of understanding individual and societal values

*Human values* 1990 this book grows out of a long felt need for a readable source that explores all aspects of people's values good information on the study of human values exists scattered about in various sources spanning disciplines and decades but it is not easily located nor readily assimilated and organized in mind richard w kilby attempts to remedy that situation this book is a general comprehensive work on human values and is composed of chapters on types of values their nature their role in lives their origins and methods of their study or assessment it was written on the assumption that most of its readers would know little of the subject rather than be specialists but kilby's main consideration was to include everything that was pertinent and to do full justice to each topic one portion or another of the study of human values should be useful to someone be it student instructor researcher or general reader

**Developing Human Values** 2011-04-28 a thought provoking book bringing readers outside their comfort zones it challenges us to think beyond the typical macro and microeconomic read full review a tanft readers best 2021 summer book throughout the history of mankind the rise of societies whether civilizations nations or communities has been a story of human achievement from the rise of the akkadian empire in ancient mesopotamia to the re emergence of modern china people constitute the basic denominator upon which societies build their success the way people around the world think and

behave is guided by a complex system of values these values constitute key factors in the way economies are structured and their potential for further growth to a large extent they explain why japan has gone through multiple lost decades why nordic countries accept the highest tax rates in the world making their societies much more equal why china has such a large trade surplus with the united states or why some nations become stuck in a middle income trap it is these values coupled with the right policies that ultimately determine the destiny of nations in this book we explore how the combination of human values and policies affects national economic outcomes we focus on certain key values conducive to growth are people of a given nation on average hardworking thrifty do they trust each other are they risk takers the harder people work the higher the growth potential different savings patterns determine to a large extent whether a country will grow through investments and exports or consumption and have generated large global imbalances over time trust goes a long way in explaining wealth and income inequalities and the role that governments can play in minimizing those inequalities economies with highly risk averse citizens will stall we also identify policies which have the greatest impact on economies political stability much more so than any form of governance is a precondition for growth free markets imply a process of creative destruction free and fair competition and a level playing field among companies an educated workforce is a vital enabler of higher productivity and innovation corruption can seriously derail growth once it becomes endemic sound fiscal and monetary policies stabilize an economy as it goes through cycles and can greatly contribute to a more equal society and a more robust financial sector

The Tanner Lectures on Human Values 2008-06-30 consists of lectures delivered at the institute on human values a series of lectures presented at creighton university in 1968 69 includes bibliographies
