*Generating Nursing Science in the Global Community* 1995 the migration conference 2017 hosted by harokopio university athens from 23 to 26 august the 5th conference in our series the 2017 conference was probably the largest scholarly gathering on migration with a global scope human mobility border management integration and security diversity and minorities as well as spatial patterns identity and economic implications have dominated the public agenda and gave an extra impetus for the study of movers and non movers over the last decade or so throughout the program of the migration conference you will find various key thematic areas are covered in about 400 presentations by about 400 colleagues coming from all around the world from australia to canada china to mexico south africa to finland we are also proud to bring you opportunities to meet with some of the leading scholars in the field our line of keynote speakers include saskia sassen oded stark giuseppe sciortino neli esipova and yüksel pazarkaya

Health and Health Care in South Africa 2004 this is the first practical guide for nurses on how to incorporate the knowledge skills and tools of strength based nursing care sbc into everyday practice the text based on a model developed by the mcgill university nursing program signifies a paradigm shift from a deficit based model to one that focuses on individual family and community strengths as a cornerstone of effective nursing care the book develops the theoretical foundations underlying sbc promotes the acquisition of fundamental skills needed for sbc practice and offers specific strategies techniques and tools for identifying strengths and harnessing them to facilitate healing and health the testimony of 46 nurses demonstrates how sbc can be effectively used in multiple settings across the lifespan

The Broken Bridge 1998-07 awarded first place in the 2017 ajn book of the year awards in psychiatric and mental health nursing this book introduces an innovative technique for therapeutic communication in mental health nursing expanding the toolkit for nurses seeking to engage challenging patients who have not responded to more conventional therapeutic methods linking nursing communication to current research on metaphor and figuration it is illustrated with accessible clinical examples metaphor is a key component of talk based psychotherapies but many of the patients whom nurses encounter in the inpatient setting are not good candidates for talk based approaches at least initially because they are violent withdrawn highly regressed or otherwise lacking a vocabulary to convey thoughts and feelings this book offers specific clinical examples of an approach called the gestural bridge this is a method for structuring games and physical activities which connect metaphorically to a patient s

personal themes activating narrative and observational agency and enabling an exchange of meaning to begin at a time when conventional language is not available rooted in what nursing theorists have called the embodied or aesthetic way of knowing this approach is both specific and easily grasped drawing from contemporary work in literary theory semiotics metaphor theory cognitive science philosophy linguistics psychoanalysis and the arts therapeutic communication in mental health nursing is important reading for advanced level practitioners students and researchers interested in communication and relationship building in nursing

**Parish Nursing** 1999-01-11 dorman and de chesnay offer a wealth of valuable information students and other healthcare providers would normally not receive until they were in the trenches of their global experience they deliver nuances of ideology about care and disease from a number of different countries what global health policy entails and means to healthcare providers traveling the world along with case studies from a number of guides experienced global experts lorna kendrick phd aprn pmhcn bc professor and director school of nursing california state university san marcos from the foreword case studies in global health policy nursing unpacks key global health issues and analyzes the surrounding health care policies and their impact through case studies designed specifically for graduate nursing students this text explores the implications of global initiatives designed to eradicate disease and promote physical and mental health as globalization takes a front row seat in the digital age and political dynamics shift more rapidly than ever possibilities and opportunities for health care have arisen beyond the hospital based focus especially for diseases and trends that cross continental divides every case study contains a multidisciplinary perspective featuring contributions by expert nurses public health professionals and policy researchers presented in a consistent format for ease of use each case study includes an overview background relevant research and in depth information on its significance as a critical global issue this text covers critical current topics such as health care for transgender individuals refugees and patients on the autism spectrum as well as ongoing problems like access to clean water hiv aids and human trafficking end of chapter exercises reinforce content and supplementary instructor materials are available key features delivers topical in depth examination of key global issues for graduate level nursing students provides consistent format for each case study for ease of use presents an interdisciplinary approach with content from expert nurses public health professionals and policy researchers
