Foreign Operations, Export Financing, and Related Programs Appropriations for 1999

1998

since the onset of the twelfth five year plan china has been at the forefront as an innovative nation based on a carefully designed strategy despite this it can be argued that the chinese government requires a series of more effective and systematic fiscal and taxation policies this book analyses the status quo and possible optimization of china s fiscal and taxation policies by drawing comparisons with other countries as well as a practical investigation into the lessons china has drawn from elsewhere the author shows how a nation should make steadily growing and optimized financial investments in science and technology in order to foster the optimum environment for innovation it is shown that institutional innovation should be a systematic project which involves top level design and top down leadership this volume will be a useful reference for students scholars and policy makes who are interested in financial policy
