a portrait of patriots and pioneers of sevier county recognizes over one hundred patriots who fought for our country s independence during the revolutionary war and later called sevier county home at the end of the war they wanted to settle down and raise a family in a place filled with possibilities many fought with john sevier at the battle of boyd s creek and witnessed firsthand what this area offered an abundance of tillable land rivers streams

wild game and timber these tough brave men came here to fulfill their dreams of a better life an area that was still indian territory with no form of government they fought the indians built cabins schools libraries roads ferries mills and blacksmith shops and in a very short period of time they established the county of sevier and the city of sevierville these patriots deserve to be recognized and remembered for their sacrifices struggles hard work and determination most of them lived the rest of their lives in these hills and valleys but a few moved on in their search of another dream as a member of the daughters of the american revolution i m proud that three of these patriots are my ancestors it is my desire that this book will be used to assist others in their search for a revolutionary war patriot or patriots who can be added to their family tree

many suppose that he was a rough coarse backwoodsman almost as savage as the bears he pursued in the chase or the indians whose terrors he so perseveringly braved instead of this he was one of the most mild and unboastful of men refined in his tastes and

his deportment never uttering a coarse word never allowing himself in a rude action he was truly one of nature's gentle men with all this instinctive refinement and delicacy there was a boldness of character which seemed absolutely incapable of experiencing the emotion of fear and surely all the records of chivalry may be searched in vain for a career fuller of peril and of wild adventure this narrative reveals a state of society and ways of life now rapidly passing into oblivion it is so important for these stories of old to be retold so that we may know the scenes through which our fathers passed in laying the foundations of this majestic republic it is probable that as the years roll on the events which occurred in the infancy of our nation will be read with ever increasing interest it is the intention of forgotten phoenix press to issue a series of sketches of the prominent men in the early history of our country
