

Ebook free Linclusione dellaltro studi di teoria politica (Read Only)

questo libro recupera per il lettore italiano alcuni dei più significativi saggi attraverso cui jean marie brohm ha inaugurato nella seconda metà del novecento il proprio impegno di analisi critica dello sport il lavoro del sociologo francese si pone l obiettivo di allestire una contrapposizione radicale allo sport competitivo e alle modalità di strutturazione moderna del corpo atletico brohm denuncia il primato della dimensione commerciale ed industriale dello sport la sua logica di mercato la sua componente politica la sua caratterizzazione ideologica e il suo uso pedagogico lo sport è considerato uno strumento che favorisce gli interessi del capitalismo globale che narcotizza il dissenso nell intrattenimento spettacolare e che legittima dietro il paravento della sua neutralità politica molteplici forme di dominio al suo cuore la logica prioritaria della competizione e della performance di successo oltre ad alimentare lo sfruttamento economico della pratica degli eventi degli atleti e degli appassionati consumatori rappresenta una ratifica ideologica delle gerarchie delle disuguaglianze e delle ingiustizie sociali brohm identifica nelle olimpiadi in quanto enorme business uno dei più estremi utilizzi dello sport come forma di accumulazione ed espansione del capitale su scala mondiale inoltre sentenzia l intellettuale francese esse accolgono manovre politiche ed economiche nello scenario globale e tendono ad offuscare dietro i principi olimpici e l illusoria idea della coesistenza pacifica tra gli stati le dinamiche conflittuali che caratterizzano la geopolitica internazionale in this book saggi sulla teoria della letteratura essays on the theory of literature enza biagini puts in play her rich theoretical background and a vast knowledge of texts and authors to deal with some fundamental problems concerning literature its status its metamorphoses and its being necessary following modern paths she leads the readers on the traces of different genres and situations difficult to define the essay writing the unfinished of temporary themes always on the point of becoming something else the nocturnal the relationship between text and image the works revolve around the exergues and the definitions of the dictionaries a whole world of suggestions and reasoning that the author finely brings not only to the field of theory but also to the world of the italian and french narrative a major contribution not only to puccini studies but also to the study of nineteenth century italian opera in general nineteenth century music review in this groundbreaking survey of the fundamentals methods and formulas that were taught at italian music conservatories during the 19th century nicholas baragwanath explores the compositional significance of tradition in rossini bellini donizetti verdi boito and most importantly puccini taking account of some 400 primary sources baragwanath explains the varying theories and practices of the period in light of current theoretical and analytical conceptions of this music the italian traditions and puccini offers a guide to an informed interpretation and appreciation of italian opera by underscoring the proximity of archaic traditions to the music of puccini dense and challenging in its detail and analysis this work is an important addition to the growing corpus of puccini studies highly recommended choice this volume studies in law politics and society contains a symposium on indigenous peoples in latin america it examines the ways rights are negotiated between those groups and the states in which they live 46 11 widely regarded as the most important legal theorist of the twentieth century hans kelsen is best known for his formulation of the pure theory of law within which the study of international law was his special field of work the present volume general theory of law and state first published in 1945 allowed kelsen to adjust his pure theory of law to american circumstances after world war ii it also afforded him the opportunity to present to english speaking readers his latest ideas on the supremacy of international law the volume is divided into two parts the first devoted to law the second to the state together these topics constitute the most systematic and comprehensive exposition of kelsen s jurisprudence the volume is not only a compendium of kelsen s lifework up to that time it is also an extension of his theories to embrace the problems and institutions of english and american law as well as those of the civil law countries indeed references to continental european law are minimal compared with examples scattered throughout the text taken from the u s constitution and several american court cases this is more than a concession to american readers it signifies that kelsen s legal theory is truly general in that it accounts for the common law as well as the civil law a systematic treatise on jurisprudence general theory of law and state is a substantial reformulation of kelsen s ideas articulated in several of his previous books written in german the juridical principles put forth by the most important legal theorist of the twentieth century remain of great value this volume will be read by legal scholars political scientists and intellectual historians questo volume che inaugura la pubblicazione in formato elettronico delle opere complete di bruno leoni include tutte le 408 recensioni scritte per la rivista il politico nel corso di un decennio 1950 1959 a sorprendere non è soltanto l elevato numero di recensioni ma anche la diversità degli argomenti trattati dalla psichiatria all arte dalla religione alla letteratura dall archeologia alle civiltà orientali dalla storia all architettura oltre naturalmente alla politica all economia e al diritto si tratta di un testo utile per due motivi in particolare da un lato per capire meglio il pensiero di leoni poiché in queste recensioni i suoi riferimenti culturali vengono esplicitati e si chiarisce bene quale fosse la sua concezione della politica della filosofia e della società dall altro esso consente di farsi un idea sugli argomenti di cui non si discuteva in italia negli anni cinquanta il politico fondato dallo stesso leoni nel 1950 fu infatti un mirabile tentativo di innovare la cultura italiana e in queste recensioni che sono per la maggior parte di libri stranieri l autore suggerisce traduzioni e propone idee e argomenti in italia allora poco conosciuti o spesso conosciuti male le recensioni non sono mai banali e anzi vi emerge con chiarezza quali

