rom contains scenes and exercises linked to the chapters in the book an on disk web site to help you view all the movies for the book slide shows and image samples for different processes tips qtvr animations and animated movies this study is an exercise in the history of political perception and opinion it broke new ground in considering the decline of liberalism through the eyes of liberals themselves by concentrating on what liberal politicians said to one another and to their audience public and private a picture is built up of the frame of mind in which those responsible for guiding liberalism faced a worsening world after 1914 the coming of the first world war was a critical element in forming that frame of mind and the frame of mind was itself critical in deciding the fate of liberalism in the post war years what emerges from this study is the paradox that the liberal mind was the greatest single obstacle in the way of a liberal revival this book will be the first to examine the variety of british international thought its continuities and innovations the editors combine new essays on familiar thinkers such as thomas hobbes and john locke with important but neglected writers and publicists such as travers twiss james bryce and lowes dickinson vols for 1871 76 1913 14 include an extra number the christmas bookseller separately paged and not included in the consecutive numbering of the regular series an innovative study of the pre history of the league of nations tracing the pro league movement s unexpected development james elkins s how to use your eyes invites us to look at and maybe to see for the first time the world around us with breathtaking results here are the common artifacts of life often misunderstood and largely ignored brought into striking focus with the discerning eye of a painter and the zeal of a detective elkins explores complicated things like mandalas the periodic table or a hieroglyph remaking the world into a treasure box of observations eccentric ordinary marvelous the dictionary consists of an alphabetical index to over 10 000 ship histories documenting nearly every ship that the us navy has put to sea continental and confederate vessels are also included entries include physical information commissioning service record notable actions and decommissioning drawings photographs and documents are also included the site is an electronic version of the previously published dictionary series entries may be corrected and updated from those that appeared in the printed series this book provides a careful historical analysis of the co evolution of educational attainment and the wage structure in the united states through the twentieth century the authors propose that the twentieth century was not only the american century but also the human capital century that is the american educational system is what made america the richest nation in the world its educational system had always been less elite than that of most european nations by 1900 the u s had begun to educate its masses at the secondary level not just in the primary schools that had remarkable success in the nineteenth century the book argues that technological change education and inequality have been involved in a kind of race during the first eight decades of the twentieth century the increase of educated workers was higher than the demand for them this had the effect of boosting income for most people and lowering inequality however the reverse has been true since about 1980 this educational slowdown was accompanied by rising inequality the authors discuss the complex reasons for this and what might be done to ameliorate it an accessible introduction to the bronze age culture in asia minor famed for their warriors the hittites flourished in the region of modern turkey from the seventeenth to thirteenth centuries bc in this book archaeologist damien stone explores the rich history of the hittite civilization beyond their skill in battle from religious reverence for the sun and storms to eclectic rock carvings which survive to this day stone describes the colorful succession of hittite rulers complete with assassinations intrigue and an evil stepmother but he also parses the development of the hittite language and considers the hittites legacy in religion art and culture today in short the hittites is a wide ranging accessible introduction to this vibrant ancient culture the aspirations of democracy and the requirements of diplomacy have always coexisted uneasily the politicians discussed in this book in particular the appreciation of the careers of john bright and james bryce reflect obliquely or directly on the problems of politicians who seek the high moral ground either in domestic or international politics there is also a discussion of the relationship between politicians and the press as well as of the difficult link between cultural and political assumptions on the one hand and the facts of economic performance on the other first published in 1998 routledge is an imprint of taylor francis an informa company the late nineteenth century was a golden age for european travel in the united states for prosperous europeans a journey to america was a fresh

