concentrating on the russian model this book reflects the leading practical experience of decision making in modern business systems and presents innovative technologies and perspectives to optimize this process

## **Quantitative Methods for Business Decisions 1980-01-01**

how do executives make decisions are their decisions conscious or unconscious can they explain each decision they make what tools can they use to improve their decision making process these are some of the questions this book addresses during the past 35 years as an entrepreneur and senior executive of several medium sized canadian hi tech businesses the author noticed that his decision making processes were often based either on experience or on advice received from colleagues seldom were the decisions based on formal or informal academic based methods there is no substitute for years of experience in any human endeavor however tapping into some of the methods and lessons learned from personal experience can result in useful principles for others to follow these principles are very useful especially for entrepreneurs interested in building their businesses or executives looking for some additional help in acquiring a better decision making mousetrap

## **Quantitative Analysis for Business Decisions 1977**

everybody has to make decisions they are unavoidable yet we receive little or no education or training on how to make decisions business decisions can be difficult personal decisions even more so even if you make the correct business decision you still have to get buy in and commitment from your team other management and key stakeholders to implement it when making personal decisions one has to take into account one's spouse or family or friends in order for the decision to fully succeed the goal of

decision analysis for managers is to â€ clarify and reach alignment on goals and objectives and understand trade offs in reaching those goals â€ develop and examine alternatives â€ systematically analyze the effects of risk and uncertainty and â€ maximize the chances of achieving your goals and objectives
