

# Free ebook End of the nation state the rise of regional economies [PDF]

has globalization forever undermined the state as the mighty guarantor of public welfare and security in the 1990s the prevailing and even hopeful view was that it had the euphoria did not last long today the return of the state is increasingly being discussed as a desirable reality this book is the first to bring together a group of prominent scholars from comparative politics international relations and sociology to systematically reassess through a historical lens that moves beyond the standard focus on the west state society relations and state power at the dawn of the twenty first century the contributors examine the sources and forms of state power in light of a range of welfare and security needs in order to tell us what states can do today they assess the extent to which international social forces affect states and the capacity of states to adapt in specific issue areas their striking conclusion is that states have continued to be pivotal in diverse areas such as nationalism national security multiculturalism taxation and industrial relations offering rich insights on the changing contours of state power the nation state in question will be of interest to social scientists students and policymakers alike john hall s introduction is followed by chapters by peter baldwin john campbell francesco duina grzegorz ekiert jeffrey herbst christopher hood anatoly khazanov brendan o leary t v paul bernard yack rudra sil and minxin pei the conclusion is by john ikenberry are nation states obsolete are multination states viable can we really create powerful supranational institutions these are the questions that celebrated authors and specialists attempt to answer in this important collection of articles the work contains theoretical essays and case studies by philosophers sociologists political scientists and governmental analysts that provide state of the art analyses of the situation of the nation state as it is developing all over the world in the new millennium there are different concepts of nationhood and different forms of national consciousness ethnic civic cultural socio political and diasporic there are also different ways for nations to be present on any given territory as immigrant groups as extensions of neighbouring national majorities as minority nations or as majority nations there are also different policies adopted toward different groups bilingualism multiculturalism interculturalism collective rights etc finally there are different sorts of political arrangements nation state multination state confederation of sovereign states multinational federation federation of nation states supranational institutions etc the enormous complexity of these issues explain why nations nationalism and nation states have been so difficult to understand the theoretical essays contained in this volume are sensitive to all those issues the authors examine the foundations of nationalist thinking and the justifications behind the nation state model they also reflect upon the nation building policies politics of recognition and issues related to globalization the case studies investigate countries or regions such as ireland scotland catalonia the balkans russia usa finland india indonesia the european union and canada traces the genesis of the nation state its rise as a form of organization and its expansion from europe to america asia and africa drawing on historical economic and political analysis of the nation state and its enemies the authors argue that the time has come for a reappraisal of its role the first english translation of the 1993 french publication speculating on the future demise of the nation state guthenno contends that economic globalization implies a future without geographical boundaries and a restructuring of political power he discusses the european union as an example of nation state and territory shows that national identities are as potent as ever today many conflicts rage over places and territories of historical linguistic and religious significance most analyses of conflicts only consider the economic and geostrategic value of territory george w white shows that national identity is intimately bound to specific places and territories by cultural ties nation state and territory are mutually defining and reinforcing phenomena and through careful analysis white provides a better understanding of the interactions and conflicts of the world s nation states jacket opello rosow argue that the current neoliberal state does not represent a new form but is an attempt to reconstitute the managerial state in the context of globalization almost all successful nation state projects have been associated with a particular political institution prior to independence the segment state this text clarifies this link through narrative evidence from central eurasia a rigorous theory and extensive statistical tests in nation states richard lee hough interprets the role of the nation state analyzing the factors that impinge on its viability and correcting the present tilt in numerous commentaries positing or prophesying its decline hough seeks to balance or refute those who in various ways see the degeneration of the modern nation state the decline of the nation state attempts to explain the historical and contemporary causes that have given rise to the current explosion of nationalist movements in western europe the text also discusses the course these movements may take in the future since its publication this important study has become established as a central work on the vast and contested subject of modern nationalism placing historical evidence within a general theoretical framework john breuilly argues that nationalism should be understood as a form of politics that arises in opposition to the modern state in this