siano le valutazioni le idee e in generale il pensiero di leoni fare esplorazioni in campi così diversi e saperne trarre vantaggio nell'elaborazione di idee nel proprio settore di ricerca richiede indubbiamente un'intelligenza e una cultura fuori dall'ordinario ma questo era il suo approccio metodologico le scienze umane gli apparivano intimamente connesse e solo da una loro trattazione comune era convinto di poter trovare la soluzione ai problemi sociali proceedings of a conference held in forlái mar 28 29 2003 includes bibliographical references p 205 219 and index eduardo de filippo 1900 1984 e uno dei maggiori drammaturghi del novecento nel suo teatro la famiglia rappresenta il punto nevralgico della società attraverso quest'unità archetipica le opere qui considerate si propongono come un lungo esame dei rapporti familiari e sono al contempo il barometro dei mutamenti sociali e culturali delle diverse epoche in cui si svolge l'azione in questo nuovo lavoro donatella fischer analizza ogni commedia come un ulteriore passo verso l'inarrestabile frantumazione dell'universo familiare e soprattutto della famiglia patriarcale i cui precetti si rivelano sempre più anacronistici eduardo de filippo ritrae famiglie divise dal conflitto fra illusione e realtà natale in casa cupiello aggrappate alla speranza napoli milionaria e questi fantasmi sovversivi dietro la cornice borghese filumena marturano in balia del proprio tempo mia famiglia e ridotte infine all'involucro di se stesse nell'ultima opera dell'autore gli esami non finiscono mai in this first ever book on the solfeggio tradition one of the pillars of eighteenth century music education author nicholas baragwanath illuminates how performers and composers developed their exceptional skills in improvising and inventing melodies this collection of essays is the outcome of a workshop with scott shapiro on the planning theory of law that took place in december 2009 at bocconi university it brings together a group of scholars who wrote their contributions to the workshop on a preliminary draft of shapiro's legality then after the workshop they wrote their final essays on the published version of the book the contributions clearly highlight the difference of the continental and civil law perspective from the common law background of shapiro but at the same time the volume tries to bridge the gap between the two the essays provide a critical reading of the planning theory of law highlighting its merits on the one hand and objecting to some parts of it on the other hand each contribution discusses in detail a chapter of shapiro's book and together they cover the whole of shapiro's theory so the book presents a balanced and insightful discussion of the arguments of legality selected by choice magazine as an outstanding academic book for 1996 the decameron is a narrative account of a situation in which narration takes place a collection of one hundred stories set within a larger story as a group of young men and women fleeing the plague trade stories to pass the time of crisis storytelling occurs in a social context that allows for comment upon the tales by the tellers themselves in a setting that elicits one story in return for another in his close and original analysis pier massimo forni uses the notion of rhetoric as a guiding principle for a critical assessment of the decameron he explores the discursive tools with which the narrators connect the contents of their stories to their audience's environment and goes on to argue that the book is significantly marked by boccaccio's habit of exploring the narrative potential of rhetorical forms by showing how the decameron marks a new stage in the development of vernacular realism forni also charts a new course in boccaccio criticism viewing the cultural and rhetorical context of the medieval masterpiece from a fresh perspective he offers intriguing insights into the functioning of boccaccio's narrative adventures in speech maps the cognitive poetic processes that rule the complex authorial network of relationships involving speech event received culture and narrative objects starting from the assertion that crisis is part of the essence of labour law this volume brings together researchers in the field who accepted the challenge to critically reflect on this branch of the discipline as the covid 19 pandemic has had a global impact labour law across the world must come to terms with a new reality in this context it would be prudent to adapt to new circumstances by taking known paths to this end this book reflects on what effectively constitutes labour law considering questions which are not usual within labour law insights from philosophical sociological and even economic standpoints are mobilised to reconcile the past with the future of labour law translation and commentary are often associated with institutions and patronage but in italy around the time of dante widespread vernacular translation was mostly on the spontaneous initiative of individuals while dante is usually the starting point for histories of vernacular translation in europe this book demonstrates that the divine comedy places itself in opposition to a vast vernacular literature already in circulation among its readers alison cornish explores the anxiety of vernacularization as expressed by translators and contemporary authors the prevalence of translation in religious experience the role of scribal mediation the influence of the italian reception of french literature on that literature and how translating into the vernacular became a project of nation building only after its virtual demise during the humanist period vernacular translation was a phenomenon with which all authors in thirteenth and fourteenth century europe from brunetto latini to giovanni boccaccio had to contend teoria e ricerca sull'apprendimento del tedesco l2 è un manuale tecnico scientifico pensato per i corsi di didattica della lingua tedesca nell'ambito dei percorsi formativi per futuri insegnanti esso offre una panoramica sulle principali teorie e discipline che si occupano di apprendimento linguistico e didattico di l2 descrive le principali ricerche condotte sul tedesco l2 concentrandosi sul caso particolare dell'apprendimento guidato presso italo-foni e sulla base degli esiti ottenuti dalle ricerche finora condotte propone una riflessione in ottica didattica il volume vuole essere spunto di riflessione anche per insegnanti del tedesco l2 già operanti in ambito scolastico nonché per ricercatori e studiosi impegnati nello studio dell'apprendimento linguistico the poems and prose included in this volume are emblematic of the two phases of guittone's career he first achieved fame as a secular love poet but following his conversion in the 1260s he became a renowned religious poet 25 1 20 a contemporary of giordano bruno and galileo tommaso campanella 1568 1639 was a controversial philosopher theologian astrologer

