Writing, Documentation and Communication for Nurses 1998

this text covers standards of documentation principles of good written communication and general guidelines on documenting patient care in hospital and the community it also covers reports letter writing incident forms and legal issues

Introduction to Documentation Studies 2018-12-31

documentation has always been crucial in human society today almost all communication are being stored digitally in order to deal systematically and coherently with old and new media in the world today you have to deal with the physical as well as the social and cultural context alongside this there is now increasing interest in documentation theory and science and documentation studies has become a distinctly lively field of research as well as a basis for professional practice in libraries archives and museums this groundbreaking new book introduces and demonstrates the value and relevance of a new approach to the documentation communication and information field complementary to the traditional library information and archival sciences it offers an introduction to documentation studies a new discipline within the overall information studies umbrella and gives a broad and general theory for documentation it outlines the historical background and the theoretical foundation for the discipline by giving insight into documentation issues and processes from early modern society to today's digital age not only in the context of academic study but also in the practice of documentation both in everyday life and in professional life key topics covered include human life in a documentation perspective documentation in theory documentation a conceptual history a complementary theory of documentation a model for documentation analysis documentation in practice 6 case studies documentation in society the science and profession of documentation this unique text outlines the main scientific purpose and objective of the science of documentation to study documentation in society it also describes the main skills for a documentalist in the 21st century to be able to select collect and make accessible all documentation of possible interest for the general public as well as research this book will be pivotal reading for students advanced undergraduate and graduate researchers and faculty in library science information science records management publishing media studies cultural studies archival studies and information systems it will also be of interest to thoughtful professionals in libraries archives records and media 010

The Rhetoric of Risk 2003-01-30

the crash of an amtrak train near baltimore the collapse of the hyatt hotel in kansas city the incident at three mile island and other large scale technological disasters have provided powerful examples of the ways that communication practices influence the events and decisions that precipitate a disaster these examples have raised ethical questions about the responsibility of writers within agencies epistemological questions about the nature of representation in science and rhetorical questions about the nature of expertise and experience as grounds for judgments about risk in the rhetoric of risk technical documentation in hazardous environments author beverly sauer examines how the dynamic uncertainty of the material environment affects communication in large regulatory industries sauer's analysis focuses specifically on mine safety which provides a rich technical and historical context where problems of rhetorical agency narrative and the negotiation of meaning have visible and tragic outcomes but the questions sauer asks have larger implication for risk and safety how does writing function in large regulatory industries what can we learn from experience why is this experience so difficult to capture in writing what information is lost when agencies rely on written documentation alone given the uncertainties how can we work to improve communication in hazardous and uncertain environments by exploring how individuals make sense of the material technical and institutional indeterminacies of their work in speech and gesture the rhetoric of risk helps communicators rethink their frequently unquestioned assumptions about workplace discourse and the role of writers in hazardous worksites it is intended for scholars and students in technical writing and communication rhetoric risk analysis and risk communication as well as a wide range of engineering and technical

fields concerned with risk safety and uncertainty

Documentation Development Methodology 1986-08-01

conference report on an international seminar on documentation and automation in respect of science information covers technical aspects and economic implications of computerized information transfer and stresses the need for relevant international cooperation government policy and support references and bibliographies conference held in london 1966 november 22 to 24

Communication in Science 1967

best collection of essays ncte awards for excellence in technical and scientific communication effective documentation is a major sourcebook that offers technical writers editors teachers and students of technical communication a wide variety of practical guidelines based on often hard to find research in the usability of printed and electronic media the book's eighteen chapters provide a wealth of material on such topics of current interest as the writing of design manuals research in cognitive psychology as applied to the design of user manuals and the organizing of manuals for hierarchical software systems included are chapters by such well known scholars in the field as philip rubens robert krull judith ramey and john carroll effective documentation reviews the advice offered by other how to produce usable documentation books describing the different types of usability research and explaining the inherent biases of each type it goes beyond the actual design of textual and or electronic media to look at these designs in context giving advice on effective management good management is a requisite of good writing on the relationship between document design and product design and on how to find out who one's readers really are advances in the presentation of textual information are explained with suggestions on how to improve the usability of individual sentences and the design of entire books the concluding chapters discuss advances in the design and use of online information and offer valuable insights into the use of graphic information and the development and design of information communicated via electronic media stephen doheny farina is assistant professor of technical communication at clarkson university effective documentation is included in the information systems series edited by michael lesk

