

Epub free The leveller revolution radical political organisation in england 1640 1650 .pdf

the revolution of the saints is a study both historical and sociological of the radical political response of the puritans to disorder it interprets and analyzes calvinism as the first modern expression of an unremitting determination to transform on the basis of an ideology the existing political and moral order michael walzer examines in detail the circumstances and ideological options of the puritan intelligentsia and gentry he sees puritanism in sharp contrast to some generally accepted views as the political theory of intellectuals and gentlemen attempting to create a new government and society the gripping story of the levellers the radical movement at the heart of the english revolution the levellers formed out of the explosive tumult of the 1640s and the battlefields of the civil war are central figures in the history of democracy in this thrilling narrative john rees brings to life the men including john lilburne richard overton and thomas rainsborough and women who ensured victory and became an inspiration to republicans of many nations from the raucous streets of london and the clattering printers workshops that stoked the uprising to the rank and file of the new model army and the furious putney debates where the levellers argued with oliver cromwell for the future of english democracy this story reasserts the revolutionary nature of the 1642 51 wars and the role of ordinary people in this pivotal moment in history in particular rees places the levellers at the centre of the debates of 1647 when the nation was gripped by the question of what to do with the defeated charles i without the levellers and agitators fortitude and well organised opposition history may have avoided the regicide and missed its revolutionary moment the legacy of the levellers can be seen in the modern struggles for freedom and democracy across the world the leveller movement of the 1640s campaigned for religious toleration and a radical remaking of politics in post civil war england this book the first full length study of the levellers for fifty years offers a fresh analysis of the originality and character of leveller thought challenging received ideas about the levellers as social contract theorists and leveller thought as a mere radicalisation of parliamentarian thought foxley shows that the levellers originality lay in their subtle and unexpected combination of different strands within parliamentarianism the book takes full account of recent scholarship and contributes to historical debates on the development of radical and republican politics in the civil war period the nature of tolerationist thought the significance of the leveller movement and the extent of the levellers influence in the ranks of the new model army this book is a compilation of radical writings and speeches by che guevara aka ernesto che guevara this is one of the most complete collections of writings by che guevara and include important texts on guerrilla warfare politics and revolution this book should not be passed over by anybody studying the life or beliefs of che guevara history of radicalism and radical movements or the history of cuban politics these included texts are a must read for those interested in this important period of world history and of radical political thought and ideologies it charts the limits of representation within the royal theater where whig playwrights were challenging stuart mythography before moving out onto the streets where the contracts of representation were less circumscribed by royal interests it was on the streets of london that the whig party staged massive civic performances the pope burning pageants that allowed the circulation of the exclusion platform book jacket concerned with what cuban radicals have thought about their nation s protracted struggle for independence sheldon b liss

looks at each one's mode of analysis position on the class struggle ideas on reform or revolution and search for community each writer's beliefs about ethics morality religion social mobility political control aesthetics and quality of life are subjected to scrutiny by liess he also considers their views on cuban united states relations their perceptions of the state and power and their relationships to the means of production and workers movements explores how fringe beliefs and those who follow them have been carried through the last one thousand years radical political economy is built upon the formal analysis of neoclassical economics and the tradition of marxian radical analysis the essays presented in this book offer a representative sampling of the issues and methodologies involved in the study of radical political economy modern political thinkers and ideas is an exciting new text that provides students with a clearly presented introduction to some of the key areas of modern political thought uniquely combining historical and philosophical approaches to the subject it describes the writings and ideas of the most influential thinkers of the modern era modern political thinkers and ideas features the main concepts in modern political theory such as the state and sovereignty political obligation and civil disobedience liberty rights equality and justice democracy the ideas of key thinkers such as machiavelli hobbes locke paine rousseau burke mill bentham marx rawls hayek a clear and instructive framework for each chapter which provides students with a the significance of each concept in modern political thought b what major political thinkers had to say about each concept and c the relevance of key concepts to contemporary argument and debate first published in 1987 similar in content to sherman's previous book radical political economy it covers most of the same issues and reaches the same overall conclusion in favour of democracy and socialism many of the analyses and conclusions on particular subjects however have changed because of the flood of new literature in every area of radical political economy and because the world has changed the most important issue is the prevention of nuclear war alexis de tocqueville once wrote that the people reign over the american political world like god over the universe unwittingly casting democracy as the political instantiation of the death of god according to jeffrey w robbins tocqueville's assessment remains an apt observation of modern democratic power which does not rest with a sovereign authority but operates as a diffuse social force by linking radical democratic theory to a contemporary fascination with political theology robbins envisions the modern experience of democracy as a social cultural and political force transforming the nature of sovereign power and political authority robbins joins his work with michael hardt and antonio negri's radical conception of network power as well as sheldon wolin's notion of fugitive democracy to fashion a political theology that captures modern democracy's social and cultural torment this approach has profound implications not only for the nature of contemporary religious belief and practice but also for the reconceptualization of the proper relationship between religion and politics challenging the modern liberal and secular assumption of a neutral public space robbins conceives of a postsecular politics for contemporary society that inextricably links religion to the political while effectively recasting the tradition of radical theology as a political theology this book also develops a comprehensive critique of the political theology bequeathed by carl schmitt it marks an original and visionary achievement by the scholar the journal of the american academy of religion hailed one of the best commentators on religion and postmodernism this 16 hour free course explored the main events of the french revolution and its significance in the shift from enlightenment to romanticism this book provides an itinerary for studying political theology in chinese society including mainland china hong kong and taiwan it explores the changing role of religion in chinese history from the rise of buddhism alongside confucianism and daoism through the arrival of christianity and islam to the suppression of religion under communism since the reform and opening

