## ***Red Devils over the Yalu 2014-03-19***

the korean war 1950 1953 was the first and only full scale air war in the jet age it was in the skies of north korea where soviet and american pilots came together in fierce aerial clashes the best pilots of the opposing systems the most powerful air forces and the most up to date aircraft in the world in this period of history came together in pitched air battles the analysis of the air war showed that the powerful united states air force and its allies were unable to achieve complete superiority in the air and were unable to fulfill all the tasks they d been given soviet pilots and soviet jet fighters which were in no way inferior to their opponents and in certain respects were even superior to them was the reason for this the combat experience and new tactical aerial combat tactics which were tested for the first time in the skies of korea have been eagerly studied and applied by modern air forces around the world today this book fully discusses the soviet participation in the korean war and presents a view of this war from the opposite side which is still not well known in the west from the multitude of publications by western historians the reason for this of course is the fact that soviet records pertaining to the korean war were for a long time highly classified since soviet air units were fighting in the skies of north korea incognito so to speak or even more so to write about this was strictly forbidden in the soviet union right up to its ultimate collapse the given work is in essence the first major work in the post soviet era first published in a small edition in russian in 1998 it was republished in russia in 2007 for the first time the western reader can become acquainted with the most detailed and informative work existing on the course of the air war from the soviet side now in english language the work rests primarily on the recollections of veterans of this war on the so called red side soviet fighter pilots who took direct part in this war on the side of north korea their stories have been supplemented with an enormous amount of archival documents as well as the work of western historians the author presents a literal day by day chronicle of the aerial combats and combat work of soviet fighter regiments in the period between 1950 and 1953 and dedicates this work to all the men on both sides who fought and died in the korean air war

## ***The Athlete's Cookbook 2014-02-04***
