have you always wanted to learn how to speak italian but simply didn't have the time well look no further you hold in your hands the most advanced and revolutionary method that was ever designed for quickly becoming conversational in a language in creating this time saving program master linguist yahir nitzany spent nearly three years examining the 27 most common languages in the world and distilling from them the 350 words that are most likely to be used in real conversations these 350 words were chosen in such a way that they are structurally interrelated and when combined they form sentences through various other discoveries about how real conversations work that are detailed further in this book nitzany created the necessary tools for linking these words together in a specific way so that you may to become fluent now if your desire is to learn complicated grammatical rules or to speak shakespearean italian this book is not for you however if you need to actually hold a conversation whilst on a trip to italy to impress that certain someone or to be able to speak with your grandfather or grandmother as soon as possible then the nitzany method is what you have been looking for this method is designed for fluency in a foreign language while communicating mainly in the present tense nitzany believes that what's most important is actually being able to understand and be understood by another human being right away more formalized training in grammar rules etc can all come later this book is recommended for those with prior knowledge in italian grammar and pronunciation but for those who aren't there are grammar footnotes at the bottom of every page as well as a section dedicated to the reading and pronunciation in italian page 14 but again this is not a grammar book this book's sole purpose is to provide you with the tools to become conversational in regards to everything else you are on your own the first in a series of instructional language guides the nitzany method's revolutionary approach is the only one in the world that uses its unique language technology to actually enable you to speak and understand native speakers in the shortest amount of time possible no more depending on volumes of books of fundamental beginner intermediate and advanced levels all with hundreds of pages in order to learn a language with conversational italian quick and easy all you need are 45 pages learn italian today not tomorrow and get started now note and disclaimer from the author i wish to stress this program is by no means shape nor form a phrase book the sole purpose of this book is to give you a fundamental platform to enable you to connect certain words to become conversational please also read the introduction and the about me section prior to commencing the program in order to succeed with my method please start on the very first page of the program page 16 and fully master one page at a time prior to proceeding to the next otherwise you will overwhelm yourself and fail please do not skip pages nor start from the middle of the book it is a myth that certain people are born with the gifted talent to learn a language and this book disproves that myth with this method anyone can learn a foreign language as long as you follow

these explicit directions memorize the vocabulary on each page follow it by using a notecard to cover the words you have just memorized and test yourself then read the sentences below which are created from the vocabulary bank which you just mastered once fully memorized then give yourself the green light to proceed to the next page again if you proceed to the following page without mastering the previous you are guaranteed to gain nothing from this book if you follow the prescribed steps you will realize just how effective and simplistic this method is
