global economic change this work is intended as an introduction for students studying the changing geography of the world but should also provide a useful overview to students researching specific regions seeking comparative analysis of regions or following general courses on the economic and political geography of both the post industrial and the developing worlds over 250 photographs maps and figures complement a range of boxed case studies key points questions and guides to further reading

## Strabo's Geography

2024-06-11

a lively new translation of strabo's complete geography an encyclopedic guide to the ancient world of the first century ce connecting it with the world of the twenty first century strabo's geography is an encyclopedic description of the ancient world as it appeared to a contemporary observer in the early roman empire information about taming elephants collecting saffron producing asphalt and practicing yoga is found alongside accounts of prostitution volcanic activity religious festivals and obscure eastern dynasties all set against the shifting backdrop of political power in the first century ce traveling around the mediterranean strabo gathered knowledge of places and people supplementing his firsthand experiences with an immense amount of reading to create a sweeping chronicle that attempts to answer the implicit questions who are we and where do we come from sarah pothecary's new translation of strabo's complete geography makes this important work more accessible relevant and enjoyable than ever before conveying the informal lively and almost journalistic style of strabo's greek this translation connects the ancient and modern worlds by providing modern names and maps for places mentioned in the text a generous page layout and marginal notes allowing readers to appreciate strabo's work directly and immediately the result mimics what strabo was doing two thousand years ago relating the rapidly changing present of his original readers to their own ancient past a remarkably modern translation of a revealing window on the ancient world this is essential reading for anyone interested in how we look at both antiquity and the world today

## The Geography of Slovenia

2019-07-01

this book is the first to give a comprehensive and detailed overview of the complete geography of slovenia in english only very few countries even considerably larger ones can boast the landscape diversity found in slovenia since the alps the pannonian basin the dinaric alps and the mediterranean meet and interweave in this small corner of central europe as do germanic hungarian slavic and romance cultural influences the book provides a systematical overview of physical and human geographical elements of slovenia from landforms to cultural characteristics special attention is given to landscape diversity to the presentation of slovene landscape types and regions to some particularities and interesting facts of slovenia and to the position of slovenia in the world the book also illustrates some other important geographical phenomena processes and interactions between nature and society in nowadays slovenia this volume appeals to researchers as well as students in the field of regional geography it can also serve as a source for complete background information as well as a

field guide for slovenia

## ***Geography in America at the Dawn of the 21st Century***

2005

geography in america at the dawn of the 21st century surveys american geographers current research in their specialty areas and tracks trends and innovations in the many subfields of geography as such it is both a state of the discipline assessment and a topical reference it includes an introduction by the editors and 47 chapters each on a specific specialty the authors of each chapter were chosen by their specialty group of the american association of geographers aag based on a process of review and revision the chapters in this volume have become truly representative of the recent scholarship of american geographers while it focuses on work since 1990 it additionally includes related prior work and work by non american geographers the initial geography in america was published in 1989 and has become a benchmark reference of american geographical research during the 1980s this latest volume is completely new and features a preface written by the eminent geographer gilbert white
