preface 1 the sociology of social problems the sociological approach social movements and social problems consequences of actions taken on social problems perspectives on social problems and social programs sociological perspectives on social problems research on social problems part one deviance and social variations 2 crime and delinquency the nature and extent of crime crime causation theories types of crimes the criminal justice system how to reduce crime and delinquency 3 emotional and behavioral problems the nature and extent of emotional and behavioral problems mental health issues social structure and mental illness treatment 4 drug abuse drugs and society facts about and effects of commonly used drugs rehabilitation programs suggestions for curbing drug abuse in the future 5 variations in human sexuality sex in history and in other cultures sex variances rather than sex problems tolerated sex variance asocial sex variance structural sex variance personal sexual concerns part two inequality problems 6 racism and ethnocentrism ethnic groups and ethnocentrism prejudice discrimination and oppression background of racial groups strategies for advancing social and economic justice the future of american race and ethnic relations 7 sexism the history of sexism sexual harassment sex roles and sexism biology or socialization consequences of sexism recent developments and the future 8 ageism an overview problems faced by the elderly current services the future 9 poverty poverty in the united states programs to combat poverty part three troubled institutions 10 family the american family past and present problems in the family social change and the future of the american family 11 health care physical illnesses and the health care system problems in health care aids proposed programs to combat health care 12 education problem areas in education improving education toward equal educational opportunity 13 big business technology and work big business technology work problems with work regulating big business and technological development current and proposed solutions to work problems part four problems of a changing world 14 violence terrorism and war types of violence causes of violence approaches to reducing violence 15 urban problems history of cities urban and rural areas defined an urbanizing world theories on the effects of urbanism problems confronting central cities strategies to improve urban areas 16 population rapid population growth and overpopulation 17 environment environmental problems general pollutants confronting environmental problems epilogue glossary notes photo credits name index subject index hh06 the analysis of social problems linda r weber state university of new york h4166 8 300 pp 6 x 9 0 205 14166 8 paperback 1995 15 00nk november this book takes an analytical approach to the study of social problems the author develops a conceptual framework from which to understand social problems helping students integrate detailed materials found in traditional social problems books the book provides readers who have no sociological background with an overview background of sociology its theory and methods presents a sense of sociological attitude and appreciation of world problems this text takes a balanced approach to social problems as it moves from macro to micro problems a strong cross cultural emphasis throughout the book is bolstered by special focus on sections which highlight particular social problems in other countries at the end of each chapter connections sections link the particular social problem discussed in that chapter with other social problems to explicitly demonstrate that social problems don t occur in isolation companion reader to anna leon guerrero s social problems 2nd edition social problems and inequality explores integrated and root cause based explanations of complex social problems written in clear and understandable language allowing it to be used for classroom purposes it addresses the most fundamental principles of how humans acting through social units create and eventually can remedy social problems with a central focus on the problem of inequality and the manner in which this is manifested in crime social

class and stratification this book examines the key theoretical perspectives relevant to the study and solution of social problems whilst drawing upon rich illustrations and case studies from the us and europe to offer a thorough examination of the nature common root causes and social remedies of social problems providing discussions of both theoretical approaches and concrete applications social problems and inequality investigates the sources of various prejudices and attitudes that contribute to social problems and the associated issues of globalization economic greed and imperialism accessible in style and comprehensive in its coverage this book will appeal to students and scholars of social problems across the social sciences the future of the sociologist s profession is jeopardized by an ongoing trend toward the politicization of sociology and the radicalization of social problems this book calls for the rethinking of the culture of social political and economic liberty to create a resurgence of a sociological agenda social problems in a free society offers an original perspective on social problems such as violations of the principles of individual rights and the free market this book is a vision for reinvigorating the discipline in a fashion undreamt of within the wearisome strains of today s radical social problems theory karl pearson s social problems delves into the root causes of social issues and proposes solutions for these problems pearson brings together his extensive research in sociology and his personal experience to present a compelling and relevant analysis of society s most pressing issues this book is essential reading for anyone interested in understanding the complexities of social problems and working towards a more just world this work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it this work is in the public domain in the united states of america and possibly other nations within the united states you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public we appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant from terrorism to social inequality and from health care to environmental issues social problems affect us all the encyclopedia will offer an interdisciplinary perspective into these and many other social problems that are a continuing concern in our lives whether we confront them on a personal local regional national or global level this theoretically balanced text provides the latest research findings and a consistent structure to help students analyze major social problems facing the united states the authors present both sides of an argument with a neutral voice and use a down to earth writing style when students complete this text not only do they gain a sociological understanding of social problems but also they are able to explore and evaluate their own opinions about specific social problems they will gain a greater awareness of the social forces that shape their orientations to social problems and their perspectives on social life the ideas in this book then can penetrate students thinking and give shape to their views of the world social problems aims to not only introduce students to the key social problems discussed in most courses but also to show them that change is possible by introducing them to key social movements working to solve some of these social problems provides a comparative perspective on the state of social problems and deviance in a variety of societies around the world this book explores the theory of the weakness of the strong in other words strong or wealthy nations may have greater vulnerability to some social problems than less developed or affluent societies this compact and affordable text serves as an introduction to a wide range of social problems social problems second edition is unique in that all chapters are organized in a consistent format beginning with the definition and prevalence of the social problem covered followed by levels of causation consequences and interventions this brief reader examines a number of organized movements that have successfully brought about reform and change from the bottom up reproduction of the original sociology and modern social problems by charles a ellwood solutions to social problems is the only reader on the market to look at how other countries solve their social problems in order to help the u s solve its own this reader offers an emphasis on solving social problems a topic that is lacking in most social problems textbooks many of today s social problems poverty crime racism sexism drug abuse unequal access to quality health care or education threats to the environment over population can seem intractable james a