Effective Documentation 1988

excellent business communication skills are especially important for information management professionals particularly records managers who have to communicate a complex idea how an effective program can help the organization be better prepared for litigation and do it in a way that is persuasive in order to win records program support and budget six key communication skills for records and information managers explores those skills that enable records and information to have a better chance of advancing their programs and their careers following an introduction from the author this book will focus on six key communication skills be brief be clear be receptive be strategic be credible and be persuasive honing these skills will enable readers to more effectively obtain support for strategic programs communicate more effectively with senior management it personnel and staff and master key forms of business communication including written verbal and formal presentations the final chapter will highlight one of the most practical applications of applying the skills for records and information managers the business case based on real events the business cases spotlighted involve executives who persuaded organizations to adopt new programs these case histories bring to life many of the six keys to effective communication addresses communication skills specifically for records and information managers while clarifying how these skills can also benefit professionals in any discipline includes case history examples of how communications skills made a difference in business and or personal success focuses on written verbal and presentation skills where many books emphasize only one of these areas

Documentation Development Methodology 1984

this innovative guide brings together practical solutions to the documentation challenges faced by today's organizations from company policies and desk instructions to Baldrige and the ISO 9000 requirements it applies a customer and quality based systems approach to streamlining and managing your documentation system this second edition is an organized toolbox of powerful methodology and metrics that shows companies how to steer clear of cumbersome and obsolete documentation and gives numerous examples of the tremendous opportunities and pitfalls presented by technology such as the internet and web based documentation management software the Society for Technical Communication stc awarded this book the Touchstone 2001 award

Six Key Communication Skills for Records and Information Managers 2014-09-06

user manuals reference guides project documentation equipment specifications and other technical documents are increasingly subjected to high quality standards however it is not clear whether research efforts are keeping pace with this increasing importance of documentation quality this volume includes studies from researchers as well as practitioners exemplifying three approaches towards document quality product orientation with an eye for usability in various manifestations such as tutorials concept definitions tools for users of documentation to find information methods of eliciting user feedback and cultural differences process orientation in which the quality of technical documentation is regarded as an outgrowth of a process involving sub steps such as storyboarding pre testing and use of automation tools in writing and producing documents professional orientation in which attention is focused on those who create technical documentation the volume will be of interest to a broad audience of writers managers and trainers with technical and non technical backgrounds such as quality managers communication managers technical communicators trainers in computer usage teachers researchers and students of technical communication

The Practical Guide to People-Friendly Documentation 2001-06-30

this text aims to help people improve their ability to create documents that more accurately convey what they mean to say the author advocates a new approach to documentation management that promotes additional skills required for consistent decision making such as sensitivity

Quality of Technical Documentation 1994

most discussion about design seems to focus on the creative process yet turning concept into reality requires a strong set of deliverables the documentation concept model site maps usability reports and more that serves as the primary communication tool between designers and customers here at last is a guide devoted to just that topic combining quick tips for improving deliverables with in depth discussions of presentation and risk mitigation techniques author Dan Brown shows you how to make the documentation you're required to provide into the most efficient communications tool possible he begins with an introductory section about deliverables and their place in the overall process and then delves into the different types of deliverables from usability reports to project plans content maps flow charts wireframes site maps and more each chapter includes a contents checklist presentation strategy maintenance strategy a description of the development process and the deliverable's impact on the project and more

Communicating Design 2011

divided into three parts the first of which provides a linguistic definition of professional documents describing their different types and genres this definition necessarily takes into account both the formal characteristics of these types of document e g nature of linguistic units involved and their functional goals the way these linguistic units are used to fulfill the text s communicative aim the second part focuses on the mental mechanisms involved in written production in the workplace one of the aims of a professional writer is to compose a text which can be understood text composition involves specific processes and strategies that can be enhanced one way of doing this is to give the writer suitable instructions while another is to provide him her with a suitable writing environment this last aspect leads us to devote the third and final section to the comprehension of written documents in the workplace awareness of the strategies implemented by different readers with more or less domain expertise in order to understand technical and professional documents can enhance the latter s readability contributions from linguists psychologists and ergonomists from various countries ensure international scope and comprehensiveness bridges the gap between fundamental research into writing and reading and the issue of the efficiency of written communication in the workplace enables better content creation for professional writers

