## **The Test of War**

1988

the book examines the public's influence on foreign policy through case studies including the formosa straits crisis intervention at dien bien phu the sputnik launch the new look defense strategy the panama canal treaties the soviet invasion of afghanistan the strategic defense initiative the beirut marine barracks bombing german reunification the gulf war and intervention in somalia and bosnia

## **History of the Office of the Secretary of Defense: The test of War, 1950-1953**

1984

nsc 68 and the political economy of the early cold war re-examines the origins and implementation of nsc 68 the massive rearmament program that the united states embarked upon beginning in the summer of 1950 curt cardwell reinterprets the origins of nsc 68 to demonstrate that the aim of the program was less about containing communism than ensuring the survival of the nascent postwar global economy upon which rested postwar us prosperity the book challenges most studies on nsc 68 as a document of geostrategy and argues instead that it is more correctly understood as a document rooted in concerns for the us domestic political economy

## **Foreign Relations of the United States**

1986

combines essays on the personality dimension in the 19th and 20th century international history placing in a proper historical perspective the impact of individual diplomats politicians and military strategists on foreign policy making

## **National Archives Records Relating to the Korean War**

2003

during the 1980s millions of ordinary individuals around the world mobilized in support of nuclear disarmament although u s president ronald reagan and soviet general secretary mikhaïl gorbachev were not part of these grassroots movements they too wanted to eliminate nuclear weapons nuclear abolitionism was a diverse and global phenomenon in dreams for a decade stephanie l freeman draws on newly declassified material from multiple continents to examine nuclear abolitionists influence on the trajectory of the cold war's last decade freeman reveals that nuclear abolitionism played a significant yet unappreciated role in ending the cold war grassroots and government nuclear abolitionists shifted u s and soviet nuclear arms control

paradigms from arms limitation to arms reduction this paved the way for the reversal of the u s soviet nuclear arms race which began with the landmark 1987 intermediate range nuclear forces treaty european peace activists also influenced gorbachev s common european home initiative and support for freedom of choice in europe which prevented the soviet leader from intervening to stop the 1989 east european revolutions these revolutions ripped the fabric of the iron curtain which had divided europe for more than four decades despite their inability to eliminate nuclear weapons grassroots and government nuclear abolitionists deserve credit for playing a pivotal role in the cold war s endgame they also provide a model for enacting dramatic positive change in a peaceful manner

## History of the Office of the Secretary of Defense

1984

postwar american officials desired in principle to promote arab israeli peace in order to stabilize the middle east this book shows how during the truman and eisenhower administrations the desire for peace was not always an american priority instead they consistently gave more weight to their determination to contain the soviet union

## *Counting the Public In*

1999-07-06

in the clash of ideologies represented by the cold war even the heavens were not immune to militarization satellites and space programs became critical elements among the national security objectives of both the united states and the soviet union according to us presidents and the militarization of space 1946 1967 three american presidents in succession shared a fundamental objective of preserving space as a weapons free frontier for the benefit of all humanity between 1953 and 1967 presidents eisenhower kennedy and johnson all saw nonaggressive military satellite development as well as the civilian space program as means to favorably shape the international community s opinion of the scientific technological and military capabilities of the united states sean n kalic s reinterpretation of the development of us space policy based on documents declassified in the past decade demonstrates that a single vision for the appropriate uses of space characterized american strategies across parties and administrations during this period significantly kalic s findings contradict the popular opinion that the united states sought to weaponize space and calls into question the traditional interpretation of the space race as a simple action reaction paradigm indeed beyond serving as a symbol and ambassador of us technological capability its satellite program provided the united states with advanced nonaggressive military intelligence gathering platforms that proved critical in assessing the strategic nuclear balance between the united states and the soviet union it also aided the three administrations in countering the soviet union s increasing international prestige after its series of space firsts beginning with the launch of sputnik in 1957