period beginning in 1978 china has experienced a resurgence of religiosity with powerful societal implications governing authorities have sought to regulate religious practice in line with their governing system political theology in chinese society is very much in flux and the chapters in this volume provide an array of windows through which to view the evolving reality they include historical approaches and descriptive analyses with an interdisciplinary and international range of perspectives by contributors based in and outside china the book will be of particular interest to scholars of theology religious studies and contemporary china studies american culture maintained a complicated relationship with haiti from its revolutionary beginnings onward in this study peter p reed reveals how americans embodied and re enacted their connections to haiti through a wide array of performance forms in the wake of haiti s slave revolts in the 1790s generations of actors theatre professionals spectators and commentators looked to haiti as a source of both inspiring freedom and vexing disorder french colonial refugees university students black theatre stars blackface minstrels abolitionists and even writers such as herman melville all reinvented and restaged haiti in distinctive ways reed demonstrates how haiti s example of black freedom and national independence helped redefine american popular culture as actors and audiences repeatedly invoked and suppressed haiti s revolutionary narratives characters and themes ultimately haiti shaped generations of performances transforming america s understandings of race power freedom and violence in ways that still reverberate today this is the first comprehensive volume to offer a state of the art investigation both of the nature of political ideologies and of their main manifestations the diversity of ideology studies is represented by a mixture of the range of theories that illuminate the field combined with an appreciation of the changing complexity of concrete ideologies and the emergence of new ones ideologies however are always with us the handbook is divided into three sections the first is divided into three sections the first reflects some of the latest thinking about the development of ideology on an historical dimension from the standpoints of conceptual history marx studies social science theory and history and leading schools of continental philosophy the second includes some of the most recent interpretations and theories of ideology all of which are sympathetic in their own ways to its exploration and close investigation even when judiciously critical of its social impact this section contains many of the more salient contemporary accounts of ideology the third focuses on the leading ideological families and traditions as well as on some of their cultural and geographical manifestations incorporating both historical and contemporary perspectives each chapter is written by an expert in their field bringing the latest approaches and understandings to their task the handbook will position the study of ideologies in the mainstream of political theory and political analysis and will attest to its indispensability both to courses on political theory and to scholars who wish to take their understanding of ideologies in new directions publisher description in this volume heide gerstenberger investigates the development of bourgeois state power by on the one hand proposing a critique of different variants of the structural functionalist theory of the state and on the other hand analysing the examples of england and france the central thesis of the work is that the bourgeois form of capitalist state power arose only where capitalist societies developed out of state structures that were already rationalised no era in american history has been more fascinating to americans or more critical to the ultimate destiny of the united states than the colonial era between the time that the first european settlers established a colony at jamestown in 1607 through the signing of the declaration of independence the outlines of america s distinctive political culture economic system social life and cultural patterns had begun to emerge designed to complement the high school american history curriculum as well as undergraduate survey courses colonial america an encyclopedia of social