Selected Bibliography of Documentation and Information Science 1967

the art of technical documentation presents concepts techniques and practices in order to produce effective technical documentation the book provides the definition of technical documentation qualities of a good technical documentation career paths and documentation management styles precepts of technical documentation practices for gathering information understanding what you have gathered and methods for testing documentation and considerations of information representation to provide insights on how different representations affect reader perception of your documents technical writers and scientists will find the book a good reference material

The Art and Science of Documentation Management 2003

with numerous opportunities to practice writing that is applicable in a professional environment document based cases for technical communication uses seven context rich scenarios and more than 50 sample documents to provide you with opportunities to analyze revise and design

Communicating Design 2007

university of wisconsin milwaukee school of nursing s comprehensive charting and documentation manual for students and practitioners

Written Documents in the Workplace 2008-01-09

successful web design teams depend on clear communication between developers and their clients and among members of the development team wireframes site maps flow charts and other design diagrams establish a common language so designers and project teams can capture ideas track progress and keep their stakeholders informed in this all new edition of communicating design author and information architect dan brown defines and describes each deliverable then offers practical advice for creating the documents and using them in the context of teamwork and presentations independent of methodology whatever processes tools or approaches you use this book will help you improve the creation and presentation of your wireframes site maps flow charts and other deliverables the book now features an improved structure comprising two main sections design diagrams and design deliverables the first focuses on the nuts and bolts of design documentation and

the second explains how to pull it all together new deliverable design briefs as well as updated advice on wireframes flow charts and concept models more illustrations to help designers understand the subtle variations and approaches to creating design diagrams reader exercises for those lonely nights when all you really want to do is practice creating wireframes or for use in workshops and classes contributions from industry leaders tamara adlin stephen anderson dana chisnell nathan curtis chris fahey james melzer steve mulder donna spencer and russ unger as an educator i have looked to communicating design both as a formal textbook and an informal guide for its design systems that ultimately make our ideas possible and the complex clear liz danzico from the foreword

The Art of Technical Documentation 2014-05-16

in how to communicate technical information you will learn how to write printed and online computer documentation that is simple clear interesting and user friendly technical writers jonathan price and henry korman map out easy to follow methods and include practical tips to help you create hardware and software documentation that is accessible to both beginning and experienced end users how to communicate technical information discusses easy to follow and user friendly ways of organizing information demonstrates how to use the art to communicate context multiple options and results offers new ways to present both quick start options for experienced users and installation instructions presents effective new methods for supplying computer based training cbt including sophisticated graphic and hypertext tours and demonstrations includes information on online help that suggests methods for integrating this feature into your documentation throughout the book the authors share the techniques they present in their popular seminars as they provide straightforward and interesting ways of organizing information price and korman also suggest practical methods for developing good writing styles 0805368299b04062001

Document-Based Cases for Technical Communication 2020-04-29

having a great idea or design is not enough to make your software project succeed if you want stakeholders to buy into your design and teams to collaborate and contribute to the vision you also need to communicate effectively in this practical book author jacqui read shows you how to successfully present your architecture and get stakeholders to jump on board misunderstanding and lack of buy in leads to increasing costs unmet requirements and an architecture that is not what you intended through constructive examples and patterns this book shows you how to create documentation and diagrams that actually get the message across to the different audiences you ll face this book shows you how to design diagrams and documentation appropriate to your expected audience intended message and project stage create documentation and diagrams that are accessible to those with varying roles needs or disabilities master written verbal and nonverbal communication to succeed in technical settings apply the communication patterns presented in this book in real world projects and software designs communicate and collaborate with distributed teams to successfully design and document software and technical projects

Documenting Care 1991

this work is a collection of essays that examines how practioners can improve the acceptance of their documentation when communicating to cultures other than their own bernstein s elaborated and restricted code theory and schmidt s compliance gaining theory are utilized

