teaching literature unit based on the popular children s story to kill a mockingbird in the twisted minds of men who murder again and again life sex pain and death are fashioned into a terrible compulsion to kill otherwise rather ordinary men serial killers turn to violence and death in search of power over others and to explore their own monstrous sexual identity that is what their killing is really all about although it takes many different forms while their behaviour has been insane however they are rarely locked away in mental institutions to be judged legally insane one cannot understand the wrongness or consequences of one s crimes but these men plan and commit not one but a series of premeditated murders and then skillfully elude capture they may indeed be compelled to kill but they are not insane in the eyes of the law when society finally sweeps up such predators their very cunning ensures them a life behind bars or a place on death row the fbi estimate that there are between 25 and 50 serial killers at large in the usa at any given time but the truth is few people kill we occasionally say we could kill someone but that is usually hyperbole most of us can imagine what it might be like to be driven to a senseless act of violence in an unendurable situation to kill once is one thing to kill over and over again is quite another what drives these people who kill and kill again are they evil or are they mad serial killing is a worldwide phenomenon and no two killers are alike each one comes with a grisly though compelling tale that takes the reader to the darkest reaches of the human psyche in voting to kill author jim geraghty offers a comprehensive look at why recent elections have given the republican party its greatest political success since the 1920s despite a lot of talk about values problems within the gop red state culture and the slow but vital progress in iraq the biggest difference between the two parties remains the subject of safety as the democrats continue to project an image of confusion and pacifism even in the face of increasingly vicious terrorist activity in the middle east more americans trust the gop to be ruthless in killing terrorists from security moms to neo jacksonian bloggers people across the country are confronting the post 9 11 era with white knuckle anger and relentless determination voting to kill captures this zeitgeist showing why terrorism was the defining issue in 2002 and 2004 and will be in 2006 and 2008 as republicans rev up instinctively hawkish americans to vote and campaign as if their lives depend on it a triumph nadelson s legacy is a brilliant book that concisely lays out the unrelenting madness of war by examining the psychological carnage it inflicts on the men who survive san diego union tribune people are dying the town of leadville the question is what do an ancient retired professor the drunken editor of the local newspaper a mother a sweet little old lady a laundry was a retired professor poor and not the most likely prey for a robber chester is left to die with his throat slit and his rundown house burning by the time the sheriff and emergency crew mother searches for answers in the shocking murder of her husband and conviction of her son in the early morning of october 18 1986 cherie wier s life collapses when her teenage son takes the life of her beloved husband for years cherie grapples with events preceding and following the crime struggling to overcome the consuming grief she suffers from her loss and the difficulty she faces as she this early air atomic era to a later period 1950 1965 in which the soviet union s atomic capability accelerated by thermonuclear weapons and ballistic missiles made american strategic assets vulnerable and gradually undermined air atomic strategy kaplan throws into question both the inevitability and preferability of the strategic doctrine of mad he looks at the process by which cultural institutional and strategic ideas about mad took shape and makes insightful use of the comparison between generals who thought they could win a nuclear war and the cold institutional logic of the suicide pact that was mad kaplan also offers a reappraisal of eisenhower s nuclear strategy and diplomacy to make a case for the marginal viability of air atomic military power even in an era of ballistic missiles you disgust me you re nothing but a bloodthirsty monster i shouted at him and in return he laughed maliciously i know love i didn t need your confirmation he said in a tough tone i the ethics of violence can violence be justified when should we fight how should we fight and in situations when things have gone badly may we kill these questions are not only for politicians soldiers and police officers but are also important considerations for civilians whose lives do not normally intersect with violence whether advocating for government policies marching in the streets scrutinizing these ethical theories the reader is encouraged to critically examine occasions for the use of force from a moral perspective whether nations at war or violent encounters in our own might be based on an extensive review of the newspaper medical and social science literature the authors propose a comprehensive typology of maternal filicide answering the question why what would drive a mother to kill her own child these mothers are not a homogenous group in obvious ways intervention strategies should differ for a teenager who denies her pregnancy and then kills her newborn