political cultural and economic history captures it all the people institutions ideas and events of the first three hundred years of american history while it focuses on the thirteen british colonies stretching along the atlantic colonial america sets this history in its larger contexts entries also cover canada the american southwest and mexico and the caribbean and atlantic world directly impacting the history of the thirteen colonies this encyclopedia explores the complete early history of what would become the united states including portraits of native american life in the immediate pre contact period early spanish exploration and the first settlements by spanish french dutch swedish and english colonists this monumental five volume set brings america s colonial heritage vibrantly to life for today s readers it includes thematic essays on major issues and topics detailed a z entries on hundreds of people institutions events and ideas thematic and regional chronologies hundreds of illustrations primary documents and a glossary and multiple indexes this work provides a comprehensive survey and analysis of buddhist political theory from the time of the buddha to the present in each volume an introductory essay outlines of history of the disciplines under discussion and describes how changes and innovations in these disciplines have affected our lives the biographies that follow are organized in an a z format each biography is divided into a life section describing the individual s life and influences and a legacy section summarizing the impact of that individual s work throughout history these biographies cover a diverse group of men and women from around the globe and throughout history franklin delano roosevelt mao tse tung and genghis khan are among the 200 well known historical figures included in this volume examples of other lesser known yet important individuals covered in this work are gustavas adolphus swedish empire creator hatshepsut queen of ancient egyptian dynasty and jean jaurès french socialist leader and pacifist each synopsis provides information on each individual s enduring impact on the common understanding of fundamental themes of human existence this groundbreaking new work explores modern and contemporary political thought since 1750 looking at the thinkers concepts debates issues and national traditions that have shaped political thought from the enlightenment to post modernism and post structuralism encyclopedia of modern political thought is two volume a to z reference that provides historical context to the philosophical issues and debates that have shaped attitudes toward democracy citizenship rights property duties justice equality community law power gender race and legitimacy over the last three centuries it profiles major and minor political thinkers and the national traditions both western and non western which continue to shape and divide political thought more than 200 scholars from leading international research institutions and organizations have provided signed entries that offer comprehensive coverage of thought of regions and countries including african political thought american political thought australasian political thought australian and new zealand chinese political thought indian political thought islamic political thought japanese political thought and more thought regarding contemporary issues such as abortion affirmative action animal rights european integration feminism humanitarian intervention international law race and racism and more the ideological spectrum from marxism to neoconservatism including anarchism conservatism darwinism and social darwinism engels fascism the frankfurt school lenin and leninism socialism and more connections of political thought to key areas of politics and other disciplines such as economics psychology law and religion notable time periods of political thought since 1750 concepts including class democratic theory liberalism nationalism natural and human rights and theories of the state theorists and political intellectuals both western and non western including john adams edmund burke mohandas gandhi immanuel kant ayatollah khomeini ernst friedrich schumacher george washington and mary wollstonecraft the political economy of research and innovation r i is one of the central issues of the early twenty first century science and innovation

are increasingly tasked with driving and reshaping a troubled global economy while also tackling multiple overlapping global challenges such as climate change or food security global pandemics or energy security but responding to these demands is made more complicated because r i themselves are changing today new global patterns of r i are transforming the very structures institutions and processes of science and innovation and with it their claims about desirable futures our understanding of r i needs to change accordingly responding to this new urgency and uncertainty this handbook presents a pioneering selection of the growing body of literature that has emerged in recent years at the intersection of science and technology studies and political economy the central task for this research has been to expose important but consequential misconceptions about the political economy of r i and to build more insightful approaches this volume therefore explores the complex interrelations between r i both in general and in specific fields and political economies across a number of key dimensions from health to environment and universities to the military the routledge handbook of the political economy of science offers a unique collection of texts across a range of issues in this burgeoning and important field from a global selection of top scholars the handbook is essential reading for students interested in the political economy of science technology and innovation it also presents succinct and insightful summaries of the state of the art for more advanced scholars delves into the internal politics and personalities that brought life to the irish socialist republican party the political significance of the organisation led by james connolly is viewed in both the international and national sphere the legacy of theirsrp has had an impact on the left wing and republican movements in ireland for many decades focusing on the interaction of religion and politics this is a comprehensive chronological survey of the political thought of post reformation britain which examines the work of a wide range of thinkers increased flows of people capital and ideas across geographic borders raise urgent challenges to the existing terms and practices of politics comparative political theory seeks to devise new intellectual frames for addressing these challenges by questioning the canonical that is euro american categories that have historically shaped inquiry in political theory and other disciplines it does this by analyzing normative claims discursive structures and formations of power in and from all parts of the world by looking to alternative bodies of thought and experience as well as the terms we might use to critically examine them comparative political theory encourages self reflexivity about the premises of normative ideas and articulates new possibilities for political theory and practice the oxford handbook of comparative political theory provides an entry point into this burgeoning field by both synthesizing and challenging the terms which motivate it over the course of five thematic sections and thirty three chapters this volume surveys the field and archives of comparative political theory bringing the many approaches to the field into conversation for the first time sections address geographic location as a subject of political theorizing how the past becomes a key site for staking political claims the politics of translation and appropriation the justification of political authority and questions of disciplinary commitment and rules of knowledge ultimately the handbook demonstrates how mainstream political theory can and must be enriched through attention to genuinely global rather than parochially euro american contributions to political thinking political trials take issues of responsibility conscience representation and legitimacy which are tied in tight political and legal knots and force us to face questions about our public identity our standards for public policy and our sense of history ron christenson explores how political trials especially those within the rule of law engage society s conflicting values and loyalties he examines numerous political trials throughout history bringing into question basic foundations of law politics and society christenson classifies political