and poet who was persecuted during the inquisition and spent much of his adult life imprisoned because of his heterodox views he is best known today for two works the city of the sun a dialogue inspired by plato s republic in which he prophesies a vision of a unified peaceful world governed by a theocratic monarchy and his well meaning defense of galileo which may have done galileo more harm than good because of campanella s previous conviction for heresy but campanella s philosophical poems are where his most forceful and undiluted ideas reside his poetry is where his faith in observable and experimental sciences his astrological and occult wisdom his ideas about deism his anti aristotelianism and his calls for religious and secular reform most put him at odds with both civil and church authorities for this volume sherry roush has selected campanella s best and most idiosyncratic poems which are masterpieces of sixteenth century italian lyrics displaying a questing mind of great if unorthodox brilliance and showing campanella s passionate belief in the intrinsic harmony between the sacred and secular this book provides the non italian scholar with an extensive picture of the development of italian economics from the sixteenth century to the present the thread of the narrative is the dialectics between economic theory and political action where the former attempts to enlighten the latter but at the same time receives from politics the main stimulus to enlarge its field of reflection this is particularly clear during the enlightenment inside this book insists on stressing that galiani verri and beccaria were economists quite sensitive to practical issues but who also were willing to attain generally valid conclusions in this sense pure economics was never performed in italy even pareto used economics and sociology in order to interpret and possibly steer the course of political action within this book it illustrates the restoration period 1815 48 there was a slowdown of the economists engagement due to an adverse political situation that prompted the economists to prefer less dangerous subjects such as the relationship between economics morals and law the main interpreter of this attitude was romagnosi after 1848 however in parallel with the risorgimento cultural climate a new vision of the economists task was eventually manifested between economics and political liberalism a sort of alliance was established whose prophet was f ferrara while the historical school of economics of german origin played a minor role pure economics 1890 1940 approx had a considerable success as regards both economic equilibrium and the theory of public finance consequently the introduction of keynes s ideas was rather troubled instead hayek had an immediate success this book concludes with a chapter devoted to the intense relationships between economic theories economic programmes and political action after 1945 here the sraffa debate played an important role in stimulating italian economists to a reflection on the patterns of italian economy and the possibilities of transforming italy s economic and social structure relying on previously undisclosed confessions of former mafia members now cooperating with the police letizia paoli provides a clinically accurate portrait of mafia behavior motivations and structure in italy the mafia paoli demonstrates are essentially multifunctional ritual brotherhoods focused above all on retaining and consolidating their local political power base a truly interdisciplinary work of history politics economics and sociology mafia brotherhoods reveals in dramatic detail the true face of one of the world s most mythologized criminal organizations in what we consider to be a timely collection of essays the volume rethinking the humanities paths and challenges tries to reflect upon the present condition of the humanities and their manifold challenges acutely dramatized in an era of increasing contingency and globalization by drawing upon a wide variety of perspectives and areas of research from literary studies to philosophy from cultural criticism to the history of ideas we hope to surpass the now dominant rhetoric of crisis as it features for example in george steiner s essay humanities at twilight not only by devising new horizons for a humanistic literary culture cândido de oliveira martins and envisioning literary studies in a post literary age david damrosch but also by advocating an ethical turn for the humanities peter levine and josé pedro serra seen as an education toward autonomy richard wolin as well as by reconsidering the very notion of crisis within the humanities marjorie perloff and antónio sousa ribeiro by doing so and whilst it does not claim to offer definitive answers the volume nevertheless strives to open up new fields of debate and innovative perspectives the editors this book engages in an analytical and realistic enquiry into legal interpretation and a selection of related matters including legal gaps judicial fictions judicial precedent legal defeasibility and legislation chapter 1 provides an outline of the central theoretical and methodological tenets of analytical realism chapter 2 presents a conceptual apparatus concerning the phenomenon of legal interpretation which it subsequently applies to investigate the truth in legal interpretation issue chapters 3 to 6 argue for a theory of legal interpretation pragmatic realism by outlining a theory of interpretive games revisiting the debate between literalism and contextualism in contemporary philosophy of language and underscoring the many shortcomings of the container retrieval view and pragmatic formalism in turn chapter 7 focusing on comparative legal theory advocates an interpretation sensitive theory of legal gaps as opposed to purely normativist ones chapter 8 explores the connection between judicial reasoning and judicial fictions casting light on the structure and purpose of fictional reasoning chapter 9 provides an analytical enquiry into judicial precedent examining a variety of ideal typical systems in terms of their normative or de iure relevance chapter 10 addresses defeasibility and legal indeterminacy in closing chapter 11 highlights the central tenets of a realistic theory of legislation perché mai il dominio di classe non resta quello che è vale a dire un assoggettamento di fatto di una parte della popolazione a opera dell'altra e prende invece la forma di un potere statale ufficiale ovvero che è lo stesso perché l'apparato della coercizione statale non viene costituito già come apparato privato della classe dominante ma si distingue da questa assumendo la forma di un apparato pubblico impersonale separato dalla società questa è una delle domande che ci rivolge pašukanis in quello che può considerarsi il testo più significativo del marxismo giuridico sovietico degli anni 20 la teoria di pašukanis fu all