updated and revised edition he extends his analysis to the most recent developments in central europe and the former soviet union he also addresses the current debates over the meaning of nationalism and their implications for his position breuilly challenges the conventional view that nationalism emerges from a sense of cultural identity rather he shows how elites social groups and foreign governments use nationalist appeals to mobilize popular support against the state nationalism then is a means of creating a sense of identity this provocative argument is supported with a wide ranging analysis of pertinent examples national opposition in early modern europe the unification movement in germany italy and poland separatism under the hapsburg and ottoman empires fascism in germany italy and romania post war anti colonialism and the nationalist resurgence following the breakdown of soviet power still the most comprehensive and systematic historical comparison of nationalist politics nationalism and the state is an indispensable book for anyone seeking to understand modern politics this major book by one of the great political and social historians of our time is a study of the force of nationalism a force that continues to shake our world reaching beyond nationalism as a doctrine beyond the content psychological origins and analysis of that doctrine the book represents and enquiry into all the important political move few political phenomena have proved as confusing or as difficult to comprehend as nationalism there is no established consensus on its identity genesis or future are we for example in the process of being thrust back into a nineteenth century world of competitive and aggressive great powers and petty nationalisms or rather are we being flung headlong into a new globalized and supra national millennium has the nation state outlived its usefulness and exhausted its progressive and emancipatory role or has nationalism always been implicated in an exclusivist ethnic and militaristic logic mapping the nation seeks to address these and other questions about the nature and destiny of the national question in the present epoch a comprehensive and definitive reader on the subject with contributions from some of the most significant and stimulating theorists of the nation state it presents a wide range of divergent ideas and controversies leading off with powerful statements of the classic liberal and socialist positions by lord acton and otto bauer there then follows an historical sociological debate between the late ernest gellner and the czech historian miroslav hroch the one stressing the connections between nationalism and the transition away from agrarian society the other emphasizing its variability and real anthropological basis john breuilly and anthony d smith two of the leading british specialists provide a counterpoint to each other with considerations on the respective importance of political leadership and continuing ethnic communities in the construction of nationalist movements gopal balakrishnan in a carefully honed critique of benedict anderson s seminal imagined communities and partha chatterjee from the subaltern studies circle offer crucial insights on the limitations of the enlightenment approach to nationhood as do sylvia walby and katherine verdery with their reflections on the entanglements of nation gender and identity politics sociologist michael mann delivers an authoritative refutation of the chatter about the death of the nation state finally relating the theoretical questions directly to the politics of our time renowned historian eric hobsbawm provocative theorist tom nairn and the outstanding political philosopher jürgen habermas discuss with varying degrees of optimism and pessimism the future of the national project an exceptional set of scholars assess every aspect of the most influential theory of nationalism does the democratic nation state remain a legitimate regime form in the current age of globalization sceptical assessments of the nation state s legitimacy and outright crisis diagnoses prevail in the academic literature especially in the contributions of public opinion researchers democracy s deep roots uses a novel text analytical approach to probe this topical question drawing on a comparative study of legitimation discourses in the quality press of four western democracies switzerland germany britain and the united states it shows that the levels and democratic foundations of public support for the nation state and its core institutions are surprisingly robust there is little evidence for the fully fledged erosion of legitimacy or for a transformation of its foundations in the public spheres of western democracies the book also identifies a number of discursive mechanisms that explain this finding and suggests an analytical frame work for future research into the communicative dimension of legitimation processes book jacket newly revised and updated this second edition is the classic economic and political account of the origins of the european community book offers a challenging interpretation of the history of the western european state and european integration

part iii concrete outcomes of equality in practice 6 everyday democracies daily equality in practice conclusion equality in practice appendix 1 countermeasures against inequality appendix 2 resources for equality in practice index a social history of central america and the spanish speaking caribbean that illustrates the importance of workers actions in shaping national history

the formation of the uzbek nation state is a detailed and insightful examination of the process of nation state formation in the central asian region in the post october revolution period based on a case study of uzbekistan author anita sengupta examines the role of language and religion in the formation of the uzbek nation state and demonstrates the continuous transition involved in such a process this book examines the history of the political demography of indonesia chronologically the book begins by introducing the colonization program as a predecessor of transmigration program after independence the transmigration program indonesia s state policy on migration is discussed at length in the book but other migration related issues are also presented to show the complex relationship between migration and other social economic and political issues in indonesia in the final chapter the book discusses the contemporary issues and challenges of disintegration that is facing indonesia as a nation state the book ends with an epilog that shows indonesia s political demography challenges in the 21st century anthems are symbolic means through which nations present themselves to the world accordingly creating seven new nation states out of the bones of yugoslavia required new anthems why did these new states opt for century old national songs or failing this for the anthems without words what are the images and symbols that each of these states chose as their national signatures and how were these chosen this book explores a variety of images of nationhood or the absence of them in the lyrics of the official anthems and of competing national songs and traces their historical trajectory from the time of their conception to their legal entrenchment this is the first full length study into the symbolic representations of nationhood in the recently created nation states of the balkans

