considers how project head start the federally funded preschool program has operated sometimes effectively and comfortably sometimes not with families in communities and with other institutions an important look at the intersections of poverty social programs and education

Early Childhood Curriculum 2013-07-24

the curriculum of elementary schools is a very important factor in the education of children students need to understand and express themselves in a language which can be the mother tongue only at the elementary level curriculum development is an important part of the education process ensuring that classes at all levels from early childhood to post secondary are best designed to help students be successful in learning the material and gaining the skills needed to continue to advance evaluation essentially is the provision of information for the sake of facilitating decision making at various stages of curriculum development this information may pertain to the program as a complete entity or only to some of its components evaluation also implies the selection of criteria collection and analysis of data it includes obtaining information for use in judging the worth of a programme and procedure it is a comprehensive term and transcends

standardized tests covering all means of ascertaining the results of construction a curriculum framework is an organized plan or set of standards or learning outcomes that defines the content to be learned in terms of clear definable standards of what the student should know and be able to do the supporters of learner centered curriculum give importance to individual development and they want to organize the curriculum according to the needs and interest of learners there are fundamental differences in this approach and the subject centered design the curriculum framers for elementary schools should also associate the parents and specialists while developing the curriculum for elementary education

Authorizations for Head Start, Follow Through, Community Services, and Establish Child Care Information and Referral Services 1985

this book focuses on early childhood education which spans the human life from birth to age 8 infants and toddlers experience life more holistically than any other age group social emotional cognitive language and physical lessons are not learned separately by very young children adults who are most helpful to young children interact in ways that understand that the child is learning from the whole experience not just that part of the experience to which the adult gives attention although early childhood education does not have to occur in the absence of the parent or primary caregiver this term is sometimes used to denote education by someone other than these the parent or primary caregiver both research in the field and early childhood educators view the parents as an integral part of the early childhood education process early childhood education takes many forms depending on the theoretical and educational beliefs of the educator or parent other terms that is often used interchangeably with early childhood education are early childhood learning early care and early education much of the first two years of life are spent in the creation of a child's first sense of self or the building of a first identity because this is a crucial part of children's makeup how they first see themselves how they think they should function how they expect others to function in relation to them early care must ensure that in addition to carefully selected and trained caregivers links with family home culture and home language are a central part of program policy if care becomes a substitute for rather than a support of family children may develop a less than positive sense of who they are and where they come from because of their child care experience

Critical Perspectives on Project Head Start 1998-09-11