avanguardia nel proporre una prospettiva che faceva risalire la forma della legge non agli interessi di classe ma alla logica del capitale stesso approdato a una posizione contraria a quella di stalin pašukanis fu bollato come nemico della rivoluzione e arrestato nel 1937 scomparendo poco dopo il suo nome venne riabilitato soltanto nel 1954 e a partire dagli anni 70 il suo pensiero venne riscoperto come valida alternativa alle interpretazioni marxiste tradizionali che vedevano il diritto semplicemente e puramente legato agli interessi di dominio della classe evgenij bronislavovic pašukanis 1891 1938 giurista sovietico fu vicepresidente dell'istituto della costruzione sovietica destinato allo studio delle problematiche legali e politiche legate alla costruzione dello stato sovietico e vice commissario del popolo alla giustizia scomparve nel 1937 arrestato nel corso delle epurazioni staliniane e venne riabilitato dopo il xx congresso del pcus 1956 365 1041 there is a sense in which one might say as leopardi did say about poetry that his poems are born of illusion yet what they register is a lament over its loss and a persistent rejection of all deception the canti are conspicuously influenced by illusion but paradoxically dominated by a continual taking the measure as it were of truth of a human and cosmic reality which simply is what it is in generalising his convictions the poet does make a certain claim on our belief and he challenges us to take what he says seriously however the merit of the poems themselves is the full expression of those convictions it is this aspect that this introduction addresses and not whether we should agree or disagree with leopardi its aim is to explain in order to help appreciate what is found on the page it is an analysis of the poems and an attempt to create a coherent and comprehensive structure for students in which nearly all the canti can be considered from several points of view this book which is the result of several years of research discussion writing and re writing consists of three parts and eight chapters the first part is given by the two first chapters introducing the issue of validity and facticity in law the second part chapters 3 4 and 5 is the core of this study and tries to present a theory based on a specific view about language and social practice the third part deal with the issue of value judgments and views about morality and consists of chapters 6 and 7 chapter 8 should naturally serve as epilogue in the first chapter a discussion is started about the relationship between law and power seen as a presupposition for an assessment of the nature of law as a matter of fact as has been remarked general theories of law struggle to do justice to the 1 multiple dualities of the law indeed law has a dual nature it is a fact but it also a norm a sort of ideal entity law is sanction but it is also discourse it is effectivity or facticity but it is also a vehicle of principles among which the central one is justice but this duality is not only a phenomenological or a matter of justification and implementation as two separate moments first multi year cumulation covers six years 1965 70 talcott parsons was the leading theorist in american sociology and perhaps in world sociology from the 1940s to the 1970s he created the dominant school of thought that made parsonian a standard description of a theoretical attempt to unify social science as reflected in the fact that his contributions to the discipline cover a range of issues including medicine the family religion law the economy race relations and politics to name but a few this volume brings together leading scholars working in the field of parsonian studies to explore the background of parsons's work the content of his oeuvre and his subsequent influence thematically organized it covers parsons's contributions and impacts in areas including the philosophy and methodology of the social sciences cultural sociology personality mental illness and psychoanalysis and economics and political and economic sociology in addition it considers his influence in different areas of the world and on particular students and offers insights into the parsonian tradition's practical application to contemporary social issues an authoritative comprehensive and in depth critical assessment of the parsonian legacy the routledge international handbook of talcott parsons studies will appeal to scholars across the social sciences and in sociology and social theory in particular with interests in the history of sociology and the enduring relevance of talcott parsons

