among self-hating western academics the revisionist rehabilitation of the arch-villain we like to refer to as genghis monster 1162-1227 has in recent years taken on truly grotesque dimensions although the conquering khan-klan's expansionary method of mass murder and mass terror cannot and is not denied just downplayed by these collegiate crackpots modern students and gullible intellectuals are today instructed to ignore the oceans of spilled blood and shed tears and focus mainly on the progress and liberalism which the monstrous mongols brought to their subjugated lands the purpose of this illustrated booklet is not to provide a comprehensive historical account of the monster and his exploits but rather a general overview introduction to the subject by refuting the pseudo-intellectual sewage now being pumped out by today's genghis-loving western-hating academics this booklet will restore in a basic sense the proper historical view of this tyrannical beast though khan has been dead for nearly 800 years the murderous mayhem which the mongols unleashed upon helpless humanity in many cases our white european and central-asian aryan ancestors was so atrocious that it for both the sake of sound scholarship as well as historical decency must never be forgotten let alone misrepresented

Star Trek: To Reign in Hell: The Exile of Khan Noonien Singh 2010-02-16

a fascinating romp through the feminine side of the infamous khan-klan booklist by the author featured in echoes of the empire beyond genghis khan enticing hard-to-put-down associated press the mongol queens of the thirteenth century ruled the largest empire the world has ever known the daughters of the silk route turned their father's conquests into the first truly international empire fostering trade education and religion throughout their territories and creating an economic system that stretched from the pacific to the mediterranean yet sometime near the end of the century censors cut a section about the queens from the secret history of the mongols and with that one act the dynasty of these royals had seemingly been extinguished forever as even their names were erased from the historical record with the secret history of the mongol queens a groundbreaking and magnificently researched narrative jack weatherford restores the queens' missing chapter to the annals of history
