The Warrior Within Us 2014 have you ever felt like life is hard like it can sometimes be a struggle to get up in the morning and do all of the things that you have to do do you ever wake up feeling constantly tired and stressed does life just seem too much sure i get it you have lots of work to do you have debt maybe maybe you re tired from shopping and maybe you ve got a stomach ache let s have a little perspective for a moment is your life really hard or is it your perception that s flawed whatever is happening to us only has power over us of what we allow it to give really hard compared to what let me back up if you put a box in a room is it big or small the answer is that it s neither it just is now bring in another box that s bigger is it big or small compared to the new box it s smaller you see we give value and perspective to most everything as it compares to something else is something good or bad as it relates to you that depends on what is it good yes is it bad yes it depends see what i mean now back to my original story compare what i ve described above with a true warrior think about someone who sleeps rough unsure of whether or not they re going die during the night then they wake up no time for a shower or a nice breakfast and they leap straight into action they ignore their wounds they take lives and they see their friends and their brothers in arms shot and killed in front of them but no i get it you re tired you had to work until 6 pm last night what i m getting at is that your life isn t really hard you might think it s hard and sometimes it might feel hard it s only hard according to the value we give hard and when we reframe it compared to something else such as the warrior really hard loses its power over us doesn t it there are people out there with much worse lives than you there are people out there who live with crippling illness and not two cents to rub together and many of them do this with dignity grace and bravery that puts the rest of us to shame you see the warrior within actually has nothing to do with combat it s more of a mental mindset in fact the hooligans that start bar fights and that think they re hard for starting fights are about as far from true warriors as it gets ask any of my veteran friends who has seen real combat if they would want to risk their health and waste their energy on looking for trouble the warrior within is much different this is about knowing what you want and going for it it s about being hard on the inside and outside and it s about not letting little things get you down because they re insignificant in the stoic way some things are just not in your control so they are a waste of time and energy worrying about it s about pushing ahead with what you know is right and it s about carrying responsibility and hardship on your shoulders with dignity and pride it s about having the right perception of situations so you make proper decisions it s about using obstacles as reasons to get better rather than reasons for limitations it s about not letting your emotions get the better of you and it s about not taking the easy answer or the easy route to solve your problems

Igorotdo 1983 one of our most foundational principles in a man s life is to know and understand who you are and what your purpose is although many often find themselves floundering o mighty warrior is a powerful call to action journey to discover your identity according to god s word it is a call to stand in your spiritual authority as men and grow close to a god who calls you mighty warrior designed to ignite the inner warrior within the depths of your soul o mighty warrior will help you discover that you were chosen even before the foundations of the world it is time for men to rise up take your position not only as the mighty warrior you are but as spiritual leader of your home and the people around you let go of pride and follow the god of the universe who calls you o mighty warrior
