sherlock holmes for solution during the years of our intimacy there were only two which i was the means of introducing to his notice that of mr hatherley s thumb and that of colonel warburton s madness of these the latter may have afforded a finer field for an acute and original observer but the other was so strange in its inception and so dramatic in its details that it may be the more worthy of being placed upon record even if it gave my friend fewer openings for those deductive methods of reasoning by which he achieved such remarkable results the story has i believe been told more than once in the newspapers but like all such narratives its effect is much less striking when set forth en bloc in a single half column of print than when the facts slowly evolve before your own eyes and the mystery clears gradually away as each new discovery furnishes a step which leads on to the complete truth at the time the circumstances made a deep impression upon me and the lapse of two years has hardly served to weaken the effect it was in the summer of 89 not long after my marriage that the events occurred which i am now about to summarize i had returned to civil practice and had finally abandoned holmes in his baker street rooms although i continually visited him and occasionally even persuaded him to forego his bohemian habits so far as to come and visit us my practice had steadily increased and as i happened to live at no very great distance from paddington station i got a few patients from among the officials one of these whom i had cured of a painful and lingering
