Oracle Primavera P6 (V8. 3) Professional Client Quick Guide for Beginners

2013-01-01

this book quickly gets down to the issues that many people grapple with when trying to use some of the more advanced features of the software and enlightens readers on the traps that some users fall into and how to avoid them it demonstrates how the software ticks and explains some tricks that may be used to become more productive with the software suitable for people who understand the basics of p6 but want a short guide to give them insight into the less intuitive features of the software it is packed with screen shots constructive tips and is written in plain english the book is based on the p6 version 18 but may be used with earlier versions of p6 as this book points out the differences where appropriate the book picks out many of the key aspects from the author s exiting books and adds a substantial amount of new and original text to produce a pocket guide that omits describing the intuitive and obvious functions and concentrates on the issues that many users get stuck on or find hard to understand

The Woodworker's Reference Guide and Sourcebook
