most training manuals skip and bounce around the truck in a manner that is both confusing and disorganized this manual however systematically guides the trainee in a logical orderly method that works and makes sense from the start of the inspection to its end the driver will never have to guess about where to go or what to inspect next this is accomplished by displaying the truck and trailer components in sections that are logically and numerically organized followed by a thorough discussion of the components following the same logical numerical order making the pre trip inspection far less intimidating and less confusing while most manuals barely mention the components to be inspected this manual discusses the components in great detail by first explaining their purpose and then by further explaining the multitude of problems that one could possibly find while inspecting a tractor and or trailer or straight truck instead of black and white sketches that lack clarity and detail this manual includes color photographs of every component covered never again will you have to wonder what a component really looks like nor will you have to embarrass yourself by asking someone also included are a sample score sheet and an inspection checklist that can be used for practice while training this manual also contains several bonus pictures compliments of the world champion extreme turbine race team miss geico and amf offshore racing more importantly this manual includes all the information needed to successfully pass the pre trip inspection exam on the first try and also serves as a good refresher to those who already have a commercial driver's license using an approach that has worked time and time again the new official k53 manual is a comprehensive and effective guide to passing your learner's licence and k53 driver's licence first time covering both light and heavy motor vehicles and motorcycles each chapter discusses the knowledge and skills expected of you the learner's section explains the k53 defensive driving principles road signs and the rules of the road with questions and detailed answers to test your knowledge at the end of this section there is a test similar to that compiled by traffic departments the driver's section explains how candidates are tested and what examiners look out for with step by step instructions on how to perform every manoeuvre in both the yard and road tests with detailed full colour illustrations throughout this is the definitive manual for both the learner's and driver's tests this book is about two devastating events that happened in my life in 2005 the first one was the loss of my youngest son he left this life in a trucking accident most of his twenty four years he wanted to be a tractor trailer driver driving the big rig was all he wanted to do since he could walk and talk the second one is about the home we lost two months after the passing of anthony hurricane katrina came through the gulf coast and destroyed our home and everything we owned we experienced life on the street for the next week it is an ordeal that i never want to experience again when i left new orleans the only thing i had left was my purse and the clothes on my back we lost everything i have recovered from most of the material things i lost i was able to purchase them again i have accepted the fact that god doesn't make mistakes and he knows what's best but i have not totally recovered from the loss of my son there are days that i'm totally fine then there are days that i feel the pain of the loss my good days do outweigh my sad days so i don't complain it is god who has blessed me and brought me through and i'm grateful let's make studying for the cdl exam easier our comprehensive cdl exam prep books are
