Democracy's News 2020-12-29

since the founding america's faith in a democratic republic has depended on citizens who could be trusted to be communicators vigorous talk about equality rights and collaboration fueled the revolution the declaration of independence and the constitution with its amendments in a republic the people set the terms for their lives not individually but in community the genius of keeping it alive exists in how everyday citizens talk and listen write and read for a common good dialogue and deliberation rather than an accumulation of individual preferences sustains a republic yet a diminished and scarred institution of journalism jeopardizes citizens access to shared and truthful information a disturbing what's in it for me attitude has taken over many citizens and a creeping autocratic sense of dismissive accusation too often characterizes the political style of elected officials the basic fuel for democracy is the willingness of informed citizens to take each other seriously as they talk about political choices once we begin to clam up build walls and dismiss each other we unravel the threads tying us to the founders vision of a republic a free press and free speech become

meaningless if not supported by sustained listening to multiple positions there are those who profit by dividing citizens into two camps a comfortable us versus a scary them they make their case with accusations and often with lies they warp the very meaning of communication hoping citizens never truly discover each other's humanity democracy's news discusses today's problems of public communication in the context of history law and interpersonal life news should not be something to dread mistrust or shun aided by reliable factual journalism citizens can develop a community based knowledge to cope with social issues great and small they come to treat neighbors and strangers as more than stereotypes or opponents they become collaborators with whom to identify and sustain a working republic where news citizenship and public discourse merge

Sick-Note Britain 2020-11-16

dr adrian massey has worked at the intersection of medicine and society for decades he argues compellingly that our hyper medicalized society has falsely equated sickness with illness and sickness with unfitness to work whereas sickness is primarily a social problem requiring social not medical solutions sick note britain lays bare britain s gross error when doctors cannot fix anxiety or chronic pain workplace attendance is still treated as a matter for arbitration by our strained primary care service what is needed is a tailored employer employee contractual solution but obstacles block this approach excessively complex employment law constraining both sides an outdated benefits system that overburdens doctors and traumatizes the vulnerable and a workplace culture that is too inflexible to keep sick employees in work this is a blistering condemnation of a sham system that works for nobody and an urgent call to rethink how we manage sickness for the sake of our economy our wellbeing and our health service

China's environmental policy in terms of European Union standards 2020-12-10

it is beyond dispute that both china and the european union stand to gain from promoting low carbon development through the dissemination of clean and renewable energy sources as this

inevitably leads to increased environmental protection the depletion of fossil fuel resources and the accompanying changes in the global energy mix make europe and china not only competitors in the global economic race but also nolens volens partners their pragmatic partnership is characterized on the one hand by the need to take action to reduce the consumption of fossil fuels and on the other by the desire to minimize the negative environmental impact of their use hence the existing and emerging cooperation between the two actors while challenging for a number of reasons is not only an attempt to set up channels to exchange vital information but also an exercise in setting the standards under which further cooperation will be forged
