guide to effective grant writing how to write a successful nih grant is written to help the 100 000 post graduate students and professionals who need to write effective proposals for grants there is little or no formal teaching about the process of writing grants for nih and many grant applications are rejected due to poor writing and weak formulation of ideas procuring grant funding is the central key to survival for any academic researcher in the biological sciences thus being able to write a proposal that effectively illustrates one s ideas is essential covering all aspects of the proposal process from the most basic questions about form and style to the task of seeking funding this volume offers clear advice backed up with excellent examples included are a number of specimen proposals to help shed light on the important issues surrounding the writing of proposals the guide is a clear straight forward and reader friendly tool guide to effective grant writing how to write a successful nih grant writing is based on dr yang s extensive experience serving on nih grant review panels it covers the common mistakes and problems he routinely witnesses while reviewing grants applying for a grant may at first glance seem fairly easy however the reality is that getting your grant application to be accepted is more difficult than you might think yet the ability to get grant funding could be the difference between success and failure for any small business or non profit organization there s only a finite amount of funding available and once denied it can be hard to break back into the inner circle again therefore every application that s submitted really must be top quality this book is designed to help you succeed when applying for grants following these guidelines you ll have much better chances of being approved for grants that can result in the difference between a struggling business and a thriving one the department of health and human services has identified acquired immunodeficiency syndrome aids as the foremost public health problem in the united states the centers for disease control cdc report that as of december 31 1994 there were 441 528 documented cases of aids in this country and the number is increasing aids is an illness characterized by a defect in natural immunity against disease many more individuals are known to be infected with human immunodeficiency virus hiv but do not have symptoms or the defining characteristics of aids the incubation period for aids may range from 1 to 10 or more years in adults and 6 months to several years in children infected persons appear to be capable of transmitting infection indefinitely even if they remain asymptomatic in order to increase the number of minority investigators conducting research on hiv infection and 1 aids nimh conducted a 3h day technical workshop for minority investigators on july 24 27 1990 in fairlakes virginia university based research programs were asked to nominate investigators who were selected on the basis of a referred 10 page prospectus for a proposed research project this procedure was used because nimh wanted to be sure that the prospective investigators were established in a research environment that would pr this concise book takes the reader step by step through putting together a grant application for medical research written by leading researchers in epidemiology who have long experience in making grant applications themselves and assessing those from others this is a thoroughly practical tool the accompanying disk is an invaluable prompt during the actual writing of the application in a world where the opportunity to advance scholarly and scientific knowledge is dependent on the ability to secure sufficient funding researchers and scholars must write funding proposals that stand out from the competition the practical advice in this guidebook is designed to aid academics in writing successful applications at all stages of their careers this book will help grant applicants plan and craft funding proposals that are concise complete and impressive and that satisfy the mandates of the agencies to which they are applying applicants will learn how to avoid common writing blunders understand the central importance of the research budget overcome procrastination choose and secure professional references develop a career path with a view toward funding opportunities maintain a winning attitude that will improve the chances of success write an effective funding application details the all important preparation stage in drafting a grant application from identifying sources of funding and securing registration numbers to creating a schedule for meeting the application deadline it reviews the nuts and bolts of writing and polishing a winning application stressing the importance of logical thinking and thoughtful presentation the book includes detailed information on developing budgets before and after versions of proposals and descriptions of common pitfalls that everyone can avoid this concise guide covers the important angles of your grant application whether for a health research project or personal training programme and will help you be among the successful applicants the author a reviewer for grant funding organisations and internationally respected research scientist gives you the benefit of his experience from both sides of the process in this easy to use readable guide the book takes you through the grant application process explaining how to present the justification for the proposed project describe the study design clearly estimate the financial costs understand a typical review process and how this can influence the contents of the grant application the author provides practical advice on a range of project types observational studies clinical trials laboratory experiments and systematic reviews to increase the chance that your application will be successful there are also tips on what to avoid throughout the application with generic information about application requirements how to write a grant application is ideal for healthcare professionals seeking a health services or scientific grant this work has been selected by scholars as being culturally

important and is part of the knowledge base of civilization as we know it this work was reproduced from the original artifact and remains as true to the original work as possible therefore you will