Communicating Design 2010-09-15

this book is designed to address the randomness of the literature on software documentation as anyone interested in software documentation is aware the field is highly synthetic information about software documentation may be found in engineering computer science training technical communication management education and so on perspectives on software documentation contains a variety of perspectives all tied

together by the shared need to make software products more usable

How to Communicate Technical Information 1993

words are not always the best medium for communicating technical information sometimes a picture a simple animation or a short video can intuitively show within a few seconds what words can hardly describe however there are also cases in which pictures are too complicated and videos are too slow in conveying information for effective technical communication images and videos need to be used exactly where they are most efficient and they need to be designed to clearly convey their particular message this book shows you the principles of creating effective visuals topics covered choosing the right medium and place what works best in a particular case text images animations videos interactive components how many images should you include and where should you put them common basics of visualization general design principles that apply to both creating images and creating videos images in general fundamental tips for creating effective images no matter what these images show images of hardware particular tips for creating drawings and photos that show physical devices images of software particular tips for creating screenshots and other images of software video design tips for creating effective instructional videos as well as solutions for embedding these videos into technical documentation video production tips on how to organize the creation of instructional videos and on the underlying technologies interactive content ideas for implementing interactive components such as interactive 2d and 3d images hypervideos and augmented reality applications like all the books of the technical documentation best practices series the book focuses on practical tips and examples that are easy to implement in real projects in case you don't create your visuals yourself but instead assign this task to a graphic designer or to an agency the book makes you a competent client and gives you the expertise to review the results critically

Communication Patterns 2023-10-06

computer interfaces and documentation are notoriously difficult for any user regardless of his or her level of experience advances in technology are not making applications more friendly introducing concepts from linguistics and language teaching language and communication proposes a new approach to computer interface design the book explains for the first time why the much hyped user friendly interface is treated with such derision by the user community the author argues that software and hardware designers should consider such fundamental language concepts as meaning context function variety and equivalence she goes on to show how imagining an interface as a new language can be an invaluable design exercise calling into question deeply held beliefs and assumptions about what users will or will not understand written for a wide range of computer scientists and professionals and presuming no prior knowledge of language related terminology this volume is a key step in the on going information revolution

Cross-cultural Communication 2006

as fast paced technical changes are transforming the field of information science this book explores in depth the early stages of the field through the history of the american society for information science asis which began in 1937 as the american documentation institute adi adis early years coincided with the period when the organization communication and retrieval of information began to undergo critical changes at this time its appointed members represented the scientific and scholarly elite of the country adi offered innovative services that allowed research workers to obtain published information from remote sources and initiated a new channel for distribution of unpublished data only in the early 1950s did adi become a membership organization examining this period irene farkas conn raises important questions how did the adi come about did its founding signal the beginning of a new profession was it then or still now a technology driven organization bringing together her knowledge of organizations insights gained from interviews with key actors and analysis of archival

collections and private papers she reconstitutes the emergence of the field as the history of asis is covered beginning with a detailed survey of the post world war i period that preceded the creation of adi covering topics such as the impact of national science the introduction of microfilm for dissemination of scientific and scholarly information copyright and documentation in the mid 1930s she leads up to a discussion of the establishment and early years of the institute the next sections covering world war ii and the post war period bring out the tie between the organization of wartime research and development and scientific communication which contributed to the winning of the war the concept of a scientific information institute that would embrace bibliography announcement and distribution of scientific work which watson davis developed in the 30s was being realized in the postwar period when the cumulated results of wartime research had to be made available to the public under presidential order the remaining chapters chart international interests restructuring of the institute and the role of government and the profession in a changed society the book includes a selected bibliography embodied in the endnotes and an index

Perspectives on Software Documentation 2020-11-25

practical authoritative and the first comprehensive guide to managing every phase of your publication project the only book devoted exclusively to technical publication project management managing your documentation projects arms you with proven strategies and techniques for producing high quality extremely usable documentation while cutting cost and time to market dr joann t hackos a top documentation design and project management consultant to major corporations including ibm and hewlett packard shares with you the fruit of her more than 15 years of experience in the field she gives you clear cut rational guidelines to managing every phase of the project from planning and development through production distribution and project evaluation scores of usable templates checklists summaries and forms dozens of real life case studies and scenarios taken from the author's extensive experience at top corporations techniques applicable to virtually all fields of documentation managing your documentation projects was designed to function as a comprehensive guide for new managers and a daily tool of survival for veterans it is also an invaluable resource for technical writers editors graphic designers consultants and anyone called upon to produce high quality technical documentation on time and within budget joann t hackos phd is president of comtech services inc an information design firm in denver colorado and san jose california she is also president of joann hackos associates inc a strategic planning and management consulting firm in 1993 she served as president of the society for technical communication stc and is a frequent conference keynote speaker on such topics as quality and usability of products and services the importance of meeting the needs of the customer and project management