trials according to the issues they generate in the political sphere partisan trials are spurious legal proceedings but politically expedient trials of corruption and insanity raise questions of public and personal responsibility trials of dissenters involve problems of conscience trials of nationalists highlight the nature of representation and the relationship of the part to the whole and trials of regimes engage the most fundamental concept of both law and politics legitimacy political trials brings these considerations to bear on some of the best known cases in history including the gunpowder plot the spanish inquisition the dreyfus affair the nuremburg trials trials of dissenters such as socrates thomas more roger williams and the berrigan brothers and trials of nationalists such as joan of arc gandhi knut hamsun and the irish republicans since the first edition appeared a number of notable political trials have raised critical issues for society shocking public exposures about the guildford 4 and maguire 7 trials shook the british criminal justice establishment while in the united states trials concerning the beating of rodney king led up to the o j simpson spectacle and a host of parallel questions the trials of right wing terrorists such as paul hill found guilty of murdering an abortion doctor and timothy mcveigh convicted of the oklahoma city federal building bombing parallel the case of left wing dissenter karl armstrong in the 1970s finally the south african truth and reconciliation committee provides a test case of whether a nation can not only remember but grant amnesty and achieve true reconciliation in examining the dilemmas involved in these trials christenson shows how they make a positive contribution to an open and democratic society political trials will be an important addition to the libraries of historians legal scholars and political scientists a corrective addendum to edward said s orientalism this book examines how sympathetic representations of islam contributed significantly to protestant britain s national and imperial identity in the eighteenth century taking a historical view humberto garcia combines a rereading of eighteenth century and romantic era british literature with original research on anglo islamic relations he finds that far from being considered foreign by the era s thinkers islamic republicanism played a defining role in radical enlightenment debates most significantly during the glorious revolution french revolution and other moments of acute constitutional crisis as well as in national and political debates about england and its overseas empire garcia shows that writers such as edmund burke lady mary wortley montagu samuel taylor coleridge robert southey and percy and mary shelley not only were influenced by international events in the muslim world but also saw in that world and its history a viable path to interrogate contest and redefine british concepts of liberty this deft exploration of the forgotten moment in early modern history when intercultural exchange between the muslim world and christian west was common resituates english literary and intellectual history in the wider context of the global eighteenth century the direct challenge it poses to the idea of an exclusionary judeo christian enlightenment serves as an important revision to post 9 11 narratives about a historical clash between western democratic values and islam burton k wheeler 1882 1975 may have been the most powerful politician montana ever produced and he was one of the most influential and controversial members of the united states senate during three of the most eventful decades in american history a new deal democrat and lifelong opponent of concentrated power whether economic military or executive he consistently acted with a righteous personal and political independence that has all but disappeared from the public sphere political hell raiser is the first book to tell the full story of wheeler a genuine maverick whose successes and failures were woven into the political fabric of twentieth century america wheeler came of political age amid antiwar and labor unrest in butte montana during world war i as a crusading united states attorney he battled montana s powerful economic interests championed farmers and miners and won election to the u s senate in 1922 there he made his name as one of the

montana scandalmongers uncovering corruption in the harding and coolidge administrations drawing on extensive research and new archival sources marc c johnson follows wheeler from his early backing of franklin d roosevelt and ardent support of the new deal to his forceful opposition to roosevelt s plan to expand the supreme court and in a move widely viewed as political suicide his emergence as the most prominent spokesman against u s involvement in world war ii right up to three days before pearl harbor johnson provides the most thorough telling of wheeler s entire career including all its accomplishments and contradictions as well as the political storms that the senator both encouraged and endured the book convincingly establishes the place and importance of this principled hell raiser in american political history although milton wrote several poems and sonnets in his earlier career he became known as a revolutionary and passionate political activist beginning his political career with the pamphlets that he wrote on the current politics of his time defending antimonarchical rule and republicanism giving particular attention to the religious and civil liberties of the people and the necessity of a free commonwealth however following the restoration of monarchy he had to stop writing political pamphlets because as a republican and defender of regicide milton was in danger and the new regime made it impossible for him to express his political thoughts safely he embarked on a literary project which included his major poetical works paradise lost and paradise regained and samson agonistes considering his earlier reputation as an ardent republican leading an active political life it can be stated that milton could not detach himself from the political controversies of his time hence he wrote paradise lost as a political poem in which he reflected and inserted his political views in an allegorical manner this book re reads milton s paradise lost in the light of his political views as reflected in his earlier political pamphlets it argues that using literature as a medium of expression milton intentionally wrote paradise lost as a political poem in which by re writing the biblical story of the creation the fall of satan and the fall of adam and eve he created a political subtext which reflected the social and political panorama of england of his time it is nearly impossible to separate contemporary iranian cinema from the islamic revolution that transformed film production in the country in the late 1970s as the aims of the revolution shifted and hardened once khomeini took power and as an eight year war with iraq dragged on iranian filmmakers confronted new restrictions in the 1990s however the reformist movement led by mohammad khatami and the film industry developed an unlikely partnership that moved audiences away from revolutionary ideas and toward a discourse of reform in reform cinema in iran blake atwood examines how new industrial and aesthetic practices created a distinct cultural and political style in iranian film between 1989 and 2007 atwood analyzes a range of popular art and documentary films he provides new readings of internationally recognized films such as abbas kiarostami s taste of cherry 1997 and mohsen makhmalbaf s time for love 1990 as well as those by rakhshan bani masud kiami and other key iranian directors at the same time he also considers how filmmakers and the film industry were affected by larger political and religious trends that took shape during mohammad khatami s presidency 1997 2005 atwood analyzes political speeches religious sermons and newspaper editorials and pays close attention to technological developments particularly the rise of video to determine their role in democratizing filmmaking and realizing the goals of political reform he concludes with a look at the legacy of reform cinema including films produced under mahmoud ahmadinejad whose neoconservative discourse rejected the policies of reform that preceded him the third edition of this highly regarded core textbook offers an accessible and impressively comprehensive account of western political thought over the last two millennia structured in four main parts the chapters are organised around a wide range of key themes covering everything from absolute government and revolutionary political thought to politics and

