Japanese for Busy People is the most popular Japanese language textbook series in the world with over 20 components including texts, workbooks, CDs, videos, and teacher's manuals. It is also one of the most comprehensive. Now a decade after its first revision, the entire series is being redesigned, updated, and consolidated to meet the needs of 21st-century students and businesspeople who want to learn natural spoken Japanese as effectively as possible in a limited amount of time. The book features not only a sleek new design but also a unit structure that groups thematically linked lessons together, making it easier than ever to learn Japanese. Moreover, it now comes with a CD containing audio for the dialogues and listening exercises from the text. The exercises in the book have also been thoroughly revised to incorporate more comprehension and production tasks. Many of these exercises are illustrated, making for a stimulating learning experience, and the purpose of each one is clearly stated. This first of three volumes introduces survival Japanese, the absolute minimum amount of Japanese needed to live in Japan. Thus, the vocabulary and grammatical items it introduces are limited to about a third of what is typically introduced in a first-year course. In addition, the book features notes on Japanese culture intended to expand the learner's understanding of Japan, its customs, and people. Japanese for Busy People I is available in two formats: Romanized and Kana. The Romanized version uses Romanized Japanese throughout, with Kana in the opening dialogues of each lesson. The Kana version exposes students to Hiragana and Katakana from the very beginning, using only Kana. The content of the two books is otherwise exactly the same. The companion volume, Japanese for Busy People 1: The Workbook for the Revised 3rd Edition, contains a variety of illustrated exercises for mastering the basic sentence patterns presented in the main text.

The third edition of Bill Nichols's best-selling text provides an up-to-date introduction to the most important issues in documentary history and criticism. A new chapter, "I Want to Make a Documentary: Where Do I Start?" guides readers through the steps of planning and preproduction and includes an example of a project proposal for a film that went on to win awards at major festivals. Designed for students in any field that makes use of visual evidence and persuasive strategies, the introduction to documentary identifies the genre's distinguishing qualities and teaches the viewer how to read documentary film. Each chapter takes up a discrete question, from "How did documentary filmmaking get started?" to "Why are ethical issues central to documentary filmmaking?" Here, Nichols has fully rewritten each chapter for greater clarity and ease of use, including revised discussions of earlier films and new commentary on dozens of recent films, from *The Cove* to *The Act of Killing* and from *Gasland* to *Restrepo*.
