paths tells the life story of Aby Warburg 1866-1929, one of the most influential historians of art and culture of the twentieth century. It also tells the story of a man who throughout his life struggled to assert his place in the world, charting Warburg's many projects and identities: groundbreaking historian, public intellectual, ethnographer, shrewd academic administrator, and founder of a library. The book explores not only the vagaries of an academic career but also the personal demons of a man who relentlessly sought to live up to his own expectations. In this biography, the first in English in over fifty years, Hans C. Hönes presents an evocative and richly detailed portrait of Warburg's personality and career and of his attempts to make sense of the tangled paths of his life.

Ghost Rider 2022-04-07  
ninety years after WEB Du Bois first articulated the need for the equivalent of a Black Encyclopedia Britannica, Kwame Anthony Appiah and Henry Louis Gates Jr. realized his vision by publishing *Africana: The Encyclopedia of the African and African American Experience*. In 1999, this new, greatly expanded edition of the original work broadens the foundation provided by *Africana*, including more than one million new words. *Africana* has been completely updated and revised; new entries on African kingdoms have been added; bibliographies now accompany most articles; and the encyclopedia's coverage of the African diaspora in Latin America and the Caribbean has been expanded, transforming the set into the most authoritative research and scholarly reference set on the African experience ever created. More than 4,000 articles cover prominent individuals, events, trends, places, political movements, art forms, business, and trade; religion, ethnic groups, organizations, and countries on both sides of the Atlantic. African American history and culture in the present-day United States receive a strong emphasis, but African American history and culture throughout the rest of the Americas and their origins in Africa itself have an equally strong presence. The articles that make up *Africana* cover subjects ranging from affirmative action to zydeco and span over four million years, from the earliest known hominids to Sean Diddy Combs, with entries ranging from the African ethnic groups to members of the Congressional Black Caucus. *Africana*, second edition, conveys the history and scope of cultural expression of people of African descent with unprecedented depth.