freedom and theories of civil disobedience this new edition concludes with an epilogue that considers the challenges posed to the history of western political thought by the perspectives of post colonialism and post modernism the use of boxes throughout the book to explain key thinkers in more detail as well as the author s ability to express complex ideas in clear and jargon free language makes this the perfect text for helping students to understand the key debates issues and continuities in the long history of political ideas for undergraduate and postgraduate students studying courses on the history of political thought and theory this is an indispensable guide new to this edition expanded material on the history of international relations thinking race consciousness diversity and gender politics a completely new epilogue which focuses on a discussion of post colonialism and post modernism in relation to political theory additional thinker boxes alongside revised and updated suggestions for further reading political theories of decolonization provides an introduction to some of the seminal texts of postcolonial political theory the difficulty of founding a new regime is an important theme in political theory and the intellectual history of decolonization provides a rich albeit overlooked opportunity to explore it many theorists have pointed out that the colonized subject was a divided subject this book argues that the postcolonial state was a divided state while postcolonial states were created through the struggle for independence they drew on both colonial institutions and reinvented pre colonial traditions political theories of decolonization illuminates how many of the central themes of political theory such as land religion freedom law and sovereignty are imaginatively explored by postcolonial thinkers in doing so it provides readers access to texts that add to our understanding of contemporary political life and global political dynamics this study examines latino national political coalitions in the united states with a focus on chicanos puerto ricans and cubans it argues that latino national political coalitions are an avenue of political empowerment for the latino community but face social economic and political challenges in the latino community militarism is the elephant in the room of global warming of all government sectors defence has the highest carbon footprint and expenditure yet has largely been exempt from international scrutiny and regulation marty branagan uses australian and international case studies to show that nonviolence is a viable alternative to militarism for national defence and regime change active resistance initiated in australian environmental blockades and now adopted globally makes the song we shall not be moved much more realistic as activists erect tripod villages bury chain and cement themselves into the ground and lock on to machinery and gates active resistance artistic activism and use of new information and communication technologies in movements such as the arab spring and occupy demonstrate that nonviolence is an effective evolving praxis an outstanding collection bringing together some of the leading historians of this period with some of the field s rising stars which examines key issues in popular politics the negotiation of power strategies of legitimation and the languages of politics while there is no easy way to define terrorism it may generally be viewed as a method of violence in which civilians are targeted with the objective of forcing a perceived enemy into submission by creating fear demoralization and political friction in the population under attack at one time a marginal field of study in the social sciences terrorism is now very much in center stage the 1970s terrorist attacks by the plo the provisional irish republican army the popular front for the liberation of palestine the japanese red army the unabomber aum shinrikyo timothy mcveigh the world trade center attacks the assault on a school in russia and suicide bombers have all made the term terrorism an all too common part of our vocabulary this edition of political terrorism was originally published in the 1980s well before some of the horrific events noted above this monumental collection of definitions conceptual frameworks paradigmatic formulations and bibliographic sources

is being reissued in paperback now as a resource for the expanding community of researchers on the subject of terrorism this is a carefully constructed guide to one of the most urgent issues of the world today when the first edition was originally published choice noted this extremely useful reference tool should be part of any serious social science collection chronicles of culture called it a tremendously comprehensive book about a subject that any who have anything to lose from property to liberty life to limbs should be forewarned against

The Revolution of the Saints

1982

the revolution of the saints is a study both historical and sociological of the radical political response of the puritans to disorder it interprets and analyzes calvinism as the first modern expression of an unremitting determination to transform on the basis of an ideology the existing political and moral order michael walzer examines in detail the circumstances and ideological options of the puritan intelligentsia and gentry he sees puritanism in sharp contrast to some generally accepted views as the political theory of intellectuals and gentlemen attempting to create a new government and society