this outstanding compendium of articles on europe s military situation as we enter the new millennium has been compiled under the aegis of the georgemarshal european center for security studies the leading analysts of military studies in every major nation of europe are included along with three overview pieces that set the tone and content for this nicely integrated volume the opening pieces by martin shaw on the evolution of a common risk society christopher dandeker on the military in democratic societies and wilfried von bredow on the re nationaliation of military strategy set the tone for the work as a whole although the cold war is now a decade removed from the new europe the challenges of transition to new defense systems and institutional structures still confront those who plan the future for the military establishments of europe the individual country studies contained in this volume as well as the final analysis of the trends and probable future developments in europe should be required reading throughout the national security structure for politicians and decision makers seeking to understand the dilemmas facing european militaries and the societies they defend the country chapters cover a wide range of nations jean callaghan examines the bulgarian armed forces after its 1997 elections marievlachova and stefan sarvas review civil military relations in the czech nation jano sabo studies the role of the defense sector in hungary adriana stanescu sees romania as a case of delayed modernization paul klein and jurgen kuhlmann review the german armed forces in the context of a peace dividend bernard boene and didier danet consider france in the light of the post draft situation marina nuciari and giuseppe caforio consider the italian military in a democratic context finally jan van der meulen and his colleagues look upon the netherlands military as a case study in post modernization the final contribution is a summary report by the editors on the lessons that have been learned in assessing the contemporary civil military complex in all this is a state of the art volume on the state of the armed forces in europe

this collection examines the ways in which women have used political rhetoric and political discourse to provide leadership or assert their right to leadership at the national level while over the years women have broken through traditional roles they are still underrepresented in political leadership in this text scholars consider the various factors that continue to restrict political leadership opportunities for women as well as some of the ways in which individual women have strategically sought to enact political power and leadership for themselves the contributors analyze various case studies of leadership positions at the national level looking at women who have run been nominated to run or appointed to national positions the interdisciplinary approach lends itself to rhetoric political rhetoric political discourse leadership studies women s studies gender issues satire pop culture since 1945 the world has moved haltingly but relentlessly toward internationalism and with the end of the cold war and the apparent dominance of the west and its democratic and free market systems that march toward internationalism has proceeded apace seemingly unstoppable or is it with the asian financial contagion spreading worldwide the russian democratic experiment coming undone and cultural ethnic violence flaring up around the world one wonders ambassador m d oller examines some of the major trends in the world system as we approach the new millennium the stresses of globalization the future role of the nation state the free market system versus state managed capitalism and

democratic pluralism versus asian islamic african and other values and he brings to this examination his background as a futurist as a trade and economic affairs negotiator in the european union and as ambassador to singapore one country where all these dynamics are at work the larger question raised by ambassador m d oller is are we poised on the brink of a new and truly internationalism millennium or is this a sort of neo wilsonian phase destined for an abject and abrupt end this book will be of interest to concerned citizens futurists and scholars and students of international relations around the world asia has long been an ideological battleground between capitalism and communism between nationalism and westernisation and between the nation state and globalization this book is a history of the asian region from 1945 to the present day which delineates the various ideological battles over asia s development subjects covered include theories of development decolonization us political and economic intervention the effects of communism the end of the cold war the rise of neo liberalism asia after the crisis asia in the era of globalisation broad in sweep and rich in theory and empirical detail this is an essential account of the growth of asian miracle and its turbulent position in the global economy of the twenty first century nations and capital the missing link in global expansion is a groundbreaking analysis of the ultimate reasons for the emergence of nations and nationalism as a socio political and geopolitical instrument in the global expansion of capitalism the author provides the missing link in the relationship between nationalism and capitalism and offers a comprehensive critique of classical theories of nationalism well illustrated by historical examples he develops an original theory of nations and nationalism relying on the assumption that the incessant widening of the gap between the capitalist elites and the labouring masses inevitably makes the endless accumulation of capital socially unsustainable bridging that gap without changing the structure of society becomes the paramount task for the system which has to introduce nationalism as a social glue tailored to conceal but also to cement the actual polarisation of society this book will be of great interest to advanced undergraduate students postgraduate students and researchers in political science sociology history international relations security studies social and political theory and nationalism studies

