volume one of clive barker s seminal books of blood contains the stories the book of blood the midnight meat train the yattering and jack pig blood blues sex death and starshine in the hills the cities with the 1984 publication of books of blood clive barker became an overnight literary sensation he was hailed by stephen king as the future of horror and won both the british and world fantasy awards now with his numerous bestsellers graphic novels and hit movies like the hellraiser clive barker has become an industry unto himself but it all started here with this tour de force collection that rivals the dark masterpieces of edgar

allan poe read him and rediscover the true meaning of fear

the gospel of blood is the autobiography of nico claux a french morg whose morbid obsessions led him to grave robbery cannibalism and murder in the early 1990s it is a bone chilling chronicle of a real life vampire who prowled the gothic cemeteries of paris unearthing coffins and mutilating the bodies inside a practicing satanist claux escalated to murder after working for a year in

several morgues receiving orders to kill from the corpses he had autopsied the gospel of blood provides a rare insight into a killer s tortured mind as he relates the graphic details of his crimes including never before revealed confessions it is a fascinating look inside the thoughts of a psychotic murderer who has found redemption in prison through art

vampire larten crepsley continues the question is how far can larten go alone in born of blood jesse banks unknowingly steps into the middle of a battle between good and evil that has raged on for generations as the danger escalates she begins to put the pieces of her clouded past together jesse discovers the truth about her ancestors and the horror that relentlessly pursued them a horror that now pursues her to survive she must join the fight but the immortal monster that stalks her has other more sinister plans and will stop at nothing to see those plans accomplished can jesse escape a fate worse than death and defeat an age old evil as a young man jan verplaetse saw a hare suspended from a meat hook skinned and gutted what struck him so forcefully at the time was not the animal itself but the blood gently dripping from its mouth his reaction prompted the start of a quest he undertakes in this book to investigate our fascination with blood the most vital of fluids blood rush shows how throughout history blood has had the capacity to intoxicate us to the point that we lose ourselves whether in violence through hunting fighting or killing or in the vicarious thrill of watching sporting events horror films or video games are these feelings physical or in our imagination where does the magic of blood come from in his deeply researched and provocative narrative

verplaetse moves from antiquity to the present from magic to experimental psychology from philosophy to religion and scientific discoveries to demonstrate why blood at once attracts and repels us
