from essays about the salem witch trials to literary uses of ghosts by twain wharton and bierce to the cinematic blockbuster the sixth sense this book is the first to survey the importance of ghosts and hauntings in american culture across time from the puritans conviction that a thousand preternatural beings appear every day before our eyes to today's resurgence of spirits in fiction and film the culture of the united states has been obsessed with ghosts in each generation these phantoms in popular culture reflect human anxieties about religion science politics and social issues spectral america asserts that ghosts whether in oral tradition literature or such modern forms as cinema have always been constructions embedded in specific historical contexts and invoked for explicit purposes often political in nature the essays address the role of spectral evidence during the salem witch trials the puritan belief in good spirits the convergence of american spiritualism and technological development in the nineteenth century the use of the supernatural as a tool of political critique in twentieth century magic realism and the ghosting of persons living with aids they also discuss ghostly themes in the work of ambrose bierce edith wharton gloria naylor and stephen king in sorcery in salem local author john hardy wright examines the witchcraft delusion that afflicted salem village and salem town in the winter of 1691 92 twenty inhabitants lost their lives at that time nineteen were hanged on gallows hill and one elderly man giles cory by remaining mute as a personal protest to the proceedings of the court was pressed to death under heavy weights once the prosecuting examinations began on march 1 1692 local authorities were uncertain what course the following trials would take spectral evidence in which the shape of a suspected witch tortured people was a primary indication of guilt as was the touch test in which a victim was released from the witch's power upon the laying on of hands not being able to correctly recite the lord's prayer was also damning salem king james vi malleus maleficarum the world of witch hunts and witch trials sounds antiquated relics of an unenlightened and brutal age however witch hunt is heard often in the present day media and the misogyny it is rooted in is all too familiar today a woman was prosecuted under the 1735 witchcraft act as recently as 1944 this book uses thirteen significant trials to explore the history of witchcraft and witch hunts as well as investigating some of the most famous trials from the middle ages to the 18th century it takes us in new and surprising directions it shows us how witchcraft was decriminalised in the 18th century only to be reimagined by the 1780s romantic radicals we will learn how it evolved from being seen as a threat to christianity to perceived as gendered persecution and how trials against chieftains in africa stoked anger against colonial rule significantly the book tells the stories of the victims women such as helena scheuberin and joan wright whose stories have too often been overshadowed by those of the powerful men such as king james vi and i and witchfinder general matthew hopkins who hounded them while this will be a history of witchcraft the subject cannot be consigned to the history books hundreds of people mostly women are tried and killed as witches every year in africa witch hunt is as common in our language today as ever it was and witches are still on trial across the world this cultural exploration offers an unparalleled presentation of pennsylvania's ritual healing traditions known as powwowing or braucherei in pennsylvania dutch through original primary source materials including manuscripts ritual objects and books most of which have never before been available to english speaking readers although methods and procedures have varied considerably over three centuries of ritual practice within the pennsylvania dutch cultural region the outcomes and experiences surrounding this tradition have woven a rich tapestry of cultural narratives that highlight the integration of ritual into all aspects of life as well as provide insight into the challenges conflicts growth and development of a distinct pennsylvania dutch folk culture volume iv of the annual publication series of the pennsylvania german cultural heritage center at kutztown university of pennsylvania in a sweeping reinterpretation of the history of disfranchisement steve suitts illuminates how a century of political conflicts in alabama came to shape both some of america's best achievements in voting rights and its continuing struggles over voter suppression a war of sections tells the unknown political history symbolized today by the annual pilgrimage of presidents and celebrities across the edmund pettus bridge it is the story of how that crucial tragic day in selma in 1965 was only the flashpoint of a much longer history of failures and successes involving conflicts not only between blacks and whites in alabama but between white political factions warring in the state over voting rights suitts recasts the context and much of the content of disfranchisement in alabama as an unremitting decades long sectional battle in white only politics between the state's rural black belt and north alabama counties he uncovers important black and white heroes and villains who collectively shaped the arc of voting rights in alabama and ultimately across the nation a war of sections offers a new understanding of the political dynamics of resistance and change through which a southern state's long standing democratic failures ironically provided motivation for and instruction to a reluctant nation regarding unmatched ways to advance universal voting along the way the book introduces from this unheard past some prophetic voices that speak to the paramount issues of america's commitment to the universal
