The Journey of the First Black Bishop 2011-08-29

bishop samuel ajayi crowther was a true son of africa in character dilligence strategic approach to issues methodologically independent and a deep thinking person he was taken into slavery not out of his own making or voluntary acceptability but out of providence and the making of human nature he was destined to go through the ordeal of slavery inorder for him to learn the methodology of how he would release his other brethrens still wallowing in the bondage of slavery and abject poverty without bishop samuel ajayi crowther s ordeal efforts and strategic planning the fire of development we now see burning across the continent of africa today would have been long extinguished he single handedly planted the tree of unity not only in his home country nigeria alone but across the length and breadth of his beloved continent which other people from other nations of the world had written off and labelled the dark continent he brought oil and lamp for us to see the dangerous path that we were formerly trodding and elevated the status of a black person in the committee of world nations his grandson albert macaulay was undisputably the father of politics in nigeria while others who struggled with his grandfather in the vanguard of education economic freedom and total destruction of slaverery in africa also had their own place of recognition in the land of the continent

A Patriot to the Core 2001

an exposition of the life and career of a slave boy who rose to become the first black anglican bishop bishop crowther was a committed patriot who argued than an indigenou economoy must underscore african evangelisation he also made significant contributions to the study of the yoruba igbo hausa and ijo languages translated the bible into yoruba and travelled up the niger in 1841 writing extensively about the peoples and cultures of the niger and benue valleys the author ade ajayi is one of africa s leading historians and emeritus professor of history at the university of ibadan his book is not intended to be a definitive biography of crowther but nevertheless embodies the author s thinking about this figure and several decades research it brings together lectures and seminar papers and the author s earlier edition of crowther s own story and so probably remains the most important study of the bishop to date

English in Nigeria and Beyond 2019

democracy is a very important system of government found all over the world a cardinal principle of democracy is periodic elections elections have various forms of propaganda at different levels whether for unity division continuity or another purpose it is essential to research further into the developments in propaganda and political unrest so that global democracies may ensure credible elections and smooth governmental processes insights and explorations in democracy political unrest and propaganda in elections investigates how democratic governments can ensure credible elections in a peaceful atmosphere and an atmosphere of political unrest amidst various propagandas the book assesses whether democratic peace is expected in all democracies despite the free occurrence of political unrest across many democratic societies in europe america asia and africa covering topics such as democratic accountability political leadership and youth marginalization this premier

reference source is an essential resource for government officials public policy brokers politicians students and educators of higher education researchers and academicians

Inter-religious Encounters in West Africa 1976

the book contributes to the sparse academic literature on african and minority language media research it serves as a compendium of experiences activities and case studies on the use of native language media chapters in this book make theoretical methodical and empirical contributions about indigenous african language media that are affected by structural factors of politics technology culture and economy and how they are creatively produced and appropriated by their audiences across african cultures and contexts this book explores indigenous african language media about media representations media texts and contents practice based activities audience reception and participation television popular culture and cinema peace and conflict resolution health and environmental crisis communication citizen journalism ethnic and identity formation beat analysis and investigative journalism and corporate communication there are hardly any similar works that focus on the various issues relating to this body of knowledge the book provides a valuable companion for scholars in various fields like communication media studies african studies african languages popular culture journalism health and environmental communication

Insights and Explorations in Democracy, Political Unrest, and Propaganda in Elections 2023-07-10

this volume is the first text to provide a comprehensive account of the great books across the academic disciplines written by africans born in the continent and those who became naturalized citizens of african countries these great books are those that have had a powerful important or affecting influence on the author of a chapter in this book as an individual and on society the books included here are mostly of the storytelling type and thus not representative of most of the academic disciplines this volume allows each contributor to write a chapter on a discipline showcasing five great books written by african authors each selection is appraised and suggestions made by other experts in a discipline while every chapter entails an introduction to the topic a conceptual discussion of the discipline a book by book review of the five books and a conclusion and recommendations for research using the selected books

