Relics of the Franklin Expedition 1896 king john long ago acquired the epithet bad and he is reputed to be the worst of england s kings before his death in 1216 his desperate exploitation of his subjects for ever more money had turned him into the mythical monster of hollywood legend in marked contrast to his brother richard john appeared incompetent in battle failing to defend normandy 1202 04 and was unsuccessful in recovering his lost lands in 1214 a continuing crisis was a constant need for money forcing john to drain england of funds for campaigns in france demanding unlawful and oppressive new taxes adding to his evil reputation was an ill tempered personality and a streak of pettiness or spitefulness that led him to monstrous acts including murdering his own nephew king john s unpopularity culminated in a final crisis a revolt by the english baronage 1215 16 aimed at subjecting him to the rule of law that resulted in his grant of magna carta

Mr. Frye, from the Committee on Foreign Relations, Submitted the Following Report: [To Accompany S. 3068.] 1868 the riveting story of the exploration of the final frontier of our planet the deep ocean and history making mission to reach the bottom of all five seas humankind has explored every continent on earth climbed its tallest mountains and gone into space but the largest areas of our planet remain largely a mystery the deep oceans at over 36 000 feet deep there areas closest to earth s core have remained nearly impossible to reach until now technological innovations engineering breakthroughs and the derring do of a team of explorers led by explorer victor vescovo brought together an audacious global quest to dive to the deepest points of all five oceans for the first time in history the expedition pushed technology to the limits mapped hidden landscapes discover previously unknown life forms and began to piece together how life in the deep oceans effects our planet but it was far from easy expedition deep ocean is the inside story of this exploration of one of the most unforgiving and mysterious places on our planet including the site of the titanic wreck and the little understood hadal zone

vescovo and his team would design the most advanced deep diving submersible ever built where the pressure on the sub is 8 tons per square inch the equivalent of having 292 fueled and fully loaded 747s stacked on top of it and then there were hurricane laden ocean waters and the byzantine web of global oceanography politics expedition deep ocean reveals the marvelous and other worldly life found in all five deep ocean trenches including several new species that have posed as of yet unanswered questions about survival and migration from ocean to ocean then there are the newly discovered sea mounts that cause tsunamis when they are broken by shifting subduction plates and jammed back into the earth crust something that can now be studied to predict future disasters filled with high drama adventure and the thrill of discovery expedition deep ocean celebrates courage and ingenuity and reveals the majesty and meaning of the deep ocean
