and principles that will lead to into successful happy living how would you describe the abundant life some would describe it from a financial perspective some would describe it from the perspective of power and influence some would describe it from the perspective of health and well being jesus said that he came so that we might have life and have it abundantly he made it clear that the only sure foundation for the abundant life is the good sound theology of the word of god holy scripture and a living faith relationship with him and the more we know and live that word the deeper that relationship with him the more abundant life becomes as the saying goes a bible that is falling apart from use usually belongs to a person who is not falling apart wise men of old considered theology to be the queen of the sciences because everything since creation including creation itself is founded upon good sound theology and that good sound theology is the order of creation established by a transcendent immanent present and personal god it is through this good sound theology of the order of creation that the holy spirit of god trains us in true and godly discernment the ability to distinguish between the true and the false the good and the bad the temporal and the eternal the earthly and the heavenly i submit that just about every problem and disaster that individuals and nations experience stems from man s insistence on replacing god s order of creation with his own it is my hope and prayer that the articles in this book contribute to the readers understanding of the abundant life jesus offers and will assist them in their journey toward a blessed life to know and understand the energy laws of the universe is to know and understand a little more of the mind of our creator my purpose in penning this book is to share with you what our family has learned of this metaphysical bridge that connects the spiritual with the mental and physical sides of our lives a The Royal Road to Abundant Living 1999 this book is a presentation of five fundamental and biblical based principles by which god would have us live our lives they are not original to me only discovered by me they came out of a nine hour seminar that had been developed in the 1980s it is organized by each individual principle along with several chapters which illustrate how these principles can be applied to our financial circumstances to illustrate these principles they are likened to the building of a house each principle represents a step in the process of building a house at the end of each principle as well as each chapter there is a personal application which i hope will help people apply that principle chapter to their personal lives the book is organized from start to finish on the concept that we are human beings created by a god who have given us a plan by which to live our lives a plan that goes beyond the materialistic focus of most people in the world today it is a book for persons who are willing to discover how god can direct their financial lives to be fulfilled according to his plan which in turn will provide them with a level of fulfillment that can only be found by following his plan
