Extension Service Circular 1943 measures for community and neighborhood research by mary l ohmer claudia coulton darcy a freedman joanne l sobeck and jaime booth is the first book of its kind to compile measures focused on communities and neighborhoods in one accessible resource organized into two main sections the first provides the rationale structure and purpose and analysis of methodological issues along with a conceptual and theoretical framework the second section contains 10 chapters that synthesize analyze and describe measures for community and neighborhood research with tables that summarize highlighted measures the book will get readers thinking about which aspects of the neighborhood may be most important to measure in different research designs and also help researchers practitioners funders and others more closely examine the impact of their work in communities and neighborhoods

National Household Survey on Drug Abuse 2000 carefully selected to reflect the latest research at the interface between public health and criminal justice in the us these contributions each focus on an aspect of the relationship how for example might a person s criminal activity adversely affect their health or their risk of exposure to hiv infection the issues addressed in this volume are at the heart of policy in both public health and criminal justice the authors track a four fold connection between the two fields exploring the mental and physical health of incarcerated populations the health consequences of crime substance abuse violence and risky sexual behaviors the extent to which high crime rates are linked to poor health outcomes in the same neighborhood and the results of public health interventions among traditional criminal justice populations as well as exploring these urgent issues this anthology features a wealth of remarkable interdisciplinary contributions that see public health researchers focusing on crime while criminologists attend to public health issues the papers provide empirical data tracking for example the repercussions on public health of a fear of crime among residents of high crime neighborhoods and the correlations between hiv status and outcomes and an individual s history of criminal activity providing social scientists and policy makers with vital pointers on how the criminal justice and public health sectors might work together on the problems common to both this collection breaks new ground by combining the varying perspectives of a number of key disciplines

Health Care Visits with Nurses by Place of Visit 1986 this paper assesses the sustainability of the public pension system discusses recent and proposed changes to veterans benefits and reviews the effectiveness of social assistance in kosovo the social transfer programs created in the wake of kosovo s independence are narrower in scope than similar programs in other european emerging economies poverty the main policy challenge of the country can be addressed through employment friendly economic growth and pro poor social spending kosovo s highly inequitable current system of social cash transfer represents a departure from the fiscally sustainable and conceptually homogenous structure of the early 2000s

Measures for Community and Neighborhood Research 2018-07-19 includes a statistical series section which provides economic information on the nation s savings and homefinancing industry

Visits to Selected Health Care Practitioners 1986 have you ever thought about your past and wanted to write about it do you have a desire to educate your family so they will know and remember have you ever gone back to where you were raised and the old neighborhood no longer existed do the memories of your loved ones live in your thoughts and in your heart everyday do you ever wonder about what you did not do in life this is the story of a man who answered yes to all these questions george lopez grew up during the depression and world war ii he writes about growing up in roberts city a small eclectic community in tampa florida he tells about his experience in the hotel business during the late 1940 s and 1950 s in miami beach his career as an asbestos worker and times as a business

agent george talks about raising his daughter alone because his wife was hospitalized with mental illness at this time he continues to reminisce and enjoy the simple pleasures of life

Crime, HIV and Health: Intersections of Criminal Justice and Public Health Concerns 2012-09-12 irwin t sanders has translated his own experience as a social scientist into a practical easy to read guide to community improvement an impressive array of additional experts has teamed up with him to supply selected guideposts on twenty one special problems in community organization this popular handbook has been called by many civic workers the most practical down to earth tool they have known for community engineering issued in two editions with a total of seven printings it is now republished in a convenient paper bound form containing the complete text of the 1953 revision

The War on Poverty as it Affects Older Americans 1965 noise pollution is one of the factors that affect the quality of life of the general population especially in urban areas where the noise levels are often high due to the presence of numerous sources such as transport infrastructures activities production and commercial areas entertainment venues and other sound sources which although temporary such as construction sites and outdoor music events affect general noise levels even if noise is one of the oldest pollutants referred to in history for years the problem of noise pollution has been often considered less important than others related to the environment such as air pollution water pollution and waste management the regulations in force to contain the noise have become increasingly stringent as each individual is constantly exposed to noise and often the noise is treated just as a scourge of modern society making noise is becoming easier and cheaper each day but just the opposite for controlling it deeper studies are needed to understand the core of current noise problems new materials and techniques are needed to control them this book is a combination of theory and practice based on the latest research the studies in this book range from evaluation methods for the perception of noise and outline forecast criteria that can be integrated with applications for acoustic mapping as well as the use of innovative techniques and materials for its abatement the main purpose of this book organized in 8 chapters is to provide an overview of the recent studies in this field and the applications in different research studies the authors contributing to the success of this book provide a series of practical applications of their recent studies aimed at the reduction of noise in different environments the editors would like to thank all the authors who through their studies and research have accepted our invitation to share recent discoveries in this field with the scientific community

Kosovo 2016-05-17 one of the oldest and most extensive forms of criminology falls within what is referred to among other names as social ecology beginning with the work of guerry and quetelet this theory became the dominate paradigm in explaining crime with the work of the chicago school in the early 1900s social disorganization theory and neighborhood research attempting to deal with crime in deteriorating cities social ecology is also the basis for the research being conducted in environmental criminology this volume offers a selection of the most influential works in social ecology and environmental criminology it begins with research from human ecology and the chicago school extending through some of the research in social disorganization theory it encompasses some of the major journal articles from the 1980s and 1990s in neighborhoods and crime and then addresses some of the quintessential works in environmental criminology it ends with groundbreaking work in this area that may indicate the future direction of the field this valuable collection includes an excellent introduction by jeff walker

Residential Livability 1971 hard not to be florid about this book devoured in snippets or read straight through it presents amazing experiences and skills because marc charles nicolas has a brilliantly delicate appreciation for the idea of a sentence in a poem the juxtapositions of segments in these pages appear essentially to construct entire topics for mediation examined along and the dawns increase and multiply inspirations love feelings locations events hitherto isolated are now all hooks and eyes into each other and because marc charles gets his inspiration from the muse you feel the exquisiteness and beauty buried in shattered phrases about the universality of poetry as a poet he belongs to a life larger than his own the life of genuine things and one more performance worth a word the poems in his book perfumed paradise are filled with aboutness put together as they are they re seen to abound with roots their laughter or melancholy or ire has discernible reasons the humanness of poem writing as a hobby the splendid unavailability of it that is what this compilation brings together but floridity was to be kept away one cloudless day pace the anti sentimentalists life is short i sat in the sun and by a brook with a friend and passed pages of this manuscript from side to side reading fragments aloud laughing quietly or looking grave occasionally thrilled and bemused a while back this was yet i remember no happier afternoon the poems were written originally in french 13 years ago in the year 1993 delicious remembrance fantastic book virgo a bernice

Investigation of the Assassination of Martin Luther King, Jr 1979 this practical volume provides a wealth of information and advice on planning and conducting customer surveys topics include the types of information that should and should not be sought from surveys categories of respondents options for administering surveys and the advantages and disadvantages of each conducting surveys in house versus contracting steps in the survey process sampling strategy sources of survey error and suggested remedies and tradeoffs among timeliness accuracy and cost it s a must for all agency managers public or private seeking to make their customer surveys more useful to their agencies and to make their agencies more responsive to customers

Job Accessibility: a Study of Factors Inhibiting Employment 1969 this book presents a thorough development of the modern theory of stochastic approximation or recursive stochastic algorithms for both constrained and unconstrained problems this second edition is a thorough revision although the main features and structure remain unchanged it contains many additional applications and results as well as more detailed discussion