crone s how can we solve our social problems third edition is designed to give students studying these types of social problems a sense of hope unlike the standard survey texts that focus heavily on the causes and consequences of problems this book is devoted to analyzing possible solutions it maintains a sense of sociological objectivity throughout and without moralizing describes what could be done in america and on a global scale through government policies private sector initiatives and the collective actions of citizens to address even our most pervasive social problems textbook in sociology and social pathology presenting fundamental contemporary social problems comprises papers and excerpts from published material on such issues as police violence the social system in the concentration camp the horror of nuclear war crime and poverty mental health social structure and anomie social psychology youth unrest among university students employment discrimination black life and the social process sociological factors in addiction to drugs etc references and statistical tables excerpt from social problems outlines and references social problems outlines and references offers to high school seniors a course which presents some of the ethical and sociological implications that underlie our civic and economic activities the course aims to widen the student s societary outlook to enlarge his reading horizon to suggest standards by which social values may be measured and to inspire him with a spirit of community idealism about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at forgottenbooks com this book is a reproduction of an important historical work forgotten books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy in rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition we do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

using an eclectic and comprehensive blend of theoretical viewpoints to analyze contemporary problems the author illustrates how social problems are socially constructed and provides many cross cultural examples of problems in other societies topics that are new or updated for the sixth edition include an expanded discussion of the sociological imagination and its role in helping to recognize and solve problems ch 2 new material comparing per capita consumption in most and least developed countries and on worldwide efforts to decrease the number of undernourished people ch 3 how the threat of terrorism affects those living and working in cities ch 4 an assessment of the 1996 welfare reform ch 6 public opinion about homosexuality civil unions and gay adoptions ch 7 legal decisions on college affirmative action policies ch 8 international terrorism ch 9 the stratification of health care in the u s and the social costs of lack of health care ch 11 club drugs like ecstasy rohypnol ghb and ketamine ch 13

essential readings in social problems provides students with a collection of engaging and thought provoking articles that deepen their understanding of the topics and themes discussed within courses that address social issues the anthology is organized into six distinct units the opening unit introduces readers to the concept of the sociological imagination which allows individuals to make connections between social structures and individual conditions to formulate social theories in unit 2 the readings examine the destructive nature of inequality causes of poverty issues related to gender inequality and more unit 3 focuses on the concept of deviance and how it applies to sexuality and crime units 4 and 5 explore the relationship between race ethnicity white privilege and social problems and the intersection of human health and environmental problems dedicated readings address the social construction of race biodiversity and more unit 6 the final unit offers readers a variety of proposed solutions for social problems with emphasis on social movements to combat economic inequality increasing authoritarianism and ecological crises designed to stimulate critical thought essential readings in social problems is an ideal supplementary text for courses in sociology and any other course that explores social challenges macionis s social problems is the only social problems text that explains how society frames social problems and solutions through politics the text analyzes social issues and policies using the concepts of sociological theory and the everyday language of politics this text helps students understand the attitudes and values that define the political spectrum in the united states once students know how social problems are defined by our society through politics and how the

policies to solve these problems are developed students are able to become involved in solving social problems through activism and political involvement this theoretically balanced text provides the latest research findings and a consistent structure to help students analyze major social problems facing the united states henslin presents boths sides of an argument with a neutral voice and has a down to earth writing style when students complete this text not only do they gain a sociological understanding of social problems but also they are able to exploreand evaluatetheir own opinions about specific social problems they will gain a greater awareness of the social forces that shape their orientations to social problems and their perspectives on social life the ideas in this book then can penetrate students thinking and give shape to their views of the world