Internationalizing Media Studies 2023-09-29

this book examines the perception of africa in the global system tracing africa s transition from a problem to be solved into an agent with a rising voice in the world mixing afro optimism with heavy doses of afro reality and afro responsibility this book calls for a new political narrative about africa that captures the multi disciplinary dimensions of africa s transition and critically examining its ramifications the author discusses the origins of the problem perception held about africa and explains how things are turning around and how the continent is now becoming a voice to be heard rather than a problem to be solved he then goes on to interrogate some of the key manifestations of this new voice and identifies how the world is responding to the new voice of africa before finally examining some of the contradictions that have been embedded in the transition the book is strategically multi disciplinary emphasizing key disciplines of african studies in different chapters for example anthropology ethnography and philosophy in chapter 1 history in chapter 2 economics in chapter 3 politics in chapter 4 arts literature and aesthetics in chapter 5 religion in chapter 6 and globalization in chapter 7 through this a new narrative for africa explores and analyses several of the various strands of the african studies discipline examining the transformation of african on the global stage over the course of its history taking an interdisciplinary approach this book will be of interest across african studies global affairs politics economics and development studies

Mathematical Modelling of Fluid Dynamics and Nanofluids 2014-06-04

christianity is turning brown and moving south the christianity the west has known is in recession and has all but dwindled out of recognition in the opening years of the twenty first century well over half of the world s christians now live in the global south africa asia and latin america they are according to aberdeen missiologist andrew walls the new representative christians what they think about christianity will matter more and more and

what north america thinks about christianity will matter less and less this massive shift in geography and theological point of departure will have a major impact on christian preaching now and into the future the future shape of christian proclamation seeks to begin the conversation about how preaching in the global south will inform the whole of christian preaching in the coming years

Management And Leadership Innovations 2023-03-01

this book interrogates the nature of elections and election violence in the african countries it traces the causes of the governance menace to multiple factors that are not limited to poverty unemployment and media the book documents how election violence cripples the nation building process across many african countries consequently it reveals that states have lost their manifest destiny of national transformation in africa because they cannot guarantee that legitimate candidates who should win elections due to the widespread manipulation of violence at all levels of electoral engineering the chapters rely on the cases and changing dynamics of elections and electoral violence in the different nigerian states it traces the origins of elections the nature and patterns of a number of past elections as well as the roles of youth judiciary electoral umpire social media and gender on the changing nature of elections in nigeria

Advanced Applications of Biobased Materials 2018-01-04

climate change has emerged as one of the most severe global threats in recent years necessitating urgent interventions the paris agreement on climate change and the united nations through the sustainable development goals sdgs have established ingenious targets for mitigating greenhouse gas emissions thus charting a path to a more ecologically friendly energy system energy accessibility is often restricted in developing economies where conventional energy sources like coal oil and natural gas are still primarily utilized however the inimical effects of traditional energy sources such as fossil fuels on the environment and health and the quest for measures to counteract climate change have sparked a growing interest in renewable energy in these countries renewable energy can provide several benefits to developing countries including job creation improved energy access and security and reduced reliance on imported fossil fuels the potential for developing countries to contribute significantly to the energy transition drive is obvious nonetheless they encounter numerous peculiar constraints including restricted access to financing infrastructure deficit and a lack of technical competence that challenge the transition process also the need for proper oversight and accountability in the energy sector in most developing countries impedes the ability of governments to adopt effective policies to enhance the efficacy of the sector fundamentally the energy transition in developing markets is a challenging and heterogeneous process that necessitates a multidimensional approach encompassing regulatory policies institutional frameworks and technological integration for a sustainable energy system governance quality fiscal policy and the path to a low carbon future perspectives from developing economies provides a comprehensive overview of the role of governance quality and fiscal policy in shaping the path toward more sustainable renewable energy sources covering several key themes including the relationship between institutional

quality and renewable energy adoption emission trading systems green finance climate resilience and climate induced migration among others this premier reference work aims to provide policymakers academics practitioners and students with valuable insights practical recommendations and a deeper understanding of the energy transition landscape in developing economies

Proceedings of the International Conference on Information Technology & Systems (ICITS 2018) 2019-11-27

this fascinating multi disciplinary collection examines how public health interventions in postcolonial africa mirror wider manifestations of power in the region beyond the role of public health intervention in tackling disease and prolonging life the book measures the social and political determinant of health which continue to exist in the postcolonial era the volume features contributions from scholars across both the social sciences and humanities exploring ongoing debates across a broad range of themes including infopolitics biopolitics and healthcare emerging infectious diseases environment and food cultures health interventions and economic security church administration and healthcare livelihood sex sexuality and hiv aids offering a fresh and insightful understanding of health issues in this important global region and including chapters on issues around the covid 19 pandemic the book will interest students and researchers across a range of disciplines including global health politics and african studies