L'inclusione dell'altro. Studi di teoria politica 1998 questo libro recupera per il lettore italiano alcuni dei più significativi saggi attraverso cui jean marie brohm ha inaugurato nella seconda metà del novecento il proprio impegno di analisi critica dello sport il lavoro del sociologo francese si pone l'obiettivo di allestire una contrapposizione radicale allo sport competitivo e alle modalità di strutturazione moderna del corpo atletico brohm denuncia il primato della dimensione commerciale ed industriale dello sport la sua logica di mercato la sua componente politica la sua caratterizzazione ideologica e il suo uso pedagogico lo sport è considerato uno strumento che favorisce gli interessi del capitalismo globale che narcotizza il dissenso nell'intrattenimento spettacolare e che legittima dietro il paravento della sua neutralità politica molteplici forme di dominio al suo cuore la logica prioritaria della competizione e della performance di successo oltre ad alimentare lo sfruttamento economico della pratica degli eventi degli atleti e degli appassionati consumatori rappresenta una ratifica ideologica delle gerarchie delle disuguaglianze e delle ingiustizie sociali brohm identifica nelle olimpiadi in quanto enorme business uno dei più estremi utilizzi dello sport come forma di accumulazione ed espansione del capitale su scala mondiale inoltre sentenzia l'intellettuale francese esse accolgono manovre politiche ed economiche nello scenario globale e tendono ad offuscare dietro i principi olimpici e l'illusoria idea della coesistenza pacifica tra gli stati le dinamiche conflittuali che caratterizzano la geopolitica internazionale

