winner of the marine corps heritage foundation s 2019 colonel joseph alexander award for a distinguished book of biographical literature about a marine recognizing exemplary work that furthers the understanding of marine corps history traditions culture and service judged by marines and civilian experts the annual awards are a mark of distinction and achievement for journalists writers photographers artists and scholars in the early months of 1968 u s forces were tenaciously fighting often in mortal hand to hand combat in the dead of night to hold on to the khe sanh combat base and its scattered outposts against equally tenacious soldiers of the north vietnamese army who outnumbered the americans 5 to 1 and were determined to destroy them with a few grim exceptions the americans successfully held their positions but what few know even to this day is the end result would have been far more disastrous had it not been for a small band of resourceful officers in the khe sanh command bunker responsible for gauging what this overwhelming attack force of north vietnamese infantry tanks and artillery was going to do next then hastily devising imaginative schemes to stop them with no room for error prominent among them was thirty six year old marine corps captain mirza munir baig a scholarly cambridge educated immigrant from india his unique combination of classical education years of counterintelligence work in helping develop spy networks deep into north vietnam and an incomparable expertise in the use of field artillery enabled the enigmatic baig like a chess grand master to get into the heads of enemy tacticians including the legendary general vo nguyen giap and anticipate their every move author michael archer worked alongside this remarkable eccentric officer throughout that bitter ten week siege and with the help of later declassified american and vietnamese military records and memoirs leaves little doubt that captain baig s presence at khe sanh was critical to saving thousands of his fellow defenders from death or captivity and averting one of the gravest military defeats in american history this accomplishment was largely the result of captain baig s early recognition that contrary to what many still believe today north vietnamese forces arrayed against khe sanh were not an elaborate deception to divert american troops away from fighting elsewhere rather the result of a ruinous obsession by leaders in hanoi in which they would sacrifice thousands of their finest soldiers to replicate the stunning victory they had achieved against the french combat base at dien bien phu fourteen years earlier as he went about his deadly work baig also had a personal agenda driven by his need to erase the only stain on an otherwise celebrated family military tradition dating back centuries to the mongol conquest of the western himalayas in that sense mirza munir baig had been rehearsing his entire life to step on to a stage like khe sanh and influence the course of history

prince roland the childe roland heir to the imperial throne grew up in a gilded cage surrounded by men who wanted to use his powers while keeping him under tight control he was growing into a petty sadistic brat until a marine pathfinder took him in hand helping him to overcome his caretakers jailers and make something of himself but it was too late for earth and as the planet collapsed into chaos roland and his mentor barely escaped before it was too late he was taken into the care of the marine corps and given a chance to go to boot camp and forge a new life but now unsure what to do with him his superiors set him a task roland has to take command of a training mission and travel to new doncaster a planet on the verge of exploding into civil war his mission is to build an army and stabilise the situation as quickly as possible but for an untried prince in a snake pit facing enemies on both sides of the war it will be far from easy
