all material might be best a book might be better for your student than the web sites for two reasons 1 the more common and easiest questions are using a ruler to measure the web designers don t know the size of your computer screen and can t determine if the student has measured correctly we can get a high percentage of these problems easily 2 when studying on a computer there are too many websites with the answers with a book parents can have greater assurance the work is being done this book is developed by a trained professional out of concern it is not the product of a large publishing house it is the results of one person who wants to help best regards mark shannon