Studi di teoria del diritto 1993 in this book saggi sulla teoria della letteratura essays on the theory of literature enza biagini puts in play her rich theoretical background and a vast knowledge of texts and authors to deal with some fundamental problems concerning literature its status its metamorphoses and its being necessary following modern paths she leads the readers on the traces of different genres and situations difficult to define the essay writing the unfinished of temporary themes always on the point of becoming something else the nocturnal the relationship between text and image the works revolve around the exergues and the definitions of the dictionaries a whole world of suggestions and reasoning that the author finely brings not only to the field of theory but also to the world of the italian and french narrative

Studi di teoria politica 2012 a major contribution not only to puccini studies but also to the study of nineteenth century italian opera in general nineteenth century music review in this groundbreaking survey of the fundamentals methods and formulas that were taught at italian music conservatories during the 19th century nicholas baragwanath explores the compositional significance of tradition in rossini bellini donizetti verdi boito and most importantly puccini taking account of some 400 primary sources baragwanath explains the varying theories and practices of the period in light of current theoretical and analytical conceptions of this music the italian traditions and puccini offers a guide to an informed interpretation and appreciation of italian opera by underscoring the proximity of archaic traditions to the music of puccini dense and challenging in its detail and analysis this work is an important addition to the growing corpus of puccini studies highly recommended choice

The Solfeggio Tradition 2020 25 1 20

The Planning Theory of Law 2012-09-12 a contemporary of giordano bruno and galileo tommaso campanella 1568 1639 was a controversial philosopher theologian astrologer and poet who was persecuted during the inquisition and spent much of his adult life imprisoned because of his heterodox views he is best known today for two works the city of the sun a dialogue inspired by plato s republic in which he prophesies a vision of a unified peaceful world governed by a theocratic monarchy and his well meaning defense of galileo which may have done galileo more harm than good because of campanella s previous conviction for heresy but campanella s philosophical poems are where his most forceful and undiluted ideas reside his poetry is where his faith in observable and experimental sciences his astrological and occult wisdom his ideas about deism his anti aristotelianism and his calls for religious and secular reform most put him at odds with both civil and church authorities for this volume sherry roush has selected campanella s best and most idiosyncratic poems which are masterpieces of sixteenth century italian lyrics displaying a questing mind of great if unorthodox brilliance and showing campanella s passionate belief in the intrinsic harmony between the sacred and secular