The Leveller Revolution

2017-11-14

the gripping story of the levellers the radical movement at the heart of the english revolution the levellers formed out of the explosive tumult of the 1640s and the battlefields of the civil war are central figures in the history of democracy in this thrilling narrative john rees brings to life the men including john lilburne richard overton and thomas rainsborough and women who ensured victory and became an inspiration to republicans of many nations from the raucous streets of london and the clattering printers workshops that stoked the uprising to the rank and file of the new model army and the furious putney debates where the levellers argued with oliver cromwell for the future of english democracy this story reasserts the revolutionary nature of the 1642 51 wars and the role of ordinary people in this pivotal moment in history in particular rees places the levellers at the centre of the debates of 1647 when the nation was gripped by the question of what to do with the defeated charles i without the levellers and agitators fortitude and well organised opposition history may have avoided the regicide and missed its revolutionary moment the legacy of the levellers can be seen in the modern struggles for freedom and democracy across the world

The Levellers

2016-05-16

the leveller movement of the 1640s campaigned for religious toleration and a radical remaking of politics in post civil war england this book the first full length study of the levellers for fifty years offers a fresh analysis of the originality and character of leveller thought challenging received ideas about the levellers as social contract theorists and leveller thought as a mere radicalisation of parliamentary thought foxley shows that the levellers originality lay in their subtle and unexpected combination of different strands within parliamentarianism the book takes full account of recent scholarship and contributes to historical debates on the development of radical and republican politics in the civil war period the nature of tolerationist thought the significance of the leveller movement and the extent of the levellers influence in the ranks of the new model army

Che Guevara

2006-05

this book is a compilation of radical writings and speeches by che guevara aka ernesto che guevara this is one of the most complete collections of writings by che guevara and include important texts on guerrilla warfare politics and revolution this book should not be passed over by anybody studying the life or beliefs of che guevara history of radicalism and radical movements or the history of cuban politics these included texts are a must read for those interested in this important period of world history and of radical political thought and ideologies

Rehearsing the Revolution

2000

it charts the limits of representation within the royal theater where whig playwrights were challenging stuart mythography before moving out onto the streets where the contracts of representation were less circumscribed by royal interests it was on the streets of london that the whig party staged massive civic performances the pope burning pageants that allowed the circulation of the exclusion platform book jacket

Roots of Revolution

1987

concerned with what cuban radicals have thought about their nation's protracted struggle for independence sheldon b liss looks at each one's mode of analysis position on the class struggle ideas on reform or revolution and search for community each writer's beliefs about ethics morality religion social mobility political control aesthetics and quality of life are subjected to scrutiny by liss he also considers their views on cuban united states relations their perceptions of the state and power and their relationships to the means of production and workers movements

Messianic Revolution

1999-01

explores how fringe beliefs and those who follow them have been carried through the last one thousand years

radical political economy is built upon the formal analysis of neoclassical economics and the tradition of marxian radical analysis the essays presented in this book offer a representative sampling of the issues and methodologies involved in the study of radical political economy

Radical Political Economy

2015-03-04

modern political thinkers and ideas is an exciting new text that provides students with a clearly presented introduction to some of the key areas of modern political thought

uniquely combining historical and philosophical approaches to the subject it describes the writings and ideas of the most influential thinkers of the modern era modern political thinkers and ideas features the main concepts in modern political theory such as the state and sovereignty political obligation and civil disobedience liberty rights equality and justice democracy the ideas of key thinkers such as machiavelli hobbes locke paine rousseau burke mill bentham marx rawls hayek a clear and instructive framework for each chapter which provides students with a the significance of each concept in modern political thought b what major political thinkers had to say about each concept and c the relevance of key concepts to contemporary argument and debate

Modern Political Thinkers and Ideas

2012-09-10

first published in 1987 similar in content to sherman s previous book radical political economy it covers most of the same issues and reaches the same overall conclusion in favour of democracy and socialism many of the analyses and conclusions on particular subjects however have changed because of the flood of new literature in every area of radical political economy and because the world has changed the most important issue is the prevention of nuclear war

Foundations of Radical Political Economy

2020-02-13

alexis de toqueville once wrote that the people reign over the american political world like god over the universe unwittingly casting democracy as the political instantiation of the death of god according to jeffrey w robbins toqueville s assessment remains an apt observation of modern democratic power which does not rest with a sovereign authority but operates as a diffuse social force by linking radical democratic theory to a contemporary fascination with political theology robbins envisions the modern experience of democracy as a social cultural and political force transforming the nature of sovereign power and political authority robbins joins his work with michael hardt and antonio negri s radical conception of network power as well as sheldon wolin s notion of fugitive democracy to fashion a political theology that captures modern democracy s social and cultural torment this approach has profound implications not only for the nature of contemporary religious belief and practice but also for the reconceptualization of the proper relationship between religion and politics challenging the modern liberal and secular assumption of a neutral public space robbins conceives of a postsecular politics for contemporary society that inextricably links religion to the political while effectively recasting the tradition of radical theology as a political theology this book also develops a comprehensive critique of the political theology bequeathed by carl schmitt it marks an original and visionary achievement by the scholar the journal of the american academy of religion hailed one of the best commentators on religion and postmodernism