citizenship policies are changing rapidly in the face of global migration trends and the inevitable ethnic and racial diversity that follows the debates are fierce what should the requirements of citizenship be how can multi ethnic states forge a collective identity around a common set of values beliefs and practices what are appropriate criteria for admission and rights and duties of citizens this book includes nine case studies that investigate immigration and citizenship in australia the baltic states canada the european union israel mexico russia south africa and the united states this complete collection of essays scrutinizes the concrete rules and policies by which states administer citizenship and highlights similarities and differences in their policies from migrants to citizens the only comprehensive guide to citizenship policies in these liberal democratic and emerging states will be an invaluable reference for scholars in law political science and citizenship theory policymakers and government officials involved in managing citizenship policy in the united states and abroad will find this an excellent accessible overview of the critical dilemmas that multi ethnic societies face as a result of migration and global interdependencies at the end of the twentieth century

**The Nation-State in Question** 2020-11-10 has globalization forever undermined the state as the mighty guarantor of public welfare and security in the 1990s the prevailing and even hopeful view was that it had the euphoria did not last long today the return of the state is increasingly being discussed as a desirable reality this book is the first to bring together a group of prominent scholars from comparative politics international relations and sociology to systematically reassess through a historical lens that moves beyond the standard focus on the west state society relations and state power at the dawn of the twenty first century the contributors examine the sources and forms of state power in light of a range of welfare and security needs in order to tell us what states can do today they assess the extent to which international social forces affect states and the capacity of states to adapt in specific issue areas their striking conclusion is that states have continued to be pivotal in diverse areas such as nationalism national security multiculturalism taxation and industrial relations offering rich insights on the changing contours of state power the nation state in question will be of interest to social scientists students and policymakers alike john hall s introduction is followed by chapters by peter baldwin john campbell francesco duina grzegorz ekiert jeffrey herbst christopher hood anatoly khazanov brendan o leary t v paul bernard yack rudra sil and minxin pei the conclusion is by john ikenberry

Fate of the Nation State 2004 are nation states obsolete are multination states viable can we really create powerful supranational institutions these are the questions that celebrated authors and specialists attempt to answer in this important collection of articles the work contains theoretical essays and case studies by philosophers sociologists political scientists and governmental analysts that provide state of the art analyses of the situation of the nation state as it is developing all over the world in the new millennium there are different concepts of nationhood and different forms of national consciousness ethnic civic cultural socio political and diasporic there are also different ways for nations to be present on any given territory as immigrant groups as extensions of neighbouring national majorities as minority nations or as majority nations there are also different policies adopted toward different groups bilingualism multiculturalism interculturalism collective rights etc finally there are different sorts of political arrangements nation state multination state confederation of sovereign states multinational federation federation of nation states supranational institutions etc the enormous complexity of these issues explain why nations nationalism and nation states have been so difficult to understand the theoretical essays contained in this volume are sensitive to all those issues the authors examine the foundations of nationalist thinking and the justifications behind the nation state model they also reflect upon the nation building policies politics of recognition and issues related to globalization the case studies investigate countries or regions such as ireland scotland catalonia the balkans russia usa finland india indonesia the european union and canada

After the Nation-state 1994 traces the genesis of the nation state its rise as a form of organization and its expansion from europe to america asia and africa drawing on historical economic and political analysis of the nation state and its enemies the authors argue that the time has come for a reappraisal of its role

The End of the Nation-state 1995 the first english translation of the 1993 french publication speculating on the future demise of the nation state guthenno contends that economic globalization implies a future without geographical boundaries and a restructuring of political power he discusses the european union as an example of

**Nation, State, and Territory** 2004 nation state and territory shows that national identities are as potent as ever today many conflicts rage over places and territories of historical linguistic and religious significance most analyses of conflicts only consider the economic and geostrategic value of territory george w white shows that national identity is intimately bound to specific places and territories by cultural ties nation state and territory are mutually defining and reinforcing phenomena and through careful analysis white provides a better understanding of the interactions and conflicts of the world s nation states jacket