Communication Et Documentation 2018

annotation government documents forms brochures letters and policy papers that are difficult to understand create problems both for the public they're intended to help and for government agencies in this collection researchers from five universities in the netherlands survey recurring problems in government documents and offer possible solutions the contributors are linguists document designers and other communication experts who have studied public documents both empirically and from a design point of view though the subject is dutch documents the text is in english and the work may be of interest to those investigating government communication in other nations as well as those who produce similar documents in the private sector annotation c book news inc portland or booknews.com

Communication 2020-10-25

communications for ict is an essential guide to technical communication for it professionals whether you want to become a technical writer or simply an it professional who wants to become better at doing documentation and that can boost your career this handy guide is for you going well beyond the conventional technical communication text book it also includes important topics such as professional conduct argument persuasion software project documentation like requirements specifications international communication high performance project teams and the ethical technologist these are in addition to how to write technical reports user manuals and whitepapers communications for ict is the prescribed text for a course by the same name in the school of ict at griffith university a top ten research university in australia the author combines 15 years of practical experience as a technical writer in the it industry with his ongoing academic teaching and research since 1999 dr tuffley has produced a practical guide that can be understood and applied by any it industry worker wishing to develop these important but often neglected skills free template offering outstanding value for money communications for ict provides you with instruction that is the equivalent of a high quality university level education included in the price are handy downloadable templates that allow the would be technical writer to be off to a flying start with documents such as user guides software requirements specifications design documentation and test plans

Language and Communication 1999

a revolutionary new resource that brings documentation product management ideas up to date the 1994 bestselling classic managing your documentation projects set the industry standard for technical documentation however since then much has changed in the world of information development with this new title joann hackos looks beyond the structured project of the 1980s and 1990s instead she focuses on the rapidly changing projects of the 21st century and addresses how to introduce agile information development without neglecting the central focus of planning information design and development around the needs of information users as an information development manager you are expected to reduce costs and project time do more work with fewer resources and less money and increase the value of the information you deliver recognizing this hackos has carefully designed this book to help you do precisely that she helps you make strategic decisions about information development and directs the discussion of project management toward smarter decision making an update of the original 1994 information process maturity model ipmm presents you with a method by which you can compare the state of your organization to others evaluate your current status and then consider what is necessary in order to move to the next level information development offers a completely new look at best practices for all phases of the document development lifecycle including managing a corporate information portfolio evaluating process maturity partnering with customers and developing user scenarios developing team effectiveness and collaboration planning and monitoring information projects managing translation and production evaluating project performance managing for quality efficiency and cost effectiveness the companion site includes electronic versions of the templates and checklists featured in the book wiley technology publishing timely practical reliable visit our site at wiley.com compbooks

From Documentation to Information Science 1990-12-30

ever wonder what to put in a nursing note this pocket sized guide provides you with over a hundred templates for written and verbal communication in nursing to help you

Fundamentals of Engineering Documentation and Communication 1985-05-01

using documents presents an interdisciplinary discussion of human communication by means of documents e g letters cultural scientists together with researchers from media science and media engineering analyze questions of document modeling including a document s contexts of use on the basis of cultural theory the research also concerns the debate on the material turn in the fields of cultural studies and media studies looking back on existing work texts on written communication by the philosopher and sociologist georg simmel and by an interdisciplinary french group of authors under the pseudonym roger t pédaque are taken as a starting point and presented afresh a look ahead to the future is also attempted whereas the modeling including technical modeling of documents has to date largely been limited to the description of output forms and specific content the foundations are laid here for including documents contexts of use in models that are grounded in cultural theory

Managing Your Documentation Projects 1994

they re supposed to be useful tools but whether they re printouts computer files flowcharts or forms documents can often give more headaches than help and yet without them most organizations couldn t function iso 9001 and other quality management systems place great emphasis on documents and for good reason documents aren t individual stand alone elements of the management process they re interrelated formatted in different media and controlled by various and distinct functions keeping critical information current and in the right hands requires more than just signing off on procedures document control is essential but where should you begin inside you ll find clear explanations about the document control process as well as practical solutions for creating organizing and maintaining documents including a discussion of different kinds of documents including electronic media and qms requirements identifying and defining responsibility understanding the relationship between documents and records tips for document writers managing and maintaining documents issues of accessibility handling revisions and deviations writing document control procedures

