manifestos an american captain tells the story of his unit of artillery in the front lines of the western front through the battles of st mihiel and the argonne to the ceasefire an acclaimed classic account of an american officer whose battery fought bravely as part of the american expeditionary forces in 1918 the unedited journal which was kept by the author on his person at all times is a gem of reportage filled with scenes that vividly portray the battle front and at times the sheer brutality of war his unit were cited for their accurate and deadly work with their french made 75 mm guns and despite the unit not often being more than 1000 yards away from the trenchlines the efficiency of the battery allowed the author time to write not polished or damaged by post war editing the author s diary retains its freshness and immediacy of the shell torn trenches of the french countryside diary august november 1918 of a u s field artillery unit 75mm guns attached to the 33rd division one of the best american artillery accounts p 120 edward lengel world war i memories 2004 the scarecrow press lanham maryland toronto oxford describes first hand accounts of world war ii from those who lived through it provided by publisher approaches the topic of world war ii from the perspective of those fighting in it at the front line draws on a plethora of letters diaries and documents written by over 300 australian soldiers in the field to present a picture of the hardships and triumphs of their wartime experience mark johnston analyses the suffering of front line soldiers caused not only by the opposing force but also by the conditions imposed by their own army the book details the physical and psychological pressures of life at the front and shows how soldiers survived or surrendered to unbearable environments fear boredom and the constant threat of impending death the myths of mateship and equanimity are brought under scrutiny much hostility can be explained by competition

between ranks and the perceived hostility of superiors the author investigates the immense strain that led to many breakdowns and the characteristic forbearance that saw so many others through real leadership that leads to high engagement higher performance and a culture of accountability as president and ceo of scripps health one of america s most prestigious health systems chris van gorder presided over a dramatic turnaround catapulting scripps from near bankruptcy to a dominant market position while hospitals and health systems nationwide have laid people off or are closing their doors scripps is financially healthy has added thousands of employees even with a no layoff philosophy and has developed a reputation as a top employer what are the secrets to this remarkable story in the front line leader chris van gorder candidly shares his own incredible story from police officer to ceo and the leadership philosophy that drives all of his decisions and actions people come first van gorder began his unlikely career as a california police officer which deeply instilled in him a sense of social responsibility honesty and public service after being injured on the job and taking an early retirement van gorder had to reinvent himself taking a job as a hospital security director a job that would change his life through hard work and determination he rose to executive ranks eventually becoming ceo of scripps but he never forgot his own roots and powerful work ethic or the time when he was a security officer and a ceo would not make eye contact with him van gorder leads from the front lines making it a priority to know his employees and customers at every level his values learned on the force protecting the community educating citizens developing caring relationships and ultimately doing the right thing shape his approach to business as much as companies talk about accountability managers seldom understand what practical steps to take to achieve an

ethic of service that makes accountability meaningful the front line leader outlines specific tactics and steps anyone can use starting today to take responsibility inspire others and achieve breakout results for their organizations van gorder reveals how a no layoff philosophy led to higher accountability how his own attention to seemingly minor details spurred larger change and how his own high standards for himself and his team improved morale and productivity from general strategy to the tiny everyday steps leaders can take to create the kind of culture and accountability that translates into major competitive advantage the front line leader charts a path to better leadership and a more engaged higher performing organization front lines documents the literary practices of imperial spain s common soldiers the epic poems chronicles ballads and autobiographies that these soldiers wrote at the front provide a critical view from below on state violence and imperial expansion this memoir by a scottish doctor who was born and went on to work in govan was found among family papers long after his death in 1972 less an account of the author s inner life it is a graphic narrative by a practitioner in the hospitals and homes of a major city of hands on medical care during much of the twentieth century after training as a medical student on the wards of glasgow hospitals at the outbreak of the first world war the young doctor joined the army and served as a medical officer for the duration early on he provides a shattering account of the hopeless slaughter at gallipoli where he survived almost certain death many times as his companions fell around him only 100 men survived of his battalion of 1 000 his later service in the middle east and mesopotamia is an astonishing tale of courage and endurance interwoven with spells of leave during which the scot encountered exotic experiences undreamed of in govan after the war glen became a gp in govan one