Radical Democracy and Political Theology

2011-04-06

this 16 hour free course explored the main events of the french revolution and its significance in the shift from enlightenment to romanticism

French Revolution

1972

this book provides an itinerary for studying political theology in chinese society including mainland china hong kong and taiwan it explores the changing role of religion in chinese history from the rise of buddhism alongside confucianism and daoism through the arrival of christianity and islam to the suppression of religion under communism since the reform and opening period beginning in 1978 china has experienced a resurgence of religiosity with powerful societal implications governing authorities have sought to regulate religious practice in line with their governing system political theology in chinese society is very much in flux and the chapters in this volume provide an array of windows through which to view the evolving reality they include historical approaches and descriptive analyses with an interdisciplinary and international range of perspectives by contributors based in and outside china the book will be of particular interest to scholars of theology religious studies and contemporary china studies

Radical Political Economy

2024-06-03

american culture maintained a complicated relationship with haiti from its revolutionary beginnings onward in this study peter p reed reveals how americans embodied and re enacted their connections to haiti through a wide array of performance forms in the wake of haiti s slave revolts in the 1790s generations of actors theatre professionals spectators and commentators looked to haiti as a source of both inspiring freedom and vexing disorder french colonial refugees university students black theatre stars blackface minstrels abolitionists and even writers such as herman melville all reinvented and restaged haiti in distinctive ways reed demonstrates how haiti s example of black freedom and national independence helped redefine american popular culture as actors and audiences repeatedly invoked and suppressed haiti s revolutionary narratives characters and themes ultimately haiti shaped generations of performances transforming america s understandings of race power freedom and violence in ways that still reverberate today

Political Theology in Chinese Society

2022-12-01

this is the first comprehensive volume to offer a state of the art investigation both of the nature of political ideologies and of their main manifestations the diversity of ideology studies is represented by a mixture of the range of theories that illuminate the field combined with an appreciation of the changing complexity of concrete ideologies and the emergence of new ones ideologies however are always with us the handbook is divided into three sections the first is divided into three sections the first reflects some of the latest thinking about the development of ideology on an historical dimension from the standpoints of conceptual history marx studies social science theory and history and leading schools of continental philosophy the second includes some of the most recent interpretations and theories of ideology all of which are sympathetic in their own ways to its exploration and close investigation even when judiciously critical of its social impact this section contains many of the more

salient contemporary accounts of ideology the third focuses on the leading ideological families and traditions as well as on some of their cultural and geographical manifestations incorporating both historical and contemporary perspectives each chapter is written by an expert in their field bringing the latest approaches and understandings to their task the handbook will position the study of ideologies in the mainstream of political theory and political analysis and will attest to its indispensability both to courses on political theory and to scholars who wish to take their understanding of ideologies in new directions

The Oxford Handbook of Comparative Political Theory

2011-12-31

a corrective addendum to Edward Said's Orientalism this book examines how sympathetic representations of Islam contributed significantly to Protestant Britain's national and imperial identity in the eighteenth century taking a historical view Humberto Garcia combines a rereading of eighteenth century and Romantic era British literature with original research on Anglo-Islamic relations he finds that far from being considered foreign by the era's thinkers Islamic republicanism played a defining role in radical enlightenment debates most significantly during the glorious revolution French revolution and other moments of acute constitutional crisis as well as in national and political debates about England and its overseas empire Garcia shows that writers such as Edmund Burke Lady Mary Wortley Montagu Samuel Taylor Coleridge Robert Southey and Percy and Mary Shelley not only were influenced by international events in the Muslim world but also saw in that world and its history a viable path to interrogate contest and redefine British concepts of liberty this deft exploration of the forgotten moment in early modern history when intercultural exchange between the Muslim world and Christian West was common resituates English literary and intellectual history in the wider context of the global eighteenth century the direct challenge it poses to the idea of an exclusionary Judeo-Christian enlightenment serves as an important revision to post 9/11 narratives about a historical clash between Western democratic values and Islam