alternative to the more familiar grand tour of their own continent promising encounters with a vast wild landscape and with people whose culture was similar enough to their own to be intelligible yet different enough to be interesting their observations of america and its inhabitants provide a striking lens on this era of american history and a fascinating glimpse into how the people of the past perceived one another in unspeakable awfulness kenneth d rose gathers together a broad selection of the observations made by european travellers to the united states european visitors remarked upon what they saw as a distinctly american approach to everything from class politics and race to language food and advertising their assessments of the american character continue to echo today and create a full portrait of late nineteenth century america as seen through the eyes of its visitors including vivid travellers tales and plentiful illustrations unspeakable awfulness is a rich resource that will be useful to students and appeal to anyone interested in travel history and narratives find out what s going on any day of the year anywhere across the globe the world s datebook chase s is the definitive day by day resource of what america and the wider world are celebrating and commemorating founded in 1957 on a reputation for accuracy and comprehensiveness this annual publication has become the must have reference used by experts and professionals for more than fifty years from celebrity birthdays to historical anniversaries from astronomical phenomena to national awareness days from award ceremonies and sporting events to religious festivals and carnivals chase s is the one stop shop for everything that is happening now or is worth remembering from the past the 2017 edition of chase s calendar of events brings you information about the 500th anniversary of martin luther s ninety five theses the 150th anniversary of the dominion of canada the 100th anniversary of the russian revolution the 100th anniversary of splitting the atom the 50th anniversary of the summer of love frank lloyd wright s 150th birth anniversary and much more warrior mighty builder and statesman over the course of his 67 year long reign 1279 1212 bce ramesses ii achieved more than any other pharaoh in the three millennia of ancient egyptian civilization drawing on the latest research peter brand reveals ramesses the great as a gifted politician canny elder statesman and tenacious warrior with restless energy he fully restored the office of pharaoh to unquestioned levels of prestige and authority thereby bringing stability to egypt he ended almost seven decades of warfare between egypt and the hittite empire by signing the earliest international peace treaty in recorded history in his later years even as he outlived many of his own children and grandchildren ramesses ii became a living god and finally an immortal legend with authoritative knowledge and colorful details brand paints a compelling portrait of this legendary pharaoh who ruled over imperial egypt during its golden age eminent victorians on american democracy surveys a wide range of british opinion on the united states in the nineteenth century and highlights the views of john stuart mill walter bagehot sir henry maine and james bryce who wrote extensively on american government and society america was significant to them not only because it was the world s most advanced democracy but also because it was a political experiment that was seen to anticipate the future of britain the victorians made a memorable contribution to the continuing debate over the character and origins of democracy through their perceptive examination of issues ranging from the us constitution to its practical application from the supreme court to the party system their trenchant commentary punctures several popular american assumptions not least the idea of exceptionalism to victorian commentators the bonds of kinship law and language were of great significance and while they did not see the united states as having a unique destiny they rallied to an anglo american exceptionalism which reflected their sense of a shared transatlantic history what distinguishes the victorian writers was their willingness to examine the us constitution dispassionately at a time when americans treated it as a sacred document although the united states has changed dramatically since they wrote much of their commentary remains remarkably prescient if only because the american government retains so much of its eighteenth century character today when rival american priesthoods see the constitution in the light of their particular altars it is worth revisiting what leading victorians had to say about it it may come as a shock to american readers best remembered as the father of vice president al gore albert gore sr worked tirelessly in politics himself a democratic congressman and senator from 1939 to 1971 and a representative of southern liberalism and american reformism in the first comprehensive biography of gore kyle longley has produced an incisive portrait of a significant american political leader and an arresting narrative of the shaping of a southern and american political tradition his research includes archival sources from across the country as well as interviews with gore s colleagues friends and family longley describes how the native of possum hollow tennessee became known during his political career as a maverick a man who according to one journalist would rock almost anybody s boat for his actions gore often paid a heavy price personally and professionally overshadowed by others in congress such as lyndon johnson j william fulbright richard russell and barry goldwater gore nonetheless played a major role on the important issues of taxes the interstate highway system civil rights nuclear power and arms control and the vietnam war longley situates gore as part of a generation of politicians who matured on the messages of william jennings bryan woodrow wilson and franklin roosevelt in the south gore belonged to a staunch group of liberals who battled traditional conservative forces often within their own party he and others such as estes kefauver frank porter graham and ralph yarborough set the stage for subsequent generations including that of jimmy carter and jim sasser and later bill clinton al gore jr and john edwards from his career shines one encapsulating moment in 1952 squared off on the floor of the senate against strom thurmond who wanted gore to sign the southern manifesto declaring southern

