foreword by lewis t preston president the world bank 1991 1995 sets out world bank policy on disclosure of information the policy applies to the international bank for reconstruction and development ibrd and the international development association ida this useful booklet presents the world bank s policy on disclosure of information and describes the materials available to the public the bank s experience in implementing effective and sustainable development programs clearly indicates that the quality of many operations benefits when staff and government officials consult and share information with program participants this experience inspired the bank to launch a major review of its disclosure policy in 1993 the review resulted in a recommendation to make bank information more publicly available the revised policy expands the range of documents subject to release and facilitates public access to them a significant outcome was the bank s establishment of a public information center through which much of the material covered by the revised policy is available also available french isbn 0 8213 3129 9 stock no 13129 spanish isbn 0 8213 3130 2 stock no 13130

Punjab GK General Knowledge Objective Question Bank Based on Previous Papers 1908

private enterprises in advanced economies have been learning to use information and communication technology ict to innovate and transform their processes products services and business models significantly improving productivity and competitiveness moreover the ict industry itself has become a major source of job creation and a contributor to economic growth and business transformation a key question today is whether and how developing countries can learn to benefit from the ict revolution and what roles the government and private sector can play already a number of developing countries have been inspired by the example of india and china and are now seeking to jump on the outsourcing bandwagon nevertheless with few exceptions in the developing world little attention has been paid by policymakers and practitioners to invest systematically and proactively in ict enabled growth poverty reduction and grassroots innovation most communities and small and medium sized enterprises in developing countries for example face multiple constraints to adopting and leveraging this general purpose technology and lack the capabilities for maximizing its potential in enabling enterprise transformation nagy hanna draws on his rich experience of over 35 years at the world bank and other aid agencies as a development strategist and ict policy expert the most current research and best practices from around the world to provide practical tools for promoting economic and social transformation through ict he assesses various initiatives to develop and diffuse ict such as innovation funds incubators parks public private partnerships and comprehensive promotion programs he argues for the strategic options now open for developing countries to participate in ict production to deploy ict to transform industries and services and to leverage ict as a new national infrastructure for improving the business environment and enhancing the competitiveness of the whole economy the challenge for leaders in developing countries is to create such social and institutional dynamics for learning about ict use and adaptation at many levels lessons gained so far from programs to build these social learning and innovation capabilities at the institutional and grassroots levels should be shared among developing countries and a dialogue among business leaders policymakers development agencies educational institutions and the general citizenry must be advanced