Political Trials

1969

Burton K. Wheeler 1882-1975 may have been the most powerful politician Montana ever produced and he was one of the most influential and controversial members of the United States Senate during three of the most eventful decades in American history a New Deal Democrat and lifelong opponent of concentrated power whether economic military or executive he consistently acted with a righteous personal and political independence that has all but disappeared from the public sphere Political Hellraiser is the first book to tell the full story of Wheeler a genuine maverick whose successes and failures were woven into the political fabric of twentieth century America Wheeler came of political age amid antiwar and labor unrest in Butte Montana during World War I as a crusading United States attorney he battled Montana's powerful economic interests championed farmers and miners and won election to the U.S. Senate in 1922 there he made his name as one of the Montana scandal mongers uncovering corruption in the Harding and Coolidge administrations drawing on extensive research and new archival sources Marc C. Johnson follows Wheeler from his early backing of Franklin D. Roosevelt and ardent support of the New Deal to his forceful opposition to Roosevelt's plan to expand the Supreme Court and in a move widely viewed as political suicide his emergence as the most prominent spokesman against U.S. involvement in World War II right up to three days before Pearl Harbor Johnson provides the most thorough telling of Wheeler's entire career including all its accomplishments and contradictions as well as the political storms that the senator both encouraged and endured the book convincingly establishes the place and importance of this principled Hellraiser in American political history

Problems of Communism

2012-01-30

although milton wrote several poems and sonnets in his earlier career he became known as a revolutionary and passionate political activist beginning his political career with the pamphlets that he wrote on the current politics of his time defending antimonarchical rule and republicanism giving particular attention to the religious and civil liberties of the people and the necessity of a free commonwealth however following the restoration of monarchy he had to stop writing political pamphlets because as a republican and defender of regicide milton was in danger and the new regime made it impossible for him to express his political thoughts safely he embarked on a literary project which included his major poetical works paradise lost and paradise regained and samson agonistes considering his earlier reputation as an ardent republican leading an active political life it can be stated that milton could not detach himself from the political controversies of his time hence he wrote paradise lost as a political poem in which he reflected and inserted his political views in an allegorical manner this book re reads milton s paradise lost in the light of his political views as reflected in his earlier political pamphlets it argues that using literature as a medium of expression milton intentionally wrote paradise lost as a political poem in which by re writing the biblical story of the creation the fall of satan and the fall of adam and eve he created a political subtext which reflected the social and political panorama of england of his time

2019-03-21

it is nearly impossible to separate contemporary iranian cinema from the islamic revolution that transformed film production in the country in the late 1970s as the aims of the revolution shifted and hardened once khomeini took power and as an eight year war with iraq dragged on iranian filmmakers confronted new restrictions in the 1990s however the reformist movement led by mohammad khatami and the film industry developed an unlikely partnership that moved audiences away from revolutionary ideas and toward a discourse of reform in reform cinema in iran blake atwood examines how new industrial and aesthetic practices created a distinct cultural and political style in iranian film between 1989 and 2007 atwood analyzes a range of popular art and documentary films he provides new readings of internationally recognized films such as abbas kiarostami s taste of cherry 1997 and mohsen makhmalbaf s time for love 1990 as well as those by rakhshan bani masud kiami and other key iranian directors at the same time he also considers how filmmakers and the film industry were affected by larger political and religious trends that took shape during mohammad khatami s presidency 1997 2005 atwood analyzes political speeches religious sermons and newspaper editorials and pays close attention to technological developments particularly the rise of video to determine their role in democratizing filmmaking and realizing the goals of political reform he concludes with a look at the legacy of reform cinema including films produced under mahmoud ahmadinejad whose neoconservative discourse rejected the policies of reform that preceded him

Political Hell-Raiser

2018-04-18

the third edition of this highly regarded core textbook offers an accessible and impressively comprehensive account of western political thought over the last two millennia structured in four main parts the chapters are organised around a wide range of key themes covering everything from absolute government and revolutionary political thought to politics and freedom and theories of civil disobedience this new edition concludes with an epilogue that considers the challenges posed to the history of western political thought by the perspectives of post colonialism and post modernism the use of boxes throughout the book to explain key thinkers in more detail as well as the author s ability to express complex ideas in clear and jargon free language makes this the perfect text for helping students to understand the key debates issues and continuities in the long history of political ideas for undergraduate and postgraduate students studying courses on the history of political thought and theory this is an indispensable guide new to this edition expanded material on the history of international relations thinking race consciousness diversity and gender politics a completely new epilogue which focuses on a discussion of post colonialism and post modernism in relation to political theory additional thinker boxes alongside revised and updated suggestions for further reading

Milton's Political Ideas and Paradise Lost as a Political Allegory

2016-11-08

political theories of decolonization provides an introduction to some of the seminal texts of postcolonial political theory the difficulty of founding a new regime is an important theme in political theory and the intellectual history of decolonization provides a rich albeit overlooked opportunity to explore it many theorists have pointed out that the colonized subject was a divided subject this book argues that the postcolonial state was a divided state while postcolonial states were created through the struggle for independence they drew on both colonial institutions and reinvented pre colonial traditions political theories of decolonization illuminates how many of the central themes of political theory such as land religion freedom law and sovereignty are imaginatively explored by postcolonial thinkers in doing so it provides readers access to texts that add to our understanding of contemporary political life and global political dynamics