resistance to desegregation gore responded simply classically hell no true to its initial aims the latest volume of the journal of greek archaeology runs the whole chronological range of greek archaeology while including every kind of material culture in 1900 w e b dubois prophesied that the colour line would be the key problem of the twentieth century and he later identified one of its key dynamics the new religion of whiteness that was sweeping the world whereas most historians have confined their studies of race relations to a national framework this book studies the transnational circulation of people and ideas racial knowledge and technologies that under pinned the construction of self styled white men s countries from south africa to north america and australasia marilyn lake and henry reynolds show how in the late nineteenth century and early twentieth century these countries worked in solidarity to exclude those they defined as not white actions that provoked a long international struggle for racial equality their findings make clear the centrality of struggles around mobility and sovereignty to modern formulations of both race and human rights this book traces the emergence of the ideas and institutions that evolved to give people mastery over their own destiny through the force of public opinion the greek belief in citizen participation is shown as the ground upon which the idea of public opinion began and grew for wilson public opinion is an orderly force contributing to social and political life wilson appraises the influence of modern psychology and the slow appearance of methodologies that would enable people not only to measure the opinions of others but to mold them as well he examines the relation of the theory of public opinion to the intellectuals the middle class and the various revolutionary and proletarian movements of the modern era the circumstances in which the individual may refuse to follow the opinions of the experts are succinctly and movingly analyzed this book is a historical and philosophical evaluation of a concept that has played a decisive part in history and whose overwhelming force is underestimated the author s insight brings an understanding that is invaluable at a time when public opinion the force developed to enable the ruled to restrain their rulers has become controllable attempts to manipulate it are made by those who would impose their will upon their fellow men annotation the author of a filemaker pro4 guide shows what s new and praiseworthy about this version of the popular database program appendices cover installing and configuring filemaker its functions script commands and keyboard shortcuts a companion web site is available

Politicians, Diplomacy and War in Modern British History *1994-07-01*

in 1900 w e b dubois prophesied that the colour line would be the key problem of the twentieth century and he later identified one of its key dynamics the new religion of whiteness that was sweeping the world whereas most historians have confined their studies of race relations to a national framework this book studies the transnational circulation of

people and ideas racial knowledge and technologies that under pinned the construction of self styled white men s countries from south africa to north america and australasia marilyn lake and henry reynolds show how in the late nineteenth century and early twentieth century these countries worked in solidarity to exclude those they defined as not white actions that provoked a long international struggle for racial equality their findings make clear the centrality of struggles around mobility and sovereignty to modern formulations of both race and human rights

Reader's Guide to American History 1997

this book traces the emergence of the ideas and institutions that evolved to give people mastery over their own destiny through the force of public opinion the greek belief in citizen participation is shown as the ground upon which the idea of public opinion began and grew for wilson public opinion is an orderly force contributing to social and political life wilson appraises the influence of modern psychology and the slow appearance of methodologies that would enable people not only to measure the opinions of others but to mold them as well he examines the relation of the theory of public opinion to the intellectuals the middle class and the various revolutionary and proletarian movements of the modern era the circumstances in which the individual may refuse to follow the opinions of the experts are succinctly and movingly analyzed this book is a historical and philosophical evaluation of a concept that has played a decisive part in history and whose overwhelming force is underestimated the author s insight brings an understanding that is invaluable at a time when public opinion the force developed to enable the ruled to restrain their rulers has become controllable attempts to manipulate it are made by those who would impose their will upon their fellow men
