Organizational Needs Assessments

1995-11-06

an indispensable reference for designing and conducting organizational needs assessments this book advocates a system oriented approach to help meet the complex challenges confronting organizations today using examples drawn from real life situations it offers practical suggestions and guidelines for planning and managing the overall needs assessment process from the selection of data gathering methods and use of statistical analyses to the eventual design and implementation of training management development and quality improvement programs the work concludes with an extensive case study of an actual project to illustrate the complexities associated with designing and conducting organizational needs assessments along with a reference exhibit of an actual needs assessment project summary and recommendations

Needs Assessment for Learning and Performance

2020-08-02

needs assessment for learning and performance offers comprehensive coverage of the knowledge and skills needed to develop and conduct needs assessments and to analyze interpret and communicate results to clients and organizations though critical to planning any performance improvement system needs assessments can feel abstract and vague to students who have not yet managed the process in a professional setting this first of its kind textbook uses a variety of real world examples to connect major theories and models to effective principles for practice each

chapter offers guiding questions key terms and concepts recommended readings and case studies illustrating how needs assessment training can be applied graduate students and researchers of instructional design human resources performance improvement program evaluation and other programs will find this volume relevant to a range of academic and organizational contexts

Conducting Educational Needs Assessments

2012-12-06

what goals should be addressed by educational programs what priorities should be assigned to the different goals what funds should be allocated to each goal how can quality services be maintained with declining school enrollments and shrinking revenues what programs could be cut if necessary the ebb and flow of the student population the changing needs of our society and the fluctuation of resources constantly impinge on the education system educators must deal with students communities and social institutions that are dynamic resulting in changing needs it is in the context of attempting to be responsive to these changes and to the many wishes and needs that schools are asked to address that needs assessment can be useful needs assessment is a process that helps one to identify and examine both values and information it provides direction for making decisions about programs and resources it can include such relatively objective procedures as the statistical description and analysis of standardized test data and such subjective procedures as public testimony and values clarification activities needs assessment can be a part of community relations facilities planning and consolidation program development and evaluation and resource allocation needs assessment thus addresses a xiii xiv

preface broad array of purposes and requires that many different kinds of procedures be available for gathering and analyzing information this book was written with this wide variation of practices in mind

Needs Assessment Basics

2005

annotation wouldn t it be great if you heard comments like this is the best darn workshop i have ever attended at the end of every training session you present that s the goal of the newly revised and updated training trilogy third edition to provide the classroom trainer with practical and real world ideas for designing and delivering training that meets the real needs of participants and keeps them excited engaged and learning the book begins where your job as a trainer does with needs assessment part one examines basic statistics and other vital information on how to design surveys and conduct interviews you ll also learn ways to present your needs assessment information to management and associates the next step is designing the program part two looks at how to create fun learning experiences that keep learners involved interested challenged and motivated throughout the training session the book ends with the steps to becoming effective in the classroom you ll learn about all the things required to prepare for your training program and how to involve the participants from beginning to end of your presentation

The Training Trilogy

2007
