100% of this book's proceeds will be donated to two military charities: the Special Operation Warrior Foundation and the Sua Sponte Foundation. The Special Forces Sniper Course, formerly the Special Operations Target Interdiction Course (SOTIC), is the premier sniper training course in the world. Top members of all branches of special operations are able to attend this prestigious course on a limited selection basis. This book is the official manual for the course; it is not the best resource for how to be a sniper or how to shoot long range. Instead, it is a reference manual. If you're looking for long range shooting instruction, check out the Long Range Shooting Handbook. This is a large desk-top bookshelf (8.5x11) sized copy. Unlike other versions of this book for sale, check their feedback. This book is properly formatted with text large enough to actually read.

This book is essentially a detailed sniper training manual for use by military, competition shooters, long range hunters, and other enthusiasts. It describes in detail methods of range and wind estimation and includes practical exercises to ensure that the reader understands the methods outlined. It also has a quick reference guide for the most commonly used equations in this skill set. The book was primarily written for those new to long range shooting, however, I hope that even experienced shooters will benefit from the book.

the feeling you get when you can hit a tiny target almost out of sight is really amazing for many of us taking your skills to that level takes some time and training but it s gratifying when you achieve that next step in your shooting skill set one reason many shooters are moving up to longer ranges is the challenge it s pretty easy to hunt or plink at the range and get good hits on target sub 200 yards but as soon as you start to go longer then some skill is involved as is the need to do some basic math and use more tools these complications mean that it s harder and more time consuming to shoot this way and that makes it appealing to those who want to go to the next level here we explain the basics of how to get started in long range shooting