Discipline Filosofiche (2006-1) 2006-07-03 this book provides the non italian scholar with an extensive picture of the development of italian economics from the sixteenth century to the present the thread of the narrative is the dialectics between economic theory and political action where the former attempts to enlighten the latter but at the same time receives from politics the main stimulus to enlarge its field of reflection this is particularly clear during the enlightenment inside this book insists on stressing that galiani verri and beccaria were economists quite sensitive to practical issues but who also were willing to attain generally valid conclusions in this sense pure economics was never performed in italy even pareto used economics and sociology in order to interpret and possibly steer the course of political action within this book it illustrates the restoration period 1815 48 there was a slowdown of the economists engagement due to an adverse political situation that prompted the economists to prefer less dangerous subjects such as the relationship between economics morals and law the main interpreter of this attitude was romagnosi after 1848 however in parallel with the risorgimento cultural climate a new vision of the economists task was eventually manifested between economics and political liberalism a sort of alliance was established whose prophet was f ferrara while the historical school of economics of german origin played a minor role pure economics 1890 1940 approx had a considerable success as regards both economic equilibrium and the theory of public finance consequently the introduction of keynes s ideas was rather troubled instead hayek had an immediate success this book concludes with a chapter devoted to the intense relationships between economic theories economic programmes and political action after 1945 here the sraffa debate played an important role in stimulating italian economists to a reflection on the patterns of italian economy and the possibilities of transforming italy s economic and social structure

Adventures in Speech 2016-11-11 relying on previously undisclosed confessions of former mafia members now cooperating with the police letizia paoli provides a clinically accurate portrait of mafia behavior motivations and structure in italy the mafia paoli demonstrates are essentially multifunctional ritual brotherhoods focused above all on retaining and consolidating their local political power base a truly interdisciplinary work of history politics economics and sociology mafia brotherhoods reveals in dramatic detail the true face of one of the world s most mythologized criminal organizations

Philosophical and Sociological Reflections on Labour Law in Times of Crisis 2022-05-13 in what we consider to be a timely collection of essays the volume rethinking the humanities paths and challenges tries to reflect upon the present condition of the humanities and their manifold challenges acutely dramatized in an era of increasing contingency and globalization by drawing upon a wide variety of perspectives and areas of research from literary studies to philosophy from cultural criticism to the history of ideas we hope to surpass the now dominant rhetoric of crisis as it features for example in george steiner s essay humanities at twilight not only by devising new horizons for a humanistic literary culture cândido de oliveira martins and envisioning literary studies in a post literary age david damrosch but also by advocating an ethical turn for the humanities peter levine and josé pedro serra seen as an education toward autonomy richard wolin as well as by reconsidering the very notion of crisis within the humanities marjorie perloff and antônio sousa ribeiro by doing so and whilst it does not claim to offer definitive

answers the volume nevertheless strives to open up new fields of debate and innovative perspectives the editors

Vernacular Translation in Dante's Italy 2010-12-23 this book engages in an analytical and realistic enquiry into legal interpretation and a selection of related matters including legal gaps judicial fictions judicial precedent legal defeasibility and legislation chapter 1 provides an outline of the central theoretical and methodological tenets of analytical realism chapter 2 presents a conceptual apparatus concerning the phenomenon of legal interpretation which it subsequently applies to investigate the truth in legal interpretation issue chapters 3 to 6 argue for a theory of legal interpretation pragmatic realism by outlining a theory of interpretive games revisiting the debate between literalism and contextualism in contemporary philosophy of language and underscoring the many shortcomings of the container retrieval view and pragmatic formalism in turn chapter 7 focusing on comparative legal theory advocates an interpretation sensitive theory of legal gaps as opposed to purely normativist ones chapter 8 explores the connection between judicial reasoning and judicial fictions casting light on the structure and purpose of fictional reasoning chapter 9 provides an analytical enquiry into judicial precedent examining a variety of ideal typical systems in terms of their normative or de iure relevance chapter 10 addresses defeasibility and legal indeterminacy in closing chapter 11 highlights the central tenets of a realistic theory of legislation