Reading and Writing Public Documents 2001-01-01

in recent years extensible markup language xml has had a major impact on software development and data interchange and has begun to have a similar effect in technical communication xml provides a platform independent vendor neutral source language for publishing documentation of all kinds and in any output format xml solutions have already been adopted by many technical publication departments while others are poised to make the move to xml authoring tools publishing tools and content management systems are providing support for xml languages in particular darwin information typing architecture dita one of the xml languages designed specifically for technical documentation increasingly technical communicators therefore need to understand what xml has to offer and how it can be used in the various areas of technical communication this book fills an important gap in the market by providing a broad introduction to xml and its role in technical communication it describes the basics of xml syntax and terminology the use of xml in technical communication and the advantages it can bring to the production of technical documentation of all types it introduces the key xml languages that are used for technical documentation both as documentation source formats and for transforming source documents to various output formats the book will be invaluable to anyone who needs a fast introduction to xml and its role in technical communication such as those whose organization is deploying an xml based documentation solution or freelancers who need to keep pace with technical trends it caters for technical communicators of all levels of markup language experience providing a comprehensive yet easy to read overview of the use of xml in technical communication as well as references to more in depth material this revised and updated second edition now includes a section about s1000d the international specification for the production of technical publications that is widely used in the aerospace and defence industries other additions include more information about how xml facilitates common technical communication tasks and more material about

docbook charles cowan fistc is a principal technical writer with the oracle corporation he has worked as a technical communicator for over a quarter of a century developing documentation for various clients and software companies in belgium germany and switzerland as well as in the uk and ireland he is an ibm certified developer in xml and related technologies and holds postgraduate qualifications in computing and software development

Communications for Ict 2011-09-01

Information Development 2007-01-29

scholars teachers and practitioners of organizational professional and technical communication and rhetoric are target audiences for a new book that reaches across those disciplines to explore the dynamics of the holocaust more than a history the book uses the extreme case of the final solution to illumine the communicative constitution of organizations and to break new ground on destructive organizational communication and ethics deadly documents technical communication organizational discourse and the holocaust lessons from the rhetorical work of everyday texts starts with a microcosmic look at a single nazi bureau through close rhetorical visual and discursive analyses of organizational and technical documents produced by the ss security police technical matters group the bureau that managed the nazi mobile gas van program author mark ward shows how everyday texts functioned as boundary objects on which competing organizational interests could project their own interpretations and temporarily negotiate consensus for their parts in the final solution the initial chapters of deadly documents provide a historical ethnography of the ss technical bureau by closely describing the institutional and organizational cultures in which it operated and relating organizational stories told in postwar testimony by the desk murderers themselves then through examination of the primary material of their documents ward demonstrates how this social darwinist world of competing nazi bureaucrats deployed rhetorical and linguistic resources to construct a social reality that normalized genocide ward goes beyond the usual weberian bureaucratic paradigm and applies to the problem of the holocaust both the interpretive view that sees organizations as socially constructed through communication and the postmodern view that denies the notion of a preexisting social object called an organization and instead situates it within larger discourses the concluding chapters trace how contemporary scholars of professional communication have wrestled with the nazi case and developed a consensus explanation that the desk murderers were amoral technocrats though the explanation is dismissed by most historians it nevertheless offers ward argues a comforting distance between us and them yet as ward writes first we will learn more about the dynamic role of everyday texts in organizational processes second as we see these processes perhaps inherent to all

organized communities including our own at work even in the extreme case of the ss technical matters group the comforting distance that we now maintain between them and us is necessarily diminished and third our newfound discomfort may open productive spaces to revisit conventional wisdoms about the ethics of technical and organizational communication

Nursing Notes the Easy Way 2010-11-01

the documentation system described in this text is designed to support good manufacturing practices gmp in a medical manufacturing environment however the usefulness of the system can be extended to other areas of a corporation development clinicals marketing finance as well as to many other unrelated nonmedical industries the principles the decision making inherent in documentation system design remain the same no matter what the product or business the book describes the creation use control of the descriptive documents data collection documents numbering systems data files that are appropriate for use in an industry subject to good manufacturing practices the text was written as a guideline for the individuals who must design the systems work with them routinely the descriptive documents presented in this book are designed to serve two purposes to direction task specific events to educate the reader about the event in a manner that supports responsible decision making it presents the major components of a gmp documentation system gives examples of design format content explains how these components interact us42 95 plus shipping tax where applicable call or write advanstar communications marketing services 7500 old oak boulevard cleveland oh 44130 216 826 2839 or 800 598 6008