Teoria e ricerca sull'apprendimento del tedesco L2 2017-12-06 perché mai il dominio di classe non resta quello che è vale a dire un assoggettamento di fatto di una parte della popolazione a opera dell'altra e prende invece la forma di un potere statale ufficiale ovvero che è lo stesso perché l'apparato della coercizione statale non viene costituito già come apparato privato della classe dominante ma si distingue da questa assumendo la forma di un apparato pubblico impersonale separato dalla società questa è una delle domande che ci rivolge pašukanis in quello che può considerarsi il testo più significativo del marxismo giuridico sovietico degli anni 20 la teoria di pašukanis fu all'avanguardia nel proporre una prospettiva che faceva risalire la forma della legge non agli interessi di classe ma alla logica del capitale stesso approdato a una posizione contraria a quella di stalin pašukanis fu bollato come nemico della rivoluzione e arrestato nel 1937 scomparendo poco dopo il suo nome venne riabilitato soltanto nel 1954 e a partire dagli anni 70 il suo pensiero venne riscoperto come valida alternativa alle interpretazioni marxiste tradizionali che vedevano il diritto semplicemente e puramente legato agli interessi di dominio della classe evgenij bronislavovic pašukanis 1891-1938 giurista sovietico fu vicepresidente dell'istituto della costruzione sovietica destinato allo studio delle problematiche legali e politiche legate alla costruzione dello stato sovietico e vice commissario del popolo alla giustizia scomparve nel 1937 arrestato nel corso delle epurazioni staliniane e venne riabilitato dopo il xx congresso del pcus 1956

Parsons' The Structure of Social Action and Contemporary Debates 2001 365 1041

Selected Poems and Prose 2017-01-01 there is a sense in which one might say as leopardi did say about poetry that his poems are born of illusion yet what they register is a lament over its loss and a persistent rejection of all deception the canti are conspicuously influenced by illusion but paradoxically dominated by a continual taking the measure as it were of truth of a human and cosmic reality which simply is what it is in generalising his convictions the poet does make a certain claim on our belief and he challenges us to take what he says seriously however the merit of the poems themselves is the full expression of those convictions it is this aspect that this introduction addresses and not whether we should agree or disagree with leopardi its aim is to explain in order to help appreciate what is found on the page it is an analysis of the poems and an attempt to create a coherent and comprehensive structure for students in which nearly all the canti can be considered from several points of view

Formare con il cinema. Questioni di teoria e di metodo 2012-01-10T00:00:00+01:00 this book which is the result of several years of research discussion writing and re writing consists of three parts and eight chapters the first part is given by the two first chapters introducing the issue of validity and facticity in law the second part chapters 3 4 and 5 is the core of this study and tries to present a theory based on a specific view about language and social practice the third part deals with the issue of value judgments and views about morality and consists of chapters 6 and 7 chapter 8 should naturally serve as epilogue in the first chapter a discussion is started about the relationship between law and power seen as a presupposition for an assessment of the nature of law as a matter of fact as has been remarked general theories of law struggle to do justice to the multiple dualities of the law indeed law has a dual nature it is a fact but it is also a norm a sort of ideal entity law is sanction but it is also discourse it is effectivity or facticity but it is also a vehicle of principles among which the central one is justice but this duality is not only a phenomenological or a matter of justification and implementation as two separate moments

Matematica per l'economia. Elementi di teoria ed esercizi 2015 first multi year cumulation covers six years 1965-70

Selected Philosophical Poems of Tommaso Campanella 2011-02-15 talcott parsons was the leading theorist in american sociology and perhaps in world sociology from the 1940s to the 1970s he created the dominant school of thought that made parsonian a standard description of a theoretical attempt to unify social science as reflected in the fact that his contributions to the discipline cover a range of issues including medicine the family religion law the economy race relations and politics to name but a few this volume brings together leading scholars working in the field of parsonian studies to explore the background of parsons's work the content of his oeuvre and his subsequent influence thematically organized it covers parsons's contributions and impacts in areas including the philosophy and

methodology of the social sciences cultural sociology personality mental illness and psychoanalysis and economics and political and economic sociology in addition it considers his influence in different areas of the world and on particular students and offers insights into the parsonian tradition s practical application to contemporary social issues an authoritative comprehensive and in depth critical assessment of the parsonian legacy the routledge international handbook of talcott parsons studies will appeal to scholars across the social sciences and in sociology and social theory in particular with interests in the history of sociology and the enduring relevance of talcott parsons
